## HOUSE VOTES 304 TO 99 TO REPEAL 'PINK SLIP' CLAUSE

Measure Now Goes to Senate Where It Originated—Norris and Others There Have Declared Opposition to Proposal.

### 304-99 ROLL CALL DECIDES THE ISSUE

Republican Leader Snell Says Publicity 'Caters to Worst Element in Society'—Democrats Assail His Point of View.

WASHINGTON, March 11.—Repeal of the income tax publicity law was voted by the House today. The repeal bill now goes to the Senate where the publicity proposal was enacted.

The vote was 304 for repeal to 99 against. Senate independents, including Senator Charles McNary, have said they would oppose repeal of the publicity law.

Democrats, however, have said they would support repeal of the publicity law. The measure would require every return to be accompanied by a "pink slip" listing important figures for public inspection.

While income tax returns must be filed by March 15, Treasury officials said the task of assembling information probably would be completed by the end of the year.

The measure would require every return to be accompanied by a "pink slip" listing important figures for public inspection. The measure would require every return to be accompanied by a "pink slip" listing important figures for public inspection.

## U. S. MARSHAL SENDS FOR BROWN AND "GULLY" OWEN

Summons Officers of Brown-Owen, Inc., Liquor Firm, Affairs of Which Have Been Under Investigation.

It was learned today that Beverly Brown, "Gully" Owen and William Molasky, officers of Brown-Owen, Inc., wholesale liquor dealers in the Mart Building, had been notified to appear at the office of the United States Marshal in the Federal Building.

An attorney representing these men, who would not be quoted, told a Post-Dispatch reporter that the summons probably would not be obeyed before tomorrow.

Federal Judge Davis, in open court Saturday, ordered warrants issued in 11 suppressed indictments on request of Assistant District Attorney Hapke. At Hapke's suggestion, the court set bond at \$1000 for defendants in 10 of the cases in the Southeastern division, and

\$5000 each for the defendants in the remaining case, which Hapke told the court was in St. Louis and which involved four persons.

As has been told, the Federal grand jury conducted an investigation of the business of Brown-Owen, Inc., of which Brown is president, Owen vice-president and Molasky secretary-treasurer.

Agents of the Federal Alcohol Tax Unit had made an investigation of the Brown-Owen business, reporting their findings to District Attorney Blanton. It was understood their reports included statements that they found discrepancies in the books of Brown-Owen, Inc., both as to reports of shipments into dry territory and as to the company's record of purchases and sales of liquor.

## JUDGE FIRED, 10 HELD IN SHAKEUP OF BAR GROUP IN RUSSIA

Executive Committee Accused of Admitting Trotsky and Zinovieff Sympathizers.

MOSCOW, March 11.—The alleged admission of Trotsky and Zinovieff sympathizers into the Bar Association of the Western Province of Brackets, adjoining Moscow, caused dissolution yesterday of the association's executive committee and 10 of its members were held for trial.

The committee was also accused of inviting former Kulak priests and private traders to become members, at the same time "persecuting" young lawyers loyal to the Government.

Maladministration of funds entrusted to the committee's care were added charges. One Judge of the Provincial Court, reported to have been involved, was discharged and expelled from the Communist party.

## CHAUFFEUR FINED \$1050 ON SEVEN TRAFFIC CHARGES

Machine Driven by Thomas Whitney Hit Two School Children on Jan. 22.

Thomas Whitney, a chauffeur, 4381 Forest Park avenue, was fined \$1050 on seven traffic charges today by Police Judge Simpson. The charges were two of leaving the scene of an accident, two of careless driving and one each of failure to make a school stop, failure to obey the direction of a police officer and failure to drive on the right side of the street.

Testimony was that on Jan. 22 Whitney failed to heed a policeman's stop signal at Vandeventer avenue and Russell boulevard, and his automobile knocked down and slightly injured two school children, Frank Fenario, 9 years old, 5218 Northrup avenue, and Daniel Lange, 8, 5015 Shaw avenue; that he drove on without stopping and at Castleman avenue collided with an automobile driven by Miss Mary E. Miller, a school teacher, 5088 Cabanne avenue, slightly injuring her.

Whitney did not testify or offer a defense. He will appeal.

## ROOSEVELT GOES OVER MONETARY AFFAIRS WITH AIDS

Treasury Calls in 2 Pct. Consols and Canal Bonds —to Retire National Bank Notes Soon.

### FEDERAL RESERVE ISSUES CONTINUE

"Free" Gold in "Profit" From Devaluation to Be Earmarked for \$600,000,000 in Obligations.

WASHINGTON, March 11.—The monetary situation was canvassed by President Roosevelt with representatives of the Treasury and Justice Departments and the Reconstruction Finance Corporation today, but no new moves were indicated afterward.

Roosevelt talked for an hour with this group. It was said further conferences would be held.

Secretary of the Treasury Morgenthau and Attorney-General Cummings headed the administration aids who met at the White House. Others present included Undersecretary Coolidge of the Treasury, Herman Oliphant, Treasury counsel; Angus McLean, assistant solicitor-general; and Stanley Reed of the Reconstruction Finance Corporation.

Secretary of State Hull joined the meeting for a few minutes.

### TREASURY CALLS IN 2 PCT. CONSOLS AND CANAL BONDS

Special to the Post-Dispatch.

WASHINGTON, March 11.—When the Roosevelt administration called in all the gold in the country and then devalued the dollar there was created a \$2,812,000,000 "profit" for the Government. The Treasury announced yesterday that a part of this, some \$600,000,000 in "free" gold, or gold against which there is no currency in circulation, would be used to retire a part of the public debt.

The action calls for retirement of outstanding bonds against which national banks may issue their own currency.

Officials pointed out that more than two billion dollars of the "profit" would remain in the stabilization fund, which was established to protect the value of the dollar and keep it from going too high or too low in relation to foreign currencies.

**Bonds to Be Retired.**

Specifically, the Treasury called for retirement of July 1 of the 2 per cent consols of 1930, outstanding to the extent of about \$900,000,000, and the 2 per cent Panama Canal loan bonds of 1916-36, and 1918-38 for redemption on Aug. 1.

They will be paid off with the "free" gold. The Treasury is to issue what in effect are gold certificates and will earmark a like amount of the metal. These certificates will not pass into circulation but will remain in Federal reserve banks.

The retirement, together with the expiration on July 22 of a provision of the Federal Home Loan Act which gave the Federal Reserve privilege to all United States bonds having an interest rate of 3 1/2 per cent or less, will result in the complete elimination of national bank notes. This was contemplated at the time of passage of the Federal Reserve Act.

**Mostly in Stabilization Fund.**

National bank notes outstanding on Feb. 1 amounted to \$876,000,000. It is expected most of these would be canceled within a year. This will leave Federal Reserve notes, silver certificates and United States notes in circulation.

Under the Treasury plan, the national banks will lose the power to issue currency against certain Government bonds, a right which they have had since they were created during the Civil War.

In announcing its plan to use some of the devaluation "profit" to retire indebtedness, the Treasury said retirement of the bonds and the expiration July 22 of authorization for the issuance of national bank notes against other bonds, would accomplish a simplification of the currency system through the elimination of national bank notes. More than \$500,000,000 of the bonds being called were reported to be on deposit with the Treasurer of the United States as security for this type of currency.

**National Bank Note Retirement.**

"National bank notes will be retired as rapidly as they are presented to the Treasury," said the statement. "It is expected that the great majority will be canceled within a year. This will leave as permanent circulation Federal Reserve notes, silver certificates and United States notes. Additional Federal Reserve notes will be issued to replace the national bank notes as they are retired, and as demand arises."

"National bank notes will merely be replaced by Federal Reserve notes," it said. "The effect on member bank reserves will be immaterial."

"Of the \$2,812,000,000 gold 'profit,' the bulk was placed in the stabilization

## Scene of Warfare in Greece

### REBELS ON RUN, 3000 ARE TAKEN CAPTIVE IN GREECE

Continued From Page One.

today's operations, the Government employed all its airplanes, which totaled only 27. The machines dropped only occasional bombs and they landed in open spaces and caused no casualties.

Governor-General Rallis of Saloniki told the Associated Press correspondent that the rebel cruiser, Helle, after bombardment by Government planes, hoisted a white flag and surrendered.

"This is our first real victory," said Rallis, "and it will be a prelude to more. With our bombing airplanes over her, the Helle is steaming reluctantly at full speed toward Saloniki."

"This is the beginning of the end. On the field, we are meeting no resistance. I am sure our aviators will eventually locate the Averof (flagship of the rebel fleet) and either sink or destroy her."

**Newspaper Men Detained.**

In reprisal for unfavorable reports published abroad regarding the internal situation, the Greek Government has decided to hold those newspaper men who criticized the Government as virtual prisoners.

The first victim was Henry de la Pre of the Petit Journal of Paris, who is incommunicado in Saloniki. Didier Poulains, aviation correspondent of the Paris Journal, was arrested and dragged off a train at Saloniki when, after having given his official passes to the police, he was charged with having presented no credentials. Only the intervention of the French Consul saved Poulains from imprisonment.

Several American correspondents are detained in Saloniki, the Greek Government having refused to grant them permits to leave the country.

**Station Clash Averted.**

Guards averted what might have been a serious clash at the Athens railway station when 40 officers from the Saloniki garrison who were arrested on charges of conspiring with the rebels were brought here. Soldiers boarding a train started a demonstration manifesting their hostility to the prisoners and some citizens attempted to break through police lines before the guards succeeded in restraining them.

Unofficial reports said the casualties in the bitter fighting of the last 48 hours totaled 4000 on both sides. The dead lay where they fell.

**Food Exports Barred.**

Determined to concentrate its resources against the possibility of prolonged conflict, the Government declared an embargo on exportation of all foodstuffs. The military classes from 1920 to 1932 inclusive were called out in Macedonia as a reserve army.

Army pilots reported they dropped 12 tons of explosives on rebel barracks in the war zone and scored several direct hits. The aerial squadron also said it sank an oil tanker en route to provide the rebel fleet with fuel.

The collapse of the uprising was declared imminent in a statement issued by John Metaxas, acting Minister of War.

"Venizelos (Eleutherios Venizelos, former Premier and leader of the rebellion) is already beaten," the statement said.

"Wireless messages we have intercepted show that he has grasped the fact that the game he has tried to play is irretrievably lost."

**Land Conditions Aid Rebels.**

A similar view was contained in a statement by Under-Secretary of War Rodopoulos.

"Communique from Saloniki," his statement said, "described the situation clearly. The passage across the Struma already is an imminent military success as it permits maneuvers against fortified rebel positions."

"It must be noted that the rebel positions are naturally strong. Moreover, the rebels are at liberty to utilize the old German-Bulgarian fortifications remaining from the World War."

The whole Seres terrain is soggy and renders the movements of Gen. Kondylis difficult. He is, therefore, unable to proceed cautiously, restraining the enthusiasm of the troops to advance. Anyway, victory is ours."

Seaplanes set forth from the mainland to bomb Crete, the rebels' island headquarters, which was reported to have declared its independence.

Capt. Sakellariou, chief of the loyalist naval forces, announced the destruction under his command had shelled the rebel light cruiser Helle in Kavalla Harbor for an hour. The marine ministry said the bombardment was suspended for fear of damaging the town.

### Two Sons of Venizelos Say Crete Will Keep Independence

PARIS, March 11.—Two sons of former Premier Eleutherios Venizelos of Greece said today that their father would maintain the independence of Crete and continue the Greek revolution even if the revolutionary forces of Macedonia are defeated.

The two sons are Sophocles and Kyriakos Venizelos. With other exiled countrymen they are living in a Paris hotel.

"Father's strength is chiefly in Crete and not Macedonia," said Sophocles.

"Crete, which once was independent, now is independent again. We are not yet shown the strength of our hand, but father is organizing Crete and will use the Government's own ships to rid Greece of its incompetent regime."

"The revolution was not organized by father, but army and navy officers, disgruntled with the feeble Government, asked father to lead them. Father agreed after he saw the country suffering."

**HOUSE PASSES BILL TO REPEAL PINK SLIP LAW**

Continued From Page One.

ing derisive laughter from the Republican side of the House.

"Repeal of the publicity clause will only help the gangster, rich, and the racketeer bankers who defraud the Government of taxes," Truax said. "Who is for it?"

Farmers who never make an income tax return? No. The 11,000,000 unemployed? No. The 40,000,000 wage workers? No. They want all the publicity they can get. They want the incomes of the 2 per cent who file income tax returns."

**The Effect on Family.**

Representative Shannon (Dem., Missour.) one of the active sponsors of the repeal measure, argued that the head of a household was entitled to keep the size of his income secret from the members of his family.

"Let a man's family know," said Shannon, "and they'll destroy his savings. Let them know that he had a good year and they'll all start spending. From the littlest member of the family to the old lady herself, they'll all rush out and make the money fly."

Several members said that the Senate would kill the repeal measure even though the House should pass it. Those who have worked hardest for repeal, says 11, however, that an unofficial poll has disclosed 47 members of the Senate in favor of abolishing the pink slip.

Liberal Senators, such as La Follette and Norris are expected to put up a strenuous fight against it when it reaches the floor of the Senate.

Snell said today that it was his opinion that, even though the publicity clause should be struck out by the present Congress, income tax returns now being filed would become available to the public. All returns must be in by March 15 and it is highly improbable that the Senate would act, if it acts at all, by that time.

**Brother Leopold, S. C. S., Dies.**

By the Associated Press.

SOUTH BEND, Ind., March 11.—Brother Leopold, C. S. C., 98 years old, oldest member of the Holy Cross Order, died today. Funeral services will be held Wednesday morning at Notre Dame.

Leopold, who assisted the Rev. Edward Sorin, founder of Notre Dame University, established the Ave Maria, a magazine, and was known to many Notre Dame students.

## REVOLT IN GREECE CAUSED BY MOVE FOR MONARCHY

Royal Restoration Is Favored by Government and Opposed by Followers of Venizelos.

By JAMES A. MILLS.

Associated Press Foreign Staff.

(Copyright, 1935, by the Associated Press.)

GHEVGHHELLI, Greek-Yugoslav Frontier, March 11.—Greece is rent, not only by civil war, but threatened with widespread revolution as well as Communist uprisings among thousands of tobacco workers in Macedonia. I learned from unquestionable sources before I left Greece yesterday.

The rebel fleet, which is somewhere among the Aegean Islands, apparently is awaiting a favorable moment to bombard the cities of Kavalla and Saloniki.

Today was the eleventh day of the revolution, which has lasted longer than any other five revolutions during the last 10 years. All possibility of peace seemed to vanish when Government forces began their offensive against the rebels along the Dolan-Seres front, which had already been drenched with blood in the grim four-year struggle of the allies against the Central Powers 20 years ago.

**Rebel Reprisals Feared.**

Heavy casualties were reported on both sides. It was feared that the Government's air attack in which 22 planes participated might cause the rebel flotilla to take reprisals by bombarding Kavalla, Saloniki and Athens.

"If this occurred it might imperil many lives," said Government officials, army officers and private persons seem too terrified to speak, apparently fearing they will be accused of disclosing unauthorized information.

The movement for the restoration of a monarchy in Greece was favored by the present Government, which regarded revival of the dynasty as the only solution for disunity among the Greeks.

This plan is declared to have been one of the main causes for the rising of the Venizelist (followers of former Premier Eleutherios Venizelos, leader of the revolt), who want to preserve the republic at all costs.

At present nobody can predict with certainty whether the Government will survive the shock of the revolt.

The man of the hour seems to be Venizelos, for whom many Greeks show as much veneration as they did to the fabulous King Minos, who ruled classical Crete at the dawn of history.

No word has come from the famous 71-year-old statesman in his isolation on the island of Crete regarding his plans. The fate of Greece seemed to rest entirely in his hands.

**Fear of Soviet Republic.**

The Greek Government denied Donal F. McGonigal, United States Vice-Consul at Saloniki, permission to go to Drama, Seres, Kavalla and the publicity they in Greek Macedonia to warn all Americans there to leave for safer zones.

The representative of the Gary Tobacco Co. likewise was prevented from going to Seres to learn if his company's personal property was safe.

The great danger at present in Macedonia is that thousands of disaffected workmen in the great tobacco growing region about Kavalla may sack American tobacco warehouses and other property, create other disturbances or declare a Soviet republic in Macedonia.

American interests have more than \$35,000,000 invested in Macedonia and Greece. Thrace, including properties of the Rockefeller Foundation, the Uhlan Engineering Co., John Mooks & Sons, the Near East Relief Organization, U. M. C. A. and the American Educational and Agricultural Institution.

**Mission of British Ship.**

It now seems clear that the British cruiser Royal Sovereign went to Athens to prevent the rebel fleet from bombarding the capital and its art treasures.

The Simplon-International Express from Athens failed to arrive here today. The present fear here is that the rebel fleet may bombard the Athens-Saloniki Railroad where it touches the seacoast.

Harry L. Trautman of Macon, Ga., the United States Consul at Saloniki, is without news regarding the 32 native-born Americans marooned among the rebel forces in various parts of Macedonia. There are more than 1000 naturalized Americans of Greek birth in Macedonia and Thrace.

## HAUPTMANN'S WIFE TO SEEK APPEAL FUNDS IN OTHER CITIES

Attorney Reilly Says She Will Leave New York for Places in Midwest.

By the Associated Press.

NEW YORK, March 11.—Attorney Edward J. Reilly, back in his Brooklyn office today after 10 days in a hospital, announced he would send Mrs. Anna Hauptmann "on the road" to increase the fund being raised for the appeal of Bruno Richard Hauptmann, under death sentence for the murder of the Lindbergh baby.

"I don't know for sure who has put an end to Hauptmann fund contributions in New York," Reilly said, "but I have an idea."

"Mrs. Hauptmann and I have agreed that, in view of the opposition we have encountered from New York City authorities, the best thing we can do is carry our appeal to other cities."

He said that Mrs. Hauptmann would go to Detroit, Chicago, Milwaukee and "other cities with large German populations."

"It seems," he observed, "that many Germans as well as thousands of citizens of American stock have confidence in Hauptmann. I think their faith will be rewarded with a successful appeal of his conviction."

## MAN ACCUSED IN KIDNAPING LOSES EXTRADITION APPEAL

U. S. Circuit Court Orders Thomas H. Robinson Sr. to Louisville to Stand Trial.

CINCINNATI, O., March 11.—The Sixth District United States Circuit Court of Appeals upheld a lower court in Nashville, Tenn., today in effect ordering Thomas H. Robinson Sr., moved to Louisville, Ky., to stand trial in connection with the kidnapping of Mrs. Berry Stoll.

The elder Robinson is accused along with his son, Thomas H. Robinson Jr., and the son's wife, of conspiracy in kidnapping the Louisville woman and holding her for \$50,000 ransom. The senior Robinson had sought to release a writ of habeas corpus to release him from custody of officers about to take him from Nashville to Louisville. The court here upheld Judge H. V. Anderson of Nashville in denying the application. The younger Robinson, accused of the actual kidnapping, never has been apprehended.

**C. M. Tinney, Ex-Publisher, Dies.**

SPRINGFIELD, Ill., March 11.—Charles M. Tinney, 84 years old, former publisher of the Virginia Gazette and a prominent Republican politician, died here today. He was stricken with pneumonia 10 days ago. As a supporter of Gov. Yates, he was sergeant-at-arms during the deadlock Republican State convention in 1904. He was secretary of the Yates Campaign Committee.

## SENATOR AUSTIN SHIFTS ON WAGES FOR WORK RELIEF

Vermont Tells Senate He Will Vote With Administration on Revised Bill as It Stands.

By the Associated Press.

WASHINGTON, March 11.—Senator Austin (Rep.), Vermont, who voted for the "prevailing wage" amendment to the \$4,880,000,000 works relief bill, told the Senate today he would vote for the revised measure without that amendment if it were not materially changed before passage. The administration opposes provision for payment of private wages on public works.

Austin and his colleague, Senator Gibson (Rep.), Vermont had said previously, since the bill was reported the second time by the Appropriations Committee, that they would change to the administration's side on the wage issue if the provisions for earmarking the \$4,000,000,000 work fund, including \$350,000,000 for flood control, were retained. The administration is reported to have agreed to the flood control provision to switch the Vermonters' votes.

"I favor the committee amendments to the bill," Austin said, "and if it is not materially changed by parliamentary debate, I shall favor it."

In reporting the bill the second time after it was recommitted because of the deadlock over the wage clause, the Appropriations Committee struck out the McCarran "prevailing wage" amendment by a tie vote. Administration forces believe they can keep it out, although Senator McCarran (Dem., Nevada), has not given up hope.

There are reports of a new compromise on this issue, but administration leaders refused to comment. As originally reported, Austin said the bill called on Congress to make an "unconditional grant of power" to the President.

Instead of the broad purposes in the original preamble, under which opponents contended the President could have used the appropriation for anything he wanted, the committee substituted the brief phrase "to provide relief and work relief."

In the midst of the debate, Senator Glass (Dem., Virginia), introduced an amendment to the Senate rules which would prohibit speeches on extraneous subjects while an appropriation bill is pending.

## KILLED HIS FATHER

**RICHARD KLOES.**

ELEVEN-YEAR-OLD boy held at Buffalo, N. Y., who has confessed killing his father, John Kloes, with a shotgun. The boy said his mother told him to kill his father because "he is bad."

The case is before the grand jury.

## ARGUMENT IS POSTPONED IN NRA PRICE-FIXING CASE

Supreme Court Orders Briefs Filed on Whether It or New York State Has Jurisdiction.

WASHINGTON, March 11.—Arguments on the first NRA price fixing case to come before the Supreme Court was postponed today until April 8, to permit the filing of briefs on whether the Federal Government or New York State has jurisdiction.

The case involves the application of the Spielman Motor Sales Co., Inc., of New York for an injunction to restrain enforcement of the New York State NRA act for alleged violation of the motor vehicle retailing code.

After an hour's discussion of jurisdiction, attorneys were told to file briefs.

The company challenges the constitutionality of the National Industrial Recovery Act so sweepingly and in such detail that observers have said the Supreme Court, if it saw fit to do so, could give a decision that would finally dispose of most of the 250-odd NRA cases now working their way up in the lower courts.

The New York State NRA act, sometimes called the Shackson law, was declared unconstitutional by the State Court of Appeals in another case last week.

## DEALS IN GRANBY LTD. SHARES UNDER INQUIRY

New York Attorney Bought Heavily Before Senate Committee.

By the Associated Press.

WASHINGTON, March 11.—The Securities Commission today began an investigation into the stock transactions of Nathan L. Amster, New York attorney, and other officers of the Granby Consolidated Mining & Smelting Co., Ltd., of British Columbia, in the shares of that company.

Amster appeared an hour and a half late at the hearing, after which the Securities Commission counsel disclosed he had frantically searched for Amster since Feb. 25, in an effort to subpoena him.

Lynch read figures on Amster's transactions to show that he engaged heavily in the market after the company's board had transmitted certain information to stockholders.

This information was in a letter dated Nov. 8, 1934, warning stockholders that the directors felt the company's principal operating company should be closed.

But on Nov. 21 the company sent out another letter disclosing that it possessed quick assets of \$100,000 a share.

On the first letter, the stock had almost immediately from \$6.13 to \$4, but then, after the second letter, moved up rapidly to \$7.75.

Lynch said that of the 37,490 shares of the company which were traded in from Nov. 9 up to but not including Nov. 22, Amster brought 16,000.

All but 4200 shares, he bought at between \$4 and \$5 apiece, the balance at between \$5.13 and \$5.88.

## SIX MEN DROWNED WHEN AUTO BREAKS THROUGH ICE

Body of One Taken From Waters of Green Bay Near Sturgeon Bay, Wis.

By the Associated Press.

STURGEON BAY, Wis., March 11.—Coast guardsmen recovered the body of John Cornell Jr. today from the waters of Green Bay into which he and five companions were plunged yesterday when their automobile fell through thin ice.

The men, all residents of the fishing community on Washington Island, disappeared when driving over the ice on Portage Des Monts passage toward the harbor.

The men left Sturgeon Bay on a trip over the passage which connects the mainland and the island, at 11 a. m. Sunday. Passengers in the machine were Ralph Wade, 29 years old; Cornell, 21; Raymond Richter, 19; Roy Stover, 20; Leon Elmarson, 20, and Norman Nelson, 20, Wade was the driver.

LS IN GRANBY LTD.  
RES UNDER INQUIRY

York Attorney Who  
ought Heavily Before  
Senate Committee.

Associated Press.  
WASHINGTON, March 11. — The  
ties Commission today began  
investigation into the stock  
operations of Nathan L. Amster,  
York attorney, and other offi-  
of the Granby Consolidated  
& Smelting Co. Ltd., of  
Columbia, in the shares of  
company.  
ter appeared an hour and a  
late at the hearing, after  
Lynch — commission  
disclosed he had frantically  
for Amster since Feb.  
an effort to subpoena him.  
read figures on Amster's  
tions to show that he en-  
heavily in the market after  
company's board had trans-  
tain information to stock-

information was in a letter  
Nov. 8, 1934, warning stock-  
holders that the directors felt the  
company's principal operating com-  
pany should be closed.  
on Nov. 21 the company sent  
a letter disclosing that the  
stock had been sold at \$10.10  
per share.  
he first letter, the stock fell  
immediately from \$6.13 to  
then, after the second let-  
ter, it dropped to \$7.75.  
h said that of the 37,400  
shares of the company, which were  
in from Nov. 9 up to his  
including Nov. 22, Amster  
held 16,000.  
at 4200 shares, he bought  
at \$4 and \$5 apiece, the bal-  
ance between \$5.13 and \$5.88.

EN DROWNED WHEN  
TO BREAKS THROUGH ICE

One Taken From Waters  
Green Bay Near Sturgeon  
Bay, Wis.  
Associated Press.  
GREEN BAY, Wis., March  
11. — A man was drowned  
last night when he fell  
from a boat into the water  
near Sturgeon Bay. The  
man, who was 45 years old,  
was taken from the water  
by a fireman. The body  
was found floating in the  
water. The man was  
driving a boat which  
was carrying a load of  
logs. The boat broke  
through the ice and the  
man fell overboard. The  
body was found about  
100 feet from the shore.  
The man was identified  
as John J. Smith. He  
was a resident of Stur-  
geon Bay. The boat was  
owned by the Smiths.  
The man was driving the  
boat alone. The boat was  
carrying a load of logs.  
The boat broke through  
the ice and the man fell  
overboard. The body was  
found floating in the water.  
The man was identified  
as John J. Smith. He  
was a resident of Stur-  
geon Bay. The boat was  
owned by the Smiths.

COMPANY

ATTACKS INSULL'S ACTION  
IN PROTECTING STOCK DEAL

Prosecutor Cross-Examines Him at  
Embroidery Trial on Bol-  
stering Brother's Account.

Associated Press.  
ST. LOUIS, March 11. — Samuel  
Insull, president of the Middle West  
Electric Co., today testified  
to bolster the broker-  
age account of his brother, Martin.  
Insull wanted to prevent a run  
on the company's bonds under fire  
from the stock market.

## THREE IN AUTO KILLED BY TRAIN AT WENTZVILLE

St. Louisans' Car Struck  
by Wabash Freight at  
Grade Crossing Off High-  
way 40 in Rain.

### FOURTH MEMBER OF PARTY INJURED

Mrs. Frank J. Ruff, Mrs.  
Ollie Ladowsky and Au-  
gust P. Kohrmann Vic-  
tims of Accident.

The driver and a man, all from  
St. Louis, were killed and another  
seriously injured when their  
automobile was struck by a freight  
train at Wentzville, 22 miles west of  
St. Louis, yesterday afternoon. The  
dead were E. Ruff, 49 years  
old, of Hampshire street,  
St. Louis; Ollie Ladowsky, 42, sten-  
ographer, 1864 Cleveland avenue,  
St. Louis; and August P. Kohrmann, 47,  
president of the William Homann  
Co., 4027A Hartford  
street, St. Louis. Mrs. Ruff, 51, foreman for  
the same company, 4040 Humph-  
reys street, St. Louis, suffered fractures of  
the right leg and internal in-  
juries.

Heavy Rain Falling.  
The driver was Kohrmann's  
son, who was driving at the  
time of the accident. The grade  
crossing is about a mile off  
the highway. The view is open, but  
the heavy rainfall at the  
time of the crash, 5:25 o'clock,  
made it difficult to see. The  
train was a freight train, west-  
bound, carrying a load of  
logs. It was traveling at  
about 20 miles an hour. The  
automobile was traveling at  
about 10 miles an hour. The  
train struck the automobile  
from behind. The automobile  
was thrown through the  
air and landed on the tracks.  
The train stopped about 40  
feet from the wreckage. The  
driver and the man were  
killed. The woman was  
seriously injured. The fourth  
member of the party was  
injured. The train was  
carrying a load of logs.

Three Thrown Out.  
The driver and the man were  
thrown out of the automobile  
and landed on the tracks. The  
woman was thrown out of the  
automobile and landed on the  
ground. The fourth member of  
the party was thrown out of the  
automobile and landed on the  
ground. The train was  
carrying a load of logs.

## "Prince Mike's" Accuser After Verdict

GETTING a kiss from MRS. HENRY RIDLEY, her companion,  
when a jury in Supreme Court, New York, returned a \$25,000  
award for Mrs. Gould against her husband's brother, a lawyer and a  
detective. She had sued for \$500,000, alleging the three conspired to  
"frame" her to obtain evidence for a divorce suit. She charged  
"Prince" Michael Romanoff (Harry Gerguson) was hired to get her  
in a compromising position.

## ALLEGED BIGAMIST HELD FOR ROBBERY

Youth Said to Have Admitted  
Aiding in Theft of 100  
Suits, 50 Coats.

Angelo Lodotto, arrested on a  
bigamy charge less than two weeks  
ago, was charged with burglary and  
larceny in a warrant issued today  
against him and two other young  
men.  
Lodotto and the other two, who  
said they were Nicholas Lombardo,  
18, 5048 Ridge avenue, and Ray-  
mond Wacker, 20, 3033 Cass avenue,  
were arrested yesterday and admit-  
ted, police said, stealing 100 men's  
suits and 50 women's coats from  
the Mitchell Clothing Co., 620 Del-  
mar boulevard.  
Policemen driving along Third  
street between Delmar boulevard  
and Franklin avenue at 4 a. m. yester-  
day saw an automobile speed out  
of an alley as they approached.  
The automobile left Lodotto and  
the other two men behind. The three  
admitted, police said, that they had  
entered the store through a rear  
window, and handed the clothing  
out to the man who fled with it in  
the automobile as police ap-  
proached.  
Lodotto, who is 18 years old, was  
quoted by police as saying he par-  
ticipated in the robbery because he  
needed money to defend himself  
against the bigamy charge.

Mayor Holds First Meeting  
ON BACK TAX COLLECTION

Seeks to Co-Ordinate Work of De-  
partments in Going After \$16-  
000,000 in Levies.

The first of a series of meetings  
for co-ordinating the work of var-  
ious city departments, in order to  
collect as much as possible of \$16-  
000,000 in delinquent real and per-  
sonal taxes, was held today in the  
Mayor's office.  
Following the executive session,  
Mayor Dickman issued a state-  
ment asserting the city had suf-  
fered in the past due to laxity of  
collection departments and that  
prompt collection was to be looked  
for revenue instead of new taxes  
or increased rates. Auditors of  
large utilities will be interviewed.  
He has suggested that monthly bills  
be sent to delinquent taxpayers.  
Attending the meeting with the  
Mayor were Collector of Revenue  
Baumann, License Collector Renick,  
Assessor Coile, Budget Director  
Meyers, Associate City Counselors  
Wayman and Burkhardt and Car-  
ter Atkins, director of the Bureau  
of Municipal Research.

AUTO TOP RECOVERING

## GUNMEN SHOOT RIVAL OF LAZIA AT KANSAS CITY

Joe Lusco Waylaid and  
Seriously Wounded  
When He Walks Up  
Steps of His Home.

Special to the Post-Dispatch.  
KANSAS CITY, Mo., March 11. —  
Joe Lusco, husky North Side Demo-  
cratic leader, whose group is a  
rival of the John Lazia faction, was  
waylaid by gunmen shortly before  
last midnight and seriously wound-  
ed. He had recently dispensed with  
his bodyguard.  
He had alighted from his auto-  
mobile and had started up the steps  
leading to his house at 413 Olive  
street when the gunmen fired at him.  
The gunmen's car, a small dark  
sedan, contained three men, police  
learned. The car sped away. The  
men obviously had shot Lusco from  
a position behind him as he ran up  
the steps.  
A physician who attended Lusco  
said three bullets lodged in his left  
side, and an X-ray photograph  
showed a shotgun slug in his head.  
His right leg was broken. Lusco is  
in St. Mary's Hospital. Lusco re-  
ceived a blood transfusion. His con-  
dition was said to be "very critical."  
Lusco's life has been spent in the  
North Side. He associated with  
Lazia when the latter founded the  
North Side Democratic Club in 1928.  
Lusco's part was small, he had  
friends, though, and he wielded in-  
fluence. Several months before  
Lazia was murdered, Lusco and his  
leader fell out, probably over Lus-  
co's increasing influence. The young  
generation in the North Side had  
begun to follow Lusco.  
That break between Lazia and  
Lusco grew into a feud that led,  
some think, to the killings in the  
city election last March. Four men  
lost their lives. Many received  
gashed heads, and fist fights were  
numerous.  
Lazia, a T. J. Pendergast lieuten-  
ant, was shot to death last July  
10 by a gunman who was waiting  
for him in front of the Park Central  
Hotel, where he resided. A ballistics  
expert testified Saturday at the  
perjury trial of Eugene Reppert,  
former director of police, that Lazia  
was murdered with the same ma-  
chine gun used in the Union Sta-  
tion killings of 1933 in which one  
Federal agent, three policemen and  
Frank Nash, a recaptured convict,  
lost their lives. This attack ap-  
peared to be in an effort to  
free Nash.

MISSOURI CONGRESSMEN GIVE  
ALDERMEN NO ENCOURAGEMENT

Clark Tells Committee There Is  
Little Chance of FWA Earmark-  
ing Funds for Gas Line.

WASHINGTON, March 11. — The  
Natural Gas Committee of the U. S.  
House of Representatives today re-  
fused to endorse a bill to build a  
gas pipeline from the Texas Panhandle to St. Louis  
and other Middle-Western cities, to-  
day conferred with various mem-  
bers of the Missouri delegation in  
Congress.  
They seek to have \$60,000,000 of  
the proposed \$48,800,000 public  
works fund earmarked for building  
the gas line. They received little  
encouragement from Missouri mem-  
bers of Congress. Senator Clark  
told them the Administration was  
firmly opposed to earmarking any  
part of the huge fund for any spe-  
cific purpose. It was highly im-  
probable, he said, that any excep-  
tion would be made for the gas  
line.  
The delegation will try to see  
Public Works Administrator Ickes  
or one of his principal aides to-  
morrow or Wednesday. Ickes has  
stated that in his opinion the pro-  
posed pipeline could not be classi-  
fied as a public work. He recom-  
mended its construction with Govern-  
ment funds.  
The St. Louis delegation said they  
expected to remain in Washington  
for several days. They arrived yester-  
day in a private car, having ob-  
tained an appropriation from the  
Board of Aldermen of \$1000 for  
their trip to Washington.

STRIKERS VISIT MILLS' HOME

Bakery Employees Shout That He  
"Locked Us Out."

NEW YORK, March 11. — Shout-  
ing "Ogden Mills locked us out," a  
group of about 100 bakery employes  
paraded today before the large red  
brick mansion of Mills, former Sec-  
retary of the Treasury.  
The demonstrators, members of  
the Inside Bakery Workers' Fed-  
eral Labor Union, allege that they  
were discharged by the National  
Biscuit Co. Jan. 12 when they struck  
after the company refused to re-  
cognize their union as a bargaining  
agency. They centered their activi-  
ties at the Mills home on the  
ground that Mills is a director and  
stockholder in the National Biscuit  
Co. Mills was said to be in Cali-  
fornia.

## MISSISSIPPI RIVER RISES EIGHT FEET IN SIX DAYS

Recent Rains Make Stage at St.  
Louis the Highest Since  
July 4, 1933.

Recent rains in the vicinity of  
St. Louis and to the north have  
caused the Mississippi River to rise  
eight feet since Tuesday. This  
morning's reading was 16.7 feet, a  
rise of 1.2 feet in the last 24 hours,  
with a Weather Bureau prediction  
of a rise to about 20 feet by Wednes-  
day. Flood stage is 30 feet. To-  
day's stage was the highest since  
July 4, 1933, when 17.2 feet was  
reached.  
At Alton, where flood stage is  
21 feet, a level of 16.1 feet was  
reached this morning, with a fore-  
cast of more than 18 feet by  
Wednesday. The top of the cof-  
ferdam protecting a river lock under  
construction there is at 19.5 feet.  
Pumping, which kept the space in-  
side Cape Girardeau four inches  
slacked and the river allowed to  
seep in, to ease the pressure on the  
cofferdam. The water inside was  
four feet deep this morning and  
still rising. Work of pouring con-  
crete for the lock was stopped. The  
contractor moved out machinery  
and equipment last week.  
Slight flooding by the Meramec  
River in St. Louis County was pre-  
dicted by the Weather Bureau. At  
Valley Park, where flood stage is  
14 feet, the gauge reached 10.5 feet  
this morning, a rise of 5.6 feet in  
24 hours, and it was thought the  
river would be bankfull tonight.

RAINFALL HERE FROM SATURDAY  
MORNING UNTIL 2 O'CLOCK THIS AFTER-  
NOON WAS 2.89 INCHES, INCLUDING 1.34  
INCHES SINCE 7 O'CLOCK THIS MORNING.  
Since yesterday morning New Mad-  
rid, Mo., has had five inches of rain  
and Cape Girardeau four inches.  
Service on the Missouri Pacific  
Railroad between St. Louis and  
Poplar Bluff, Mo., was suspended  
this afternoon because of washouts  
at four places between Des Arc and  
Williamsville. Trains were rerouted  
through Thebes, Ill.

## FILIPINO WHO KNIFED WOMAN SAVED FROM CALIFORNIA MOB

Eight Sacramento Detectives Rescued  
Him After Rope Is  
Around His Neck.

SACRAMENTO, Cal., March 11. —  
The city jail protected Jose Banez,  
32-year-old Filipino, from mob an-  
ger today after his life had been  
threatened because of a knife at-  
tack upon a white woman, Lee  
Davis, 26.  
Police said the mob tossed a  
rope around his neck and was look-  
ing for a pole from which to hang  
him when eight detectives rescued  
him. The suspect was held in jail  
on charges of assault with a dead-  
ly weapon.  
After the knife attack, several  
men collared Banez and were mak-  
ing away with him when police ar-  
rived. The prisoner said later in the  
city jail he gave the woman all his  
money after they met several days  
ago, and said he lost his head when  
she ignored him.

## EX-POLICE CHIEF BACKS REPPERT AT PERJURY TRIAL

Louis M. Siegfried Testifies  
Former Director Ordered  
Men to Work Day and  
Night on Case.

By a Staff Correspondent of the  
Post-Dispatch.  
KANSAS CITY, Mo., March 11. —  
Political turnovers in the Kansas  
City Police Department were de-  
scribed today by Louis M. Siegfried,  
a former Chief of Police, testifying  
as a defense witness in the Federal  
Court perjury trial of Eugene C.  
Reppert, Director of Police at the  
time of the killing of four peace  
officers and Frank Nash, a recap-  
tured convict, at the Union Station  
here on June 17, 1933.

Siegfried, who resigned from the  
department a year before the crime  
after being demoted to captain un-  
der "home rule," said he encoun-  
tered Reppert leading a raid on a  
house, which turned out to be un-  
occupied, the afternoon of the shoot-  
ing, and heard Reppert tell his men,  
"This case has got to be made  
work on it day and night."

The former chief, one of a long  
series of witnesses to show police  
activity to contravene the Govern-  
ment's contention that Reppert  
gave a "hands off" order, said that  
as an officer he went up with the  
Republicans and down with the  
Democrats.  
On cross-examination, he was  
asked whether the institution of  
"home rule" here in 1932 wasn't  
designed to make "the political and  
drop out."

Witnesses, jury and spectators  
laughed into laughter. Between  
chuckles, Siegfried said: "Well, I  
guess so. But I didn't have any  
guarantee of it."

Under "home rule," he said he  
was reduced to a captaincy and re-  
signed when it was rumored "an-  
other demotion was on the way."  
The mystery of the missing ma-  
chine guns from the armored car  
occupied by two Kansas City police-  
men shot to death in the Union  
Station killing was mentioned  
again in the trial when John F.  
Clifford, telephone operator at de-  
tective headquarters took the stand.  
Clifford said the machine guns were  
on his desk when the two officers  
left, saying they were going to meet  
a Federal agent at the Union Sta-  
tion. He said the Police Depart-  
ment was active in pursuit of the  
murderers.  
Although one of the jurors be-  
came ill and was excused the trial  
proceeded without delay because

## MARRIED IN MIAMI

MRS. CONRAD G. BESCH,  
FORMERLY Mrs. Gladys Sut-  
ton, whose marriage, Thursday,  
at Miami, Fla., to the former head  
of the Standard Building Ma-  
terials Co., was announced yester-  
day. Before his divorce from  
Mrs. Mathilda Besch in 1933,  
Besch lived at 16 Kingsbury place.  
Mrs. Besch, daughter of a retired  
Army officer, lives at the Daniel  
Boone Apartments, 3733 Lindell  
boulevard. They are expected to  
return to St. Louis this week.

of the practice of using 13 jurors,  
the thirteenth man serving as a  
substitute. He took the sick man's  
place.

## OVERCOME BY AUTO FUMES

Mrs. Oscar Engler Found Uncon-  
scious in Garage.

Mrs. Oscar Engler, 6059 Garesche  
avenue, was overcome by carbon  
monoxide yesterday in the garage  
at her home. Revived by firemen  
with inhalators, she was taken to  
City Hospital.  
Police were told Mrs. Engler had  
gone to the garage to warm the  
motor of the automobile prepara-  
tory to going for a drive with her  
husband. Doors of the garage were  
left shut while the motor ran. En-  
gler, disturbed at his wife's long  
absence, went to the garage and  
found her unconscious.

## POLICEMAN CATCHES ROBBER IN CHASE

Man Surrenders After Officer  
Fires Four Shots From  
Pistol.

Making his rounds early this  
morning, Patrolman Thomas Lavin  
noticed that a rear door of a tav-  
ern at 4001 North Twentieth street  
had been forced. When he opened  
it a man jumped through a front  
window of the tavern.  
Lavin pursued the fugitive south  
on Twentieth street, firing two shots  
in the air, and then two at him.  
The man surrendered and said he  
was Joseph Ramsey, 40 years old,  
4001 North Broadway. He had a  
laceration on his right hand, either  
from the broken window or from  
one of Lavin's bullets.

## SALE OF MARQUETTE HOTEL ORDERED IN FORECLOSURE

John G. Burdeau, Special Commis-  
sioner, to Fix Date; Mortgages of  
\$630,000 in Default.

Foreclosure sale of the Marquette  
Hotel at Eighteenth street and  
Washington avenue, under a \$382-  
000 first mortgage held by the Gen-  
eral American Life Insurance Co.,  
was ordered today by Circuit Judge  
O'Malley. The date for the sale  
will be fixed by John G. Burdeau,  
named by the Court as Special  
Commissioner.

The hotel has been operated since  
December, 1933, by William Ber-  
berich as receiver. The Berberich  
Hotels, Inc., of which he is presi-  
dent, bought the property in 1931.  
In addition to the first mortgage  
there is a second of \$248,000 held  
by the Marquette Hotel Investment  
Co. Interest and principal pay-  
ments on both mortgages are in  
default.

## IN JAIL HERE IN DIPLOMA CASE

Woman, Former Iowa Official, Ar-  
rested at Sioux City.

Mrs. Myrtle Long, former secre-  
tary of the Iowa Board of Chiro-  
practic Examiners, was brought to  
St. Louis last night from Sioux City,  
Ia., to face a charge of misuse of  
the mails in a conspiracy to de-  
fraud by traffic in faked medical  
and chiropractic diplomas and li-  
censes. She was placed in the  
City Jail.  
Mrs. Long was one of eight per-  
sons named in a suppressed indict-  
ment returned recently by a Fed-  
eral grand jury. All but one of  
the defendants have been arrested.

# MELLON DISPUTES LEVY ON PROFIT IN MERGER DEAL

**Government Says \$6,500,000 Was Taxable, Not \$1,800,000 as Ex-Secretary of Treasury Asserts.**

By the Associated Press.  
PITTSBURGH, Pa., March 11.—Counsel for former Secretary of the Treasury Andrew W. Mellon today introduced testimony at Mellon's income tax hearing in an attempt to prove that the Government over-assessed his profits in the merger of the McClintic-Marshall Corporation with Bethlehem Steel.

The case is now in its fourth week before the Tax Appeals Board. More than \$1,000,000 of the \$3,068,000 which the Government is trying to collect from Mellon on his 1931 income is involved in the merger question.

Further inquiry into alleged "shadow sales" with the Union Trust Co. of Pittsburgh was deferred at the opening of the hearing.

**Garment Plant For Sale**  
A fully equipped garment manufacturing plant in Southeast Missouri city must be disposed of. No labor troubles. Plenty of available labor. Plant in hands of trustee in bankruptcy. Must be disposed of for cash immediately. Wire, write or call Ralph Stephens, Trustee, Chaffee, Missouri.

ing out of respect to the memory of Henry C. McElwain, president of Union Trust, who died Saturday in Atlantic City.

Ernest H. Van Fossan, presiding member of the board, granted the request of Frank J. Hogan, Mellon's chief attorney, to withdraw Carl R. Kobb from the witness stand until later.

"Shadow Sale" Inquiry Deferred.  
The board also held in abeyance its decision on the important question of whether the Government would be permitted to go into the bank's records to show alleged "shadow sales" with other persons.

The Government says Mellon had a net profit of \$18,000,000 in the Bethlehem merger, made from an investment of slightly less than \$2,000,000. Of this, the Government asserts \$6,549,900 was profit taxable at the surtax rate of 20 per cent.

Mellon says that only \$1,830,000—realized in cash from the sale of Bethlehem bonds that can be taxed, and that at the capital gain rate of 12 1/2 per cent.

The McClintic-Marshall Corporation grew from a \$250,000 organization in 1890 to a \$64,000,000 company in 1930. H. H. McClintic and C. D. Marshall each owned 20 per cent of the concern's stock, and Andrew Mellon and his brother, R. B., each 30 per cent.

Early in 1931 Bethlehem took over McClintic-Marshall's common stock, giving in exchange 240,000 shares of its common capital stock and \$2,460,000 of the bonds, all of which was distributed to the McClintic-Marshall stockholders.

The Government refused to accept Mellon's valuation of McClintic-Marshall stock at \$500 a share. This accounted for part of the increased amount in profit of the Government, says Mellon.

In the McClintic-Marshall distribution of the Bethlehem stock Mellon got 72,000 shares of common and

\$2,460,000 in bonds. In the same year Mellon sold the bonds for \$2,373,900, including accrued interest of \$12,500. Mellon figures that the bonds represented an investment of \$543,109 as of March 1, 1931, when the income tax law went into effect, and that he therefore had a profit of \$1,830,790 on this transaction which was reported.

## POLICE SERGT. WHITELEY DIES

He Had Been Ill Only Three Days of Heart Disease.

Police Sergeant John J. Whiteley, 39 years old, 4931 Arlington avenue, a member of the Police Department since 1913, died of heart disease today at De Paul Hospital. He had been ill only since Saturday.

Appointed as a telephone operator, he was made patrolman four years later and became one of the first dispatchers when the radio call system was installed. In 1932 he was made Sergeant and since then had been assigned to the Central and North Market street districts.

## HISTORIAN ADAMS HITS BACK AT AAA

Stands by His Charges as to Government Spending—Under Farm Act.

By the Associated Press.  
NEW YORK, March 11.—James Truslow Adams, the historian, repeated his charges yesterday against the workings of the Agricultural Adjustment Act and said he had not received the letter made public Saturday in Washington by Chester C. Davis, Administrator of the act.

"Mr. Davis," he said, "apparently has not seen fit to send me personally a copy of the letter in which he practically calls me a liar. At least I have received no such letter as yet."

In an interview last week Adams illustrated his theories on Government spending with three stories which he said reached him through "first hand sources." The accuracy of many of his statements was challenged in the letter Davis made public.

**Was Not Grower But Got \$1500.**  
One story concerned a man in the South who had an estate on which, Adams said, he had never tried to raise cotton. During the last year, Adams said, the AAA sent the man a check for \$1500 for cotton he did not grow.

The man protested, not once but several times, Adams said, but in the end accepted the money.

Of this man, Davis said: "You do not know any such person as you describe. No such person exists. No cotton benefit checks for \$1500 or for any other sum whatever have been sent to any other person as owners or operators of land on which cotton has never been grown."

Adams said Davis was mistaken, that Adams did know of such a case, and that the other stories cited were true, also.

**Certain of His Information.**  
"As to my statement of them, I would say that it is not only common knowledge throughout the entire country, North and South and West, that such cases as I mention have frequently occurred, but I quoted cases only from among those of which I have been informed by persons of unquestioned standing and veracity," Adams said.

"I may say, for example, that the second case was told to me personally by one of the most nationally known men in the country, the principal in the case and a man whose name is known to millions of Americans who may never have heard of Mr. Chester C. Davis."

"Mr. Davis says he does not know what I may have learned during a year in England or picked up on the Berengaria. I have not been a year in England, and I did not pick up any of this information as gossip, on the Berengaria or elsewhere."

"When I am in England, I am not, as Mr. Davis assumes, cut off from my own country. "It is becoming too much the habit of New Deal supporters or promoters to answer facts or arguments by calling names."

**Two Tavern Owners Arrested.**  
Owners of two 32 beer taverns were arrested by the police liquor squad over the week-end when police reported they were served with highballs. Those held were Charles Duvino, 4649 Page boulevard, and Savo Radulovich, 1228 South Broadway.

**Rivers' Stages at Other Cities.**  
Pittsburgh, 14 1/2 feet, a fall of 0.3; Cincinnati, 26 feet, a rise of 3.0; Louisville, 21.7 feet, a rise of 3.3; Cairo, 33.1 feet, a rise of 2.8; Memphis, 21.1 feet, a rise of 0.5; Vicksburg, 28 feet, a rise of 0.7; New Orleans, 9.2 feet, a rise of 0.1.

## AWARD TO GIRL SCOUT LEADER

Miss Fern Bartlett Named Winner of Scholarship.

Miss Fern Bartlett, 5275 Waterman avenue, has received the Lourdes scholarship award for work in Girl Scout leadership among handicapped children. It was announced today. Miss Bartlett has been captain of a troop at Michael School for five years.

The award includes a stay of two weeks at Camp Edith Macy, New York, and payment of expenses to an institute to be held in July in New York by delegates from national organizations working with handicapped children.

## COLLEGE GIRLS DANCE IN COLUMBIA CHURCH

Pastor Says Interpretation of  
Hymns Was "Lovely, But  
Purely Experimental."

By the Associated Press.  
COLUMBIA, Mo., March 11.—The  
interpretation of hymns through  
the dancing of 15 girls was wit-  
nessed by the congregation of the  
First Christian Church here last  
night.

Before 300 persons, including  
most of the leaders of the congre-  
gation, the dancers from Christian  
College swayed and glided to piano  
and vocal accompaniment, their  
movements symbolizing supplica-  
tion, humility and prayer.

"Any unfavorable reaction would  
come only from those who didn't  
witness the presentation," said  
Lieutenant-Governor Frank G. Har-  
ris, president of the board of trust-  
ees of Christian College and a mem-  
ber of the church's board of elders.

"It was lovely, but purely an ex-  
perimental thing," said Dr. C. E.  
Lemmon, pastor of the church. "We  
contemplate no immediate adoption  
of the dance as a regular part of  
the church service. The dances  
were presented in the educational  
hall so that everyone would have  
an opportunity to observe what the  
girls were trying to do."

The dancers wore black pajama  
suits and long gray silk dresses.  
They danced barefooted, their in-  
structor, Eleanor Minton Rhyns-  
burger, explaining it was the best  
way to maintain balance on the  
floor.

Among the hymns interpreted  
were "My Faith Looks Up to Thee,"  
"Three Kings of the Orient," "Hark,  
the Herald Angels Sing," and "O,

**\$7336 JUDGMENT AGAINST  
TWO IN POOL TO BUY STOCK**

Award Entered in Case of Gaetano  
Viviano and Estate of Chris  
Beckemeier Jr.  
Judgment for \$7336 against Ga-  
etano Viviano and the estate of  
Chris Beckemeier Jr. was entered  
today by Circuit Judge Hall in a  
suit brought by the estate of John  
F. O'Neill involving a transaction  
in stock of the old Republic Na-  
tional Bank, which closed in 1924.  
O'Neill and other stockholders of  
the bank formed a pool to buy the  
2356 shares of its stock held by Wil-  
liam F. Sachs, the bank's promoter,  
with the intention of selling major-  
ity control to another bank. Viviano  
and Beckemeier were members of  
the pool.  
Sachs, according to the testimony,  
received a note for \$23,032 for his  
equity in the stock, and assigned  
the note to O'Neill. The suit was  
based on this note. Originally there  
were nine defendants, but seven set-  
tled their share of the liability.

### ENGLAND-AUSTRALIA AIR RACE WINNER GETS HARMON TROPHY

International Award Made to C. W. A. Scott; Mme. Jeannette Piccard Honored in Her Class.

By the Associated Press.  
PARIS, March 11.—C. W. A. Scott, British pilot of the winning airplane in last fall's England-to-Melbourne air race, was awarded the Harmon international trophy of the International League of Aviators yesterday.

E. A. Lehmann, dirigible pilot; Jeannette Piccard, balloonist, and the late Helene Boucher of France, holder of the women's world speed record, were also named winners of the international trophies in their classes. Mme. Piccard, whose stratosphere flights with her husband won her the award, is the first woman ever to win any Harmon trophy except the aviatrix trophy.

Among recipients of national trophies were Commander Herbert V. Wiley, captain of the United States' ill-fated Macon; Dean Cullen Smith, W. E. Kepner and Laura Ingalls, also Americans; Charles Kingsford Smith of Australia, Edgardo Bonnet and Marta Leloir de Udaondo of Argentina, and Herman Baron of San Salvador.

Dr. Hugo Eckener, skipper of the Graf Zeppelin, received the greatest number of votes for the dirigible trophy but as he had won it five times before he was declared ineligible and the prize was awarded to Lehmann, his co-pilot.

### SQUARE DEAL LEADER SAID TO HAVE QUIT

Secretary Says E. J. Bourgeois Resigned After Dispute Over Organization Secrecy.

By the Associated Press.

BATON ROUGE, La., March 11.—Ernest J. Bourgeois was declared today to have resigned as president of the Anti-Huey Long Square Deal Association of Louisiana by Chester P. St. Amant, association secretary-treasurer, because of disagreement over "secrecy" in the organization.

St. Amant, who with others joined with Bourgeois two months ago to form the Square Deal Association to fight Senator Long's dictatorship, issued a statement bearing the name of F. C. O'Rourke Jr., another association leader, saying Bourgeois had resigned.

O'Rourke was designated in the statement as the new president of the Square Deal Association, who have demanded repeal of all Long's "dictatorial measures."

O'Rourke recently was accused by Long in a "murder plot" hearing he conducted of being one of several who conspired to have Long killed.

Long referred to O'Rourke, until recently an assistant operator in the absorption plant of the Standard Oil Co. refinery here, as the "chief agent of the Standard Oil" in the alleged "plot."

O'Rourke, a laboring man, several weeks ago said he had resigned his job with the company to save it embarrassment.

St. Amant said Bourgeois was present when the resignation statement was written, and that he concurred in it as speaking for him as well as for the steering committee of the Square Deal Association.

St. Amant would not comment upon the difference of opinion nor elaborate upon the statement's reference to "secrecy of the plans and policies of the Square Deal Association."

The statement contained the first official reference to any secrecy in the association.

Asked who were the members of the "steering committee," St. Amant declined to divulge their names, plainly indicating that the "secrecy" was intended to begin with the group's personnel.

**JOHN D. ROCKEFELLER SR.  
RECOVERING FROM COLD**

Has Been Confined to Bed in His Winter Home at Ormond, Beach, Fla.

By the Associated Press.  
ORMOND BEACH, Fla., March 11.—John D. Rockefeller Sr., 95 years old, is recovering from his first illness of the winter. He has been confined to bed at the Casements, his winter home here, suffering from a cold.

Appearance of a slight fever and hoarseness brought his local physician into attendance twice daily for the last two days. The fever has subsided and he is in no danger.

His present seclusion is the result of two serious illnesses in little more than a year. It was learned today, one at Englewood, N. J., last summer which was hitherto kept secret. His illness there was complicated by an accident that forced him to carry his left arm in a sling for some time. A year ago his annual departure South from the Rockefeller estate at Pocantico Hills, was delayed by a heavy cold.

Every inch of his bedroom on the second floor of the Casements is thickly carpeted, and his bathroom as well. His valet and nurse for 20 years, John Yordi, has been supplemented with a night attendant, Henry Syle.

Furnishings are severely plain. The most striking feature of the room is a large portrait of Mrs. Rockefeller, who died many years ago.

He rises at 10 a. m., retires at 9 p. m. Aside from the present slight cold, to friends close to the family he is in better health than at any time in the past two years, and his mind is sharp and alert.

**TWO SAID TO ADMIT TAKING  
TAXICAB FROM NEGRO DRIVER**

Car Then Used in Holdup of Grocery in East St. Louis.

Two Negroes arrested yesterday and Saturday have admitted, police said, holding up a Negro taxicab driver in St. Louis Feb. 5, and robbing him of \$2 and his taxicab, which they used in the holdup of a grocery in East St. Louis.

Those held said they were Charles Milburn, 23, 1513 Eddle street, and Tracy Harrison, 27, 1706 Biddle street. Harrison, named by Milburn after his arrest, was taken into custody at the Workhouse, where he was serving a sentence for peace disturbance.

In the East St. Louis holdup, William Eastley, grocer at 1705 Missouri avenue, was robbed of \$36. Police said Harrison had admitted that he and another Negro held up the attendant in a filling station at Channing avenue and Olive street, robbing him of \$15.

**STRIKE OF TEACHERS ENDED**  
Classes Resumed in Schools Near Scranton, Pa.

By the Associated Press.  
SCRANTON, Pa., March 11.—Thirty teachers and 110 pupils of nearby Mayfield Borough returned to their classrooms today after a two weeks' strike of the teachers, called primarily to protest against non-payment of their salaries.

The teachers voted to return Saturday after the school board met the last of their demands and agreed to divide substitute work among unemployed teachers. The strike was the third in a little more than a year.

### 7000 BARBERS OPEN SOVIET CAMPAIGN ON FARMERS' BEARDS

Sent Into Rural Regions to Dress Up Residents—Carry Perfumes and Lotions.

By the Associated Press.  
MOSCOW, March 11.—Seven thousand traveling barbers with boxes full of perfumes and lotions have been sent to Russia's collective farms to dress up ragged beards.

The "Centro Soyuz," which serves rural populations, announced their departure yesterday and said it was planned to increase the number to 10,000 this year. The authorities have been encouraging farmers to improve their personal appearance.

### EX-QUEEN JOANNA OF TAHITI BURIED WITH ROYAL HONORS

Wife of Pomare V, Last King of Island, Was 80 Years Old.

By the Associated Press.  
PARIS, March 11.—Tahiti's former Queen Joanna, died in Papeete March 1 at the age of 80, it was disclosed yesterday. Nearly the entire population of Tahiti attended the funeral with royal honors. She was Marau Toroa before she became Queen.

Queen Joanna was the wife of Pomare V, last King of the Tahitians. Her father was an English sailor who after being shipwrecked married a native Princess. She married King Pomare in 1875 and after that became a vital factor in the political development of Tahiti. When the Queen became the mother of a daughter, King Pomare was asked to draw up a civil affidavit of parentage. He refused and announced to his people: "The child is not mine. I forbid it to succeed me in my goods, my estates and my titles. I have spoken."

Meanwhile the French managed to draw the young Queen from her English allegiance. In 1880, they persuaded King Pomare to abdicate in favor of France. Queen Joanna raised no protesting voice. Her two children were placed on the French pension list for 9000 francs (about \$600) a year each. In 1927 France made the former Queen a chevalier of the Legion of Honor.

who wants to make better waffles and better coffee...  
**Be Here at 2 P. M. Tuesday**  
March 12th... IN THE MODERN KITCHEN

In the second "lesson" in the new service which we are giving to help you get the greatest amount of good from your electrical appliances, our Home Economists will show how to use waffle irons and percolators for the best results. This will be very interesting... so come!

**Men like good coffee**  
**and crisp, tender waffles**  
... and they should have them

We have the percolators and coffeemakers that will do the trick. They might be called "the chosen few" because they were admitted to the assortment with such care. The styles are new, the sizes vary from 6 to 10 cups, and each has its own particular way of making coffee. Priced \$4.95 to \$10.95.

AND WHEN IT COMES TO WAFFLES, we have electric irons that can turn 'em out fit for a king... the one in every American home. They possess style as well as ability... and their ability is by no means limited to waffles. Priced \$4.95 to \$14.50.

It takes more than properly roasted, well-blended coffee beans to make good coffee. The brewing is extremely important.

**Behind the Scenes with THE TELEPHONE LICENSE CONTRACT**

The cord of your telephone may not seem important to you. A.T.&T. staff experts studied it; found how the tiny wires within it that carry your voice could be made better, at lower cost; found how the covering could be made more nearly waterproof.

As a result innumerable cases of trouble have been prevented, millions of dollars in cost are being saved for telephone users.

1800 PAIRS OF WIRES  
THIS CABLE EQUALS 36 POLE LINES LIKE THIS

**How the staff services we get under it have helped us give good telephone service at fair cost to you.**

Last year we spent almost a million dollars to find better methods of giving you telephone service.

We paid it to the American Telephone and Telegraph Company, parent company of the Bell System. For it we received, as one of the 24 associated companies of that system, the services of A.T.&T.'s great staff of telephone experts, engineers and specialists in business management.

**Staff Services...at Cost**  
The A.T.&T. has provided, substantially at cost, the many services this staff performs. In fact, in the last few years it has taken an actual loss on the work it has done for the operating companies.

The yearly fee we pay is equivalent to about 3/10 of one per cent of our investment in telephone plant. Stated another way... less than a cent and a half of every dollar we receive from telephone customers. It is called the license contract payment.

A.T.&T. helps us give you good service at fair cost

Most striking testimony of the importance of A.T.&T. staff services is this: Two telephone operating companies in which A.T.&T. owns only a minority interest, voluntarily pay to share in its benefits.

They know it helps them do a better job. And they know they could not duplicate it for many times the license fee.

The benefits of this work are reflected in the quality of your telephone service. The savings it effects have over many years made it possible to hold the cost of good telephone service low.

We have passed on to the telephone user in the Southwest the benefits of these economies in the belief that in an undertaking planned for the long run, like the telephone service, such a policy in the end will bring us the sounder, more enduring success.

## VIGOROUS FIGHT IN STATE SENATE ON RACING BILL

Wisdom Measure Regarded as Too Much in Interest of Promoters Instead of Track Patrons.

By CURTIS A. BETTS, A Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, March 11.—The Wisdom horse racing bill, which the Senate took up for perfection Friday and which is still under consideration, is meeting a vigorous fight due to the opinion of a group of Senators that it is designed entirely in the interests of the racing promoters, and that the State revenues and the interests of race track visitors are given scant consideration.

When the bill was first called up Senator Casey of Kansas City, owner of a racing string, presented an amendment which would have permitted the operators of a track to pay the daily license fee from the money bet on races.

It had been the general opinion that out of an allowable 10 per cent deduction from pari-mutuel pools, the operators would pay all expenses, including an \$800 daily license fee for tracks adjacent to St. Louis, \$500 a day for those adjacent to Kansas City and \$50 a day for all others. But Casey's amendment proposed a change which would permit the deduction of the license fee in addition to the 10 per cent.

**Amendment Changed.** This was noticed by Senator Jones of Kennett and Senator McReynolds of Carthage, and the Casey amendment was changed to compel the operators instead of the betting public to pay the license fee.

A further examination of the bill has disclosed that the expense of State operation of the State horse racing commission, amounting to approximately \$15,000 a year, is to be paid from the general revenue fund of the State and not from the proceeds of the tracks. This provision is to be attacked before completion of consideration of the bill.

At present the only track in the State which would pay a \$500 daily fee is Riverside Track near Kansas City, there being none near St. Louis which would pay the \$800 fee, and probably not more than a half dozen which would pay the \$50 fee.

Tracks operating near St. Louis and Kansas City would be permitted to operate a maximum of 61 days a year and the smaller tracks six days. Unless a track should be built near St. Louis, the State income from racing would be little in excess of \$30,000 a year, exclusive of 2 per cent of pari-mutuel wagers, which would go to the State Fair.

**Division of \$30,000.** Though it was generally believed the bill intended that this \$30,000 would go to the support of the racing commission, it has been found that none of it would be devoted to that purpose, the bill containing a section which distributes it on the basis of 25 per cent for the purchase of stallions and jacks to improve horse and mule breeding, 40 per cent to counties and cities, 25 per cent to State and county fairs and 10 per cent to the State school fund.

A total operating cost of \$14,600 is provided for the State horse racing commission, whose chairman would receive \$3600 a year and the two other commissioners \$3000 each, with an additional \$5000 allotted for expenses.

Opponents of the bill are pointing out that members of the State Highway Commission, which has built the extensive road system are paid only \$10 a day each for 12 meetings a year, and members of the State eleemosynary board, in charge of all State hospitals, receive only \$5 a day for each for two meetings a year.

They also class as "amusing" the contention of advocates of the bill that it is primarily designed as a breeding bill, and say that at best only about \$7500 a year would be available for the purchase of blooded stallions and jacks, and many of which could be acquired for that sum.

In the face of objections being raised the measure is certain to have rough handling in the Senate.

## \$15,000,000 IN BABY BONDS SOLD IN FIRST EIGHT DAYS

Treasury Reports Many Banks and Small Corporations Are Buying Maximum of \$10,000 Worth.

By the Associated Press.

WASHINGTON, March 11.—Sales of almost \$15,000,000 of the new Federal baby bonds in the first eight days of the campaign was announced by the Treasury today.

From March 1 through last Saturday the amount was \$14,575,695, representing the purchase price. The maturity value of these bonds was about \$20,000,000, as they were sold on a discount basis. Postmasters handling the sale said many banks and small corporations were buying the maximum of \$10,000 which one purchaser can buy in a single year.

New York City led all others in total sales, with \$1,100,081 sold in Manhattan and the Bronx, and \$195,131 in the three boroughs of Brooklyn, Queens and Richmond.

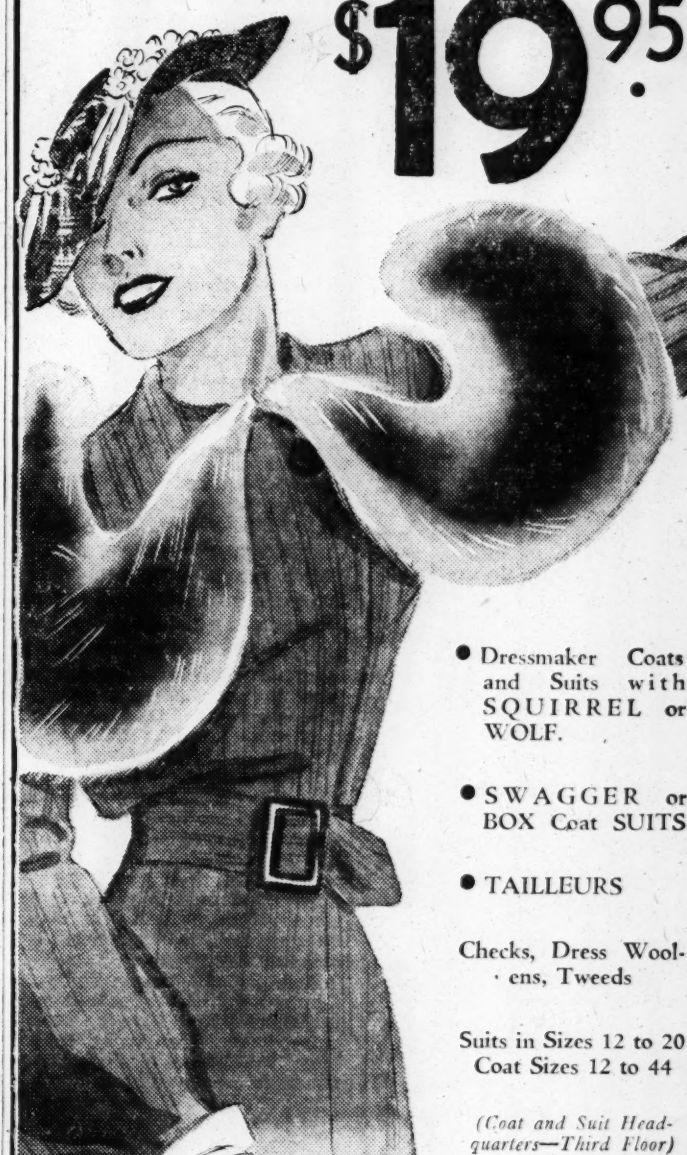

Chicago stood next with \$816,534, and Detroit was third with \$670,474. Sales in other large cities included: Kansas City, \$320,643; St. Louis, \$252,993.

## \$41,000,000 COST OF CODES IN YEAR, RICHBERG SAYS

NRA Chief, at Hearing, Estimates Operating Expense Is Less Than 1 Pct. of Sales Involved.

By the Associated Press.  
WASHINGTON, March 11.—The annual cost of operating NRA's code structure was estimated at \$41,000,000 today by Donald R. Richberg, the recovery co-ordinator, testifying before the Senate Finance Committee for the third successive day. A large crowd was in the hearing room.

Senator Byrd (Dem.), Virginia, asked about the cost of operating NRA's 700 codes. Richberg said he would furnish detailed figures, but estimated the aggregate at \$41,000,000 a year, or less than 1 per cent of the sales involved.

Clark (Dem.), Missouri, asked if the code authorities in raising this money were "exercising the right, in effect, to levy taxes." "I don't think they have the authority," Richberg said, adding that in most cases he believed the costs were met by voluntary contributions.

Richberg told the committee if it endeavored to go into every complaint the work could not be completed in the life of its members. He said, however, trying to not oppose to general investigation.

He cited figures showing there had been 118,440 labor complaints up to Feb. 16 last and 31,667 trade practice complaints. He said a total of 97,000 labor complaints had been closed, and about 14,000 were pending. Of trade practice complaints, he said 24,000 had been closed and some 3000 were pending. Adjustments were made in the remainder in both groups of complaints.

He testified that of 21,638 cases

## STOMACH UPSET

Get at the real cause. That's what thousands of stomach sufferers are doing now. Instead of trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged intestines or constipation.

Dr. Edwards Olive Tablets help the intestines in a soothing, healing way. When the bowels are performing their natural functions, people rarely suffer from indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Try Olive Tablets, the substitute for calomel.

Dr. Edwards Olive Tablets are a purely vegetable compound. Know them by their olive color. They do the work without griping, cramps or pain. All druggists. 15c, 30c and 60c. Take one or two at bedtime for quick relief.

## MOTHERS...watch CHILD'S COLD

COMMON colds often settle in throat and chest where they may become dangerous. Don't take chances—at the first sniffle rub on Children's Musterole.

Children's Musterole is just good old Musterole, only in milder form. It penetrates the skin with a warming tingle and goes to the seat of trouble. It gets such marvelous results because it's NOT just a salve, but a "counter-irritant"—quick and helpful in drawing out pain and congestion.

Used by millions for 25 years. Recommended by many doctors and nurses. All druggists. In three strengths: Regular Strength, Children's (mild), and Extra Strong. Tested and approved by Good House-keeping Bureau, No. 4867.

## Taking a Vacation With Father

ETHEL BARRYMORE COLT AND RUSSELL G. COLT. TOGETHER in Bermuda. She has followed the Barrymore tradition by going on the stage and has appeared in Municipal Opera in St. Louis.

involving wage complaints of 90,000 employees, there had been adjustments calling for wage restitutions of \$2,245,380 through field office work alone.

In addition, code authorities had reported wage restitutions of \$732,268 to 84,000 employees in 2900 cases.

**Employment and Payrolls.**  
Richberg presented a table showing gains in employment and payrolls in many industries. He said publicity had been given to an NRA report that interest and dividends were 50 per cent higher than in 1926. He testified that the same report showed profits were only 32 per cent of the 1926 level.

"The maintenance of interest and dividends has not meant the maintenance of profits," he argued.

Senator Byrd asked Richberg how he accounted for the fact that in May, 1934, there was a low point of 9,000,000 unemployed and that since, although NRA has been in full operation, "unemployment is increasing day by day."

Richberg said the unemployment figures required interpretation. He contended that figures showing more unemployed today than in May, 1934, did not mean there were not more employed also.

He said the unemployment figures included a theoretical addition of several hundred thousand people who were supposed to have become employable during the period. Pointing out that unemployment figures showed the jobless had increased by more than a million, Byrd asked: "You don't contend a million people came into the field since May, 1934?"

"No," Richberg replied, "but you don't get the exact picture by those unemployment figures."

**On High and Low Wages.**  
Richberg agreed with a contention by Senator Gore (Dem.), Oklahoma, that wages could go too high as well as too low. He denied, however, that the solution was to let wages go down to "rock-bottom."

"You haven't figured out," he said, "how we would live while we went through that rock-bottom period."

Richberg contended the effect of minimum wages was not to make wages unduly high, but to bring a "balance and a leveling out" of purchasing power.

Senator Black (Dem.) Alabama, asked whether the Government should attempt to curb the use of labor-saving machinery.

"There is no use attempting to retard the natural progress of an industry," Richberg replied. "The basis of our entire progress is increasing production per unit."

Richberg said it would be "contrary to sound economics" to stop the use of machinery, though it might serve as a temporary expedient.

Black said only five codes provided for as low as 40 hours a week for labor.

Richberg showed the committee a chart indicating the "great mass" of the codes provided for 40 hours a week or less. He said Black's statement applied to the exceptions under the codes permitting longer hours for certain classes of employees.

"You can not devise any flexible rule that does not inflict a multitude of hardships," Richberg said, apparently referring to Black's 30-hour week bill.

Senator King (Dem.), Utah, demanded that the investigation be opened to business men with "legitimate and valid complaints," as the committee began the session.

"We are proceeding on the theory that the organization must be heard fully and completely before hearing complaints," King said. "I regard it as important that we bring witnesses who have legitimate and valid complaints, particularly in view of Mr. Richberg's statement last night that NRA is such a beneficial organization and necessary to prevent monopoly."

"There is too much effort on the part of NRA and its officials to bolster up the organization," King also demanded that the committee employ counsel. Chairman Harrison replied that counsel would be employed to help

## NEW CITY COLLECTOR FIRES 8 REPUBLICANS

Baumann Replaces Employees Who Have Been in Office 14 to 20 Years.

Eight appointments have been made by Collector William F. Baumann since he succeeded Edmond Koeln a week ago, he announced today. Eight Republican employees who had been in the office 14 to 20 years were discharged.

There are 98 positions in the office and, as it has been ruled a State office, it is not under Efficiency Board regulations and Baumann is in a position to replace Republican employees with Democrats as he chooses. He said, however, that the process would be gradual so as not to impair the efficiency of the work.

The new appointees, all Democrats, will start as deputy collectors at \$140 to \$150 a month, and may be assigned definite duties after they gain experience. They are: W. E. Blackmore, 4802 Arsenal street; Patrick Finn, 1704 North Grand boulevard; Charles Reardon,

4489 Washington boulevard, Committeeman for the Twenty-third Ward; William J. Egan, 4658 Kosuth avenue; W. S. Covington, 2430 Bacon street; Thomas Walsh, 5340 Grant street; J. L. Scheetz, 1103A St. Louis avenue, and John Allen, 3628 Connecticut street.

The ousted Republicans are: Emil H. Floerke, 4448 Lee avenue, cashier in the water rates collection office; Henry Krott, 2622 Pennsylvania avenue, chief clerk in the office; Henry Wetzel, 2103 Withnell avenue; William F. Smith, 1500A Pine street; Thomas J. Kelley, 222 East Marceau street; Michael Pfeifle, 839 Bellerive boulevard; Henry Hampe, 3440 Keokuk street, and George T. Arnold, Negro, janitor, 113 East Haven street.

# An Open Letter to the Mayor on the Smoke Plague

Honorable Bernard F. Dickmann,  
Mayor, City of St. Louis,  
City Hall, St. Louis, Mo.

Honorable Sir:

Much publicity and discussion is proceeding within and without the newspapers on the subject of smoke abatement in the City of St. Louis. Much of the comment erroneously conveys the idea that if the smoke nuisance of St. Louis is to be abated it can only be accomplished by substituting some other fuel for Illinois coal. As a consequence the nearby Illinois coal industry finds it is being forced into the position of appearing to oppose smoke abatement.

## The Coal Industry Favors Smoke Abatement

Nothing is further from the facts, nor are there any essential differences of opinion between the City Administration, the Smoke Abatement League and the nearby Illinois coal producers on the necessity for eliminating this evil. The only possible difference of opinion between the parties is the means by which the desired end shall be accomplished.

We of the coal industry in Illinois concede that by the expenditure of \$85,000,000 of public funds, and by increasing the cost of household heat to not less than three times the present cost, St. Louis can be made a smokeless city, but further that another most undesirable result of this program will be to increase unemployment in Illinois and in St. Louis some 20,000 to 30,000 men now occupied in mining, transporting and delivering fuel, and this means depriving 100,000 to 125,000 persons of their livelihood.

## Smoke Abatement is Possible Without Destroying Employment and Trade

We point out that (as opposed to this program) it is possible, practical and entirely feasible to accomplish smokeless consumption of Illinois coal through the medium of proper selection of sizes, treatment of coals, and, perhaps most important of all, the burning of coal in stokers so that the volatile smoke producing elements are turned into heat rather than smoke and soot.

Cathedral in discussing the "Forward Movement" of the Episcopal Church. The movement, he explained, seeks to adjust the church to new conditions of the world and present a program which will appeal to those who have come to regard their membership casually. Bishop Hobson will conduct noon services at Christ Church Cathedral daily this week. He will address a meeting of the men of the diocese at 8 o'clock tonight at Bishop Tuttle Memorial.

## I NEVER TAKE CHANCES OF OFFENDING MY CUSTOMERS

SO I ALWAYS MAKE SURE ABOUT 'B.O.'

Says Herbert M. Miller, star auto salesman

Read Mr. Miller's letter—"The least little thing can spoil a sale. And 'B.O.' is not a little thing. I myself shy away from people who offend this way. So I know how customers must feel when a salesman has 'B.O.'... I know better than to take chances. Lifebuoy Health Soap always keeps me safe from 'B.O.'—and my sales record tops the list."

**Good for the skin.**  
Lifebuoy keeps complexion clear and healthy, too. "It agrees with my skin," say millions. Scientific tests show Lifebuoy more than 20% milder than many so-called "beauty soaps." Try Lifebuoy today. You'll like it.

**LIFEBUOY** stops "B.O."  
HEALTH SOAP (BODY SOAP)

We point out that this plan does not reduce employment, that it does not reward Texas for the prodigal waste of natural resources, that it does not increase heat cost but definitely decreases it, and finally that smokeless consumption of Illinois coal is being definitely accomplished here and now in many existing installations.

We submit that if it is a desirable program to petition for public funds to make St. Louis smokeless at the expense of the livelihood of 100,000 persons, it is infinitely more desirable to petition for public funds to attain a smokeless city and still retain the livelihood of these 100,000 persons.

## Practical Plan Was Offered One Year Ago

We believe that until the City Administration has actually studied the plan of smokeless consumption of Illinois coal submitted to the City one year ago by coal operators, (and since that time ignored), no natural gas, nor any other plan increasing the community cost of heat and entailing unemployment, can with propriety be city sponsored.

Above all we believe no problem of such enormous size and importance should be embarked on in such a headlong manner as appears to be the desire of some parties in this instance.

Finally, we should like to have it understood that Illinois coal producers definitely favor a smokeless city program but that they definitely oppose the selection of any program which will to any extent contribute to unemployment, crucify one of St. Louis' best trade areas, send St. Louis money to Texas—and all of these things unnecessarily.

Very respectfully yours,

**Whether Villagers**

**or Lumberjacks**

Millions of people live in the cities and big towns served  
by approximately 350 branch houses of Swift & Company.  
The other millions living in and near the thousands of  
places, where there are no such branch houses, are served  
by Swift & Company just as efficiently.

Whether they be fishermen in a village on the North  
Atlantic shore, farmers living close to some Oklahoma coun-  
try town, woodsmen in a distant Oregon lumber hamlet,  
or people in any of the thousands of other such communities  
throughout the nation... all are able to buy abundant daily  
supplies of Swift & Company's meats, shortening, and dairy  
and poultry products.

These many thousands of towns and villages are served  
by refrigerator cars traveling on more than 600 car routes.  
The products ordered by retailers in these places arrive on  
regularly scheduled days.

Swift & Company's method of distributing meats, short-  
ening, dairy and poultry products, is extremely efficient and  
economical. Combined shipment of these products to nu-  
merous retailers, saves space and reduces costs. Frequent  
shipments keep these retailers well stocked.

With such widespread coverage through a competent  
and efficient system of dealer service,  
the resultant larger sales of meats,  
shortening, and dairy and poultry prod-  
ucts, increase consumption... and so  
make livestock and poultry raising  
more profitable than they otherwise  
would be.

**Swift & Company**

Over a period of years, Swift & Company's net profits from all sources  
have averaged only a fraction of a cent per pound.

**EAGLES' LODGE INITIATES 563**  
Members From 25 Missouri and  
Illinois Cities at Ceremony.  
Initiation of a class of 563 into  
the Fraternal Order of Eagles was  
held yesterday afternoon at the  
German House, 2345 Lafayette ave-  
nue, with more than 1300 members  
of the order from 25 Missouri and  
Illinois cities attending. The St.  
Louis Aerie was host to the other  
units at the ceremony.  
The class of new members was  
named the Conrad H. Mann class,  
in honor of Col. Mann of Kansas  
City, managing organizer for the  
order, who spoke following the  
initiation. H. L. Weidmueller,  
president of the St. Louis unit, pre-  
sided at the ceremony. The class  
included 310 St. Louisans.

**Assessor Neaf Explains Method  
Followed in Reassessing County  
Real Estate for 1935 Taxes**

**League of Municipalities Is Attacking \$20-  
000,000 Increase, Effected Despite De-  
creased Valuations in 65 Pct. of Cases.**

The methods used last year in the reassessment of St. Louis County real estate, results of which will be the basis for 1935 taxes, were explained to a Post-Dispatch reporter yesterday by County Assessor Neaf. Neaf, who ordered the reassessment.

The results of the reassessment, which increased the aggregate assessed valuation of real estate from \$187,983,930 to \$208,459,570, at the same time decreasing assessments on individual properties in 65 per cent of cases, are being opposed by the League of County Municipalities, which recently urged taxpayers to investigate their new assessments and appeal to the Board of Equalization if they considered them unfair.

Mayors and Assessors of the four third-class cities in the county—Richmond Heights, Maplewood, Webster Groves and Kirkwood—are members of the League of Municipalities and also sit on the Board of Equalization in appeals from assessments in their respective cities.

**His Dispute With Board.**  
When the board began holding sessions last week, Assessor Neaf sought to have it adopt a policy of taking up each appeal as a body rather than distributing them among the members for investigation and recommendation, as done by previous boards. City members contended his method would take too much time, considering the large number of appeals they expected would be filed, and also that they were familiar with property values in their respective communities and should be entitled to make recommendations.

Neaf replied that the new assessments had been fixed partly on a basis of neighborhood influence and that proper consideration of appeals would necessarily include study of assessments on adjoining properties, as well as of the property in question. He said that, under the system followed in the reassessment, if the board found the valuation on one property too high, reductions in all other properties in that block would have to be made, in fairness to other owners.

After several days of fruitless discussion, the board decided to reject Neaf's proposal and began parceling out appeals to members for investigation, whereupon the Assessor walked out of the meeting last Friday and announced he would seek a writ of mandamus to compel the board to act as a unit. He was not sure today whether this would be the proper legal remedy.

**"Chiseling," Assessor Charges.**  
Today the board also decided to refer appeals from all incorporated towns to the Mayors or chairmen of the trustees, even where these officials were not members of the board. The town officials will view the property involved and report facts to the board, without recommendations. Neaf entered a formal protest, calling this procedure illegal and an effort to make a new assessment, not to equalize valuations. There was no second to his motion to proceed with the equalization of property in the Wellston school district.  
"I have worked too hard on this assessment to have politicians upset it," Neaf asserted. "The only purpose of this procedure is to chisel down the assessments for the politicians' friends."  
County Counselor Mooney asserted the board had a right to delegate persons to view property in appeals. So far there have been 534 appeals filed, of which nearly all were distributed for investigation. The board will hold hearings until April 22.

**Wanted to Equalize Taxes.**  
Reassessment of county real estate, which thus far has included only improvements on land, was decided on by Neaf not with a view of increasing assessments, but of equalizing them, he said, in explaining his methods.

A title examiner for 12 years before he became Assessor in June, 1933, Neaf had found many inequities in assessments. After election he made a study of assessment systems in various cities and decided on one already in operation in New York, Cleveland and St. Paul. Incidentally, this system also is being used in the reassessment now under way in St. Louis.

Without funds to undertake a complete reassessment, Neaf distributed 55,000 blanks to property owners asking for details on size and construction of their buildings. About 30 per cent were returned. Then CWA and FERA assistance became available and he was enabled to proceed with a complete reassessment of buildings on a basis of reproduction cost, less depreciation, and without reference to the then existing assessments. Returns made by the property owners were filed and used as a check on findings of his own workers.

**Reassessment Procedure.**  
Procedure in making the new assessments was as follows:

First he obtained current building material costs from supply companies and labor costs from building trade unions. Using these figures as a basis, he had experts compute the actual cost of reproducing a number of selected types of buildings, which were then measured for cubic contents. The cost for each cubic foot was then figured.

Accompanied by assistants, Neaf then drove over every street in the county, viewing each building and fixing a cubic foot rate for each,

reproduction cost new was estimated at \$10,000, would be computed as follows:  
Less \$10,000 Reproduction new.  
Less 945 Depreciation.  
9,055  
Less 3,622 Account depressed market.  
5,433  
Less 1,087 Account excess builders' profits.  
4,346 Final assessment.

This system, Neaf holds, is scientific, completely divorced from politics and far superior to previously employed haphazard methods of assessing improvements, in which building permits were used as a guide. Many buildings have been put up without permits and others under permits in which costs were grossly misstated. The field workers located more than 2500 buildings which had never been assessed. Other cases were found where large buildings were erected on permits for much smaller buildings.

"Since my books were turned over to the County Clerk Jan. 20," Neaf said, "hundreds of taxpayers have visited the reassessment office on the fourth floor of the City Hall at University City to inquire as to how we computed their assessments. Practically all have gone away satisfied. The average property owner doesn't object to a reasonable assessment if he knows everybody is being treated alike."

**Old Figures on 15 Per Cent.**  
When the Assessor turned his books over Jan. 20 only 85 per cent of the new assessments had been entered and he had to use last year's figures on the remaining 15 per cent. However, work has been completed on the latter, about 2500 properties, and he plans to file them with the Board of Equalization for entry on the books during its present session.  
The 54 FERA workers now employed, including engineers, draftsmen, abstractors and clerks, are at work preparing new and complete plat books for the county which will give complete descriptions of each piece of taxable property, with improvements. He expects this work to be completed in a year.

**Mexican Legislator Fatally Shot.**  
MEXICO, D. F., March 11.—Eulalio Dorantes, president of the Legislature of the State of Tlaxcala, died yesterday of bullet wounds. Congressman Marciano Armenta Castillo is alleged to have shot Dorantes as he walked by the National Congress Building Saturday.

**STUDENT'S TRIP INTERRUPTED**  
Erskine Wright Jr., 18-year-old Washington University freshman who left for the West Saturday with \$72 and the hope of obtaining

a job on a freight boat which would take him around the world, returned yesterday from Springfield, Mo.  
His father, a bacteriologist, 608 Atlanta avenue, Webster Groves, who had not been consulted about the trip, learned he had boarded a bus. At the father's request, a State Highway patrolman took the youth from the bus at Springfield. His relatives drove to Springfield yesterday and the student returned with them.

**Do as your Dentist does—  
when he cleans your teeth**

**USE  
POWDER**

- DR. LYON'S TOOTH POWDER**
- 100% Cleansing Properties  
Twice that of tooth paste
  - Contains No Grit or Pumice  
Cannot possibly scratch the softest enamel
  - Outlasts Tooth Paste 2 to 1

**POWDER CLEANS AND WHITENS TEETH—as nothing else can**

**T**HERE is nothing known that will clean and polish teeth so quickly and leave them so gleaming white—as POWDER.

That is why your dentist, when cleaning your teeth, as you know—always uses powder.

As it is only the powder part of any dentifrice that cleans, a dentifrice that is ALL POWDER—just naturally cleans best.

Dr. Lyon's Tooth Powder is ALL POWDER—100% cleansing properties. This is more than twice the cleansing properties of tooth pastes.

Dentists everywhere recommend Dr. Lyon's Tooth Powder, because—teeth simply cannot remain dull and

film coated when it is used. Dr. Lyon's cleans off all stains and polishes the teeth in a harmless and practical way that leaves them sparkling—many shades whiter.

Free from all grit or pumice, Dr. Lyon's Tooth Powder cannot possibly scratch, or injure the softest enamel.

Dr. Lyon's Tooth Powder keeps your teeth REALLY CLEAN and clean teeth mean—firm, healthy gums and the least possible

tooth decay. Powder leaves your teeth feeling so much cleaner, your mouth so refreshed, and your breath so sweet and pure.

Once you use powder you will never go back to tooth paste. People by the thousands are changing daily.

Dr. Lyon's Tooth Powder is not only doubly efficient, but it costs only half as much to use. Even a small package lasts twice as long as a tube of tooth paste.

**Dr. LYON'S TOOTH POWDER**

*The Air Conditioning Age*

## To End Stubborn Cough, Mix This Recipe at Home

Big Saving! No Cooking! So Easy!

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up severe coughs due to colds. It takes but a moment to prepare, and costs very little, but it positively gives effective relief quickly.

From any drugist, get 2½ ounces of Pinex. Pour this into a pint bottle and fill the bottle with granulated sugar syrup, made with 2 cups of sugar and one cup of water, stirred a few moments until dissolved. No cooking needed—it's so easy! Thus you make a full pint of better remedy than you could buy ready-made and you get four times as much for your money. It never spoils, and children love it.

This simple mixture soothes and helps to heal the inflamed throat membranes with surprising ease. It loosens the germ-laden phlegm and eases chest soreness in a most astonishing way.

Pinex is a highly concentrated compound of Norway Pine, one of the most reliable agents for relieving severe coughs. It is guaranteed to give prompt relief or money refunded.

## "Tennis Days" in New York Art Show

PAINTING by Jean MacLane, N. A., is among 300 or more in the 110th annual exhibition of the National Academy in New York City.

Suggest to your agent that he keep your vacant property advertised in the Post-Dispatch, where tenants are secured quickly and economically.

## WAGNER AT HEARING ON HIS LABOR BILL

Tells Senate Group Measure Would Help Balance Economic System.

By the Associated Press.

WASHINGTON, March 11.—Senator Wagner (Dem., N. Y.), told the Senate Labor Committee today that his labor disputes bill would do much to round out "a balanced economic system."

The first witness to testify at the opening of hearings on his measure, Wagner said: "Our alternatives are clear. If we allow Section 7-A (of the Recovery Act) to languish, we shall be confronted by intermittent periods of peace at the price of economic liberty, dangerous industrial warfare and dire depressions."

"On the other hand, if we clarify that law and bolster it by adequate enforcement agencies, we shall do much to round out the program for a balanced economic system founded upon fair dealing and common business sense."

Supported by A. F. of L.

The Wagner bill is supported by the American Federation of Labor and the National Labor Relations board, but opposed by many industrialists.

It would: Create a permanent National Labor Relations Board with power to carry its decisions to court for enforcement; make a part of the law the "majority rule" by which a majority of employees in any plant would select the collective bargaining agency for all employees, and outlaw the company-dominated union.

Wagner termed the recent decision of Judge John P. Nields in Wilmington, Del., holding Section 7-A unconstitutional, as "clearly at odds with decisions of our highest court."

"But even if it were to be conceded that Judge Nields correctly interpreted Section 7-A, his decision merely emphasizes the need for strengthening that section and creating a permanent administrative tribunal, versed in the complexities of labor relations, to deal with such matters."

Says It's Time to Act.

"Is it not time to act upon the ominous industrial disturbances of last summer, when blood ran freely in the streets and martial law was in the offing?" Wagner asked. "Is it not time to note that during the last half of 1934 and the first month of this year almost three-fourths of a million workers were sent back to their jobs or kept from leaving them by the National Labor Relations Board and its regional agencies?"

## GOLD MEDAL TO MINE BOSS FOR HEROISM IN EXPLOSION

Plants and Individuals With Notable Safety Records Also Cited.

By the Associated Press.

WASHINGTON, March 11.—A shift boss who fought his way through poisonous gases 3000 feet in the ground to save two miners has received the gold medal of the Joseph A. Holmes Safety Association.

A dynamite explosion occurred last December in the Empire mine, Grass Valley, Cal., and the boss, William Gilbert, brought out two workers who had been overcome. He later collapsed during an attempt to save a third. One of the men died later, but Gilbert and the other recovered.

The association recognized as well known years of careful operation by 65 mineral industry plants which had reduced their accident toll to a minimum, and six individuals who had worked 50 years or more without sustaining a serious injury. These received certificates of honor. Among them was Harry Carroll, now 87, of Wolf Run, O., a contract loader for 77 years in Ohio coal mines without an accident that kept him from work. Only a few weeks ago Carroll loaded 11 tons of coal at the Wolf Run mine. In the list also was Thomas Howard of Zeigler, Ill.

Coal mining fatalities in 1934 were 1185, compared to 1064 in 1933 and a yearly average of 2658, in the period between 1906 and 1910.

PART TWO

# STATE OF WAR DECLARED IN CUBA; 10 KILLED OVER WEEKEND

Cabinet Issues Decree in  
Move to Prevent Over-  
throw of President Men-  
dieta's Government as  
Strikes Spread.

## MILITARY COUNCIL TRIALS PROVIDED

National Medical Federation  
Headquarters Wrecked—  
Most of Federal Employees  
Leave Jobs—Transporta-  
tion Paralyzed.

(Copyright 1935 by the Associated Press.)  
HAVANA, March 11.—The Gov-  
ernment of President Carlos Men-  
dieta declared existence of a state  
of war throughout Cuba today in  
its fight to escape overthrow.

The decree provides for trials in  
cases of war for all persons ar-  
rested for acts against the public  
order, prohibits any person from  
appearing on the streets at night  
without a special military pass and  
gives the military powers almost  
unlimited authority. It was made  
effective immediately.

The decree is one used for the  
first time in Cuban history by or-  
der of Dr. Antonio Guiteras, Sec-  
retary of War in the Cabinet of for-  
mer President Ramon Grau San-  
Martín in November, 1933, at the  
time the Grau Government was be-  
ing attacked by a group of mili-  
tary leaders.

Guiteras suspected in disorders.  
Men-  
dieta's advisers took explicit  
action to make plain it was Guiteras  
whom they were employing.

The official announcement said  
the Grau had decided to put into  
effect decree number 284, signed  
and promulgated by Grau San-  
Martín as President, and Dr. An-  
tonio Guiteras as Secretary of War.

The cabinet's action in mention-  
ing Guiteras by name was regarded  
as a declaration of reports the Gov-  
ernment believes the former War  
Secretary is a leading factor in the  
disorders of the last two days.

Guiteras, who was immediately  
arrested, was being held in the  
San Juan de los Rios de la  
Calle, the city's main thoroughfare.

Transportation at Standstill.  
The full effects of the fast-  
moving strikes were felt this  
morning after the week-end suspen-  
sion of commercial activity. Rail-  
roads and all other transportation  
facilities were paralyzed. The Gov-  
ernment's business was at a stand-  
still. Most of its employees  
have left their posts.

At least half the dockworkers re-  
mained away from their jobs, and  
others were expected to join the  
movement during the day.

Two newspapers were pub-  
lished, *Diario de la Marina* and  
*Avance*, and virtually every other  
line of commercial activity was af-  
fected. Seamen, brewery men and  
other workers as well as  
factory employees joined the strike.  
Butchers and bakers were sched-  
uled to strike today.

Havana streets were practically  
deserted except for patrols of sol-  
diers and sailors. Many of the  
shops which opened for the day  
were without their clerks and the  
shop owners themselves transacted  
business there was.

Although midnight last night  
was the hour set for inauguration  
of a general strike, it appeared it  
would not be completely effective  
at least for the present.

Scattered Disorders.  
In Havana, disorders, although  
less serious and somewhat less violent  
than the uproarious shooting and  
bombings of Saturday night, con-  
tinued to keep the city on edge.

A four-year-old baby was wounded  
in the course of the disturbances.  
At the headquarters of the Na-  
tional Medical Federation were  
wounded. Unidentified men invad-  
ed the building, sacking and loot-  
ing, and destroying furniture and fix-  
tures, and heaving the debris  
through the windows into the streets.

Seven Bodies Found in Havana.  
The bodies of persons killed in  
the week-end of fighting were  
found today in the exclusive resi-  
dential suburbs of Marianao, Miguel  
Angel, wounded, died in a hospi-  
tal, according to 10 the known fatal-  
ties in the week-end disorders.

The bodies of a student and  
his father-in-law were thrown into  
a fashionable street near the resi-  
dence of United States Ambassador  
Jefferson Caffery.

With normal pursuits virtually  
stopped in Havana, the steady  
camp of soldiers and sailors  
through the narrow streets was the  
only sign of life.

# ACCORD ON SALE OF RAILWAY BY SOVIET TO MANCHOUKUO

Agreement Initialed in Tokio, But the Three  
Governments Involved Must Formally  
Approve Deal.

By the Associated Press.  
TOKIO, March 11.—The docu-  
ments in which Soviet Russia sells  
the full title of the Chinese East-  
ern Railway to Manchoukuo for  
\$40,000,000 yen—currently about  
\$39,300,000—were initialed tonight  
at the official residence of Koki Hi-  
rota, Foreign Minister.

The agreement, which means the  
elimination of Russia as a political  
factor in Manchuria, was signed by  
Hirota, by Dr. Constantine Youren-  
eff, Soviet Ambassador to Japan,  
and by Gen. Ting Shih-yuan, Man-  
choukuo's Vice Minister of Foreign  
Affairs.

This concluded 20 months of te-  
dious bargaining and ended four  
decades of Russian-Japanese con-  
tention for domination of the terri-  
tory which Japan has made into  
"the independent Empire of Man-  
choukuo."

The documents require that all  
three Governments approve them  
before their formal signing, about  
March 23 when Manchoukuo  
through Japan's South Manchuria  
Railway will take possession of the  
historic railway system.

The documents initiated are:  
1. A Russian-Manchoukuo agree-  
ment selling the railway.  
2. A Russian-Japanese exchange

of notes in which Japan guarantees  
that Manchoukuo will fulfill the  
terms of payment.

3. A tripartite protocol providing  
the machinery for the settlement of  
disputes which may possibly arise  
from the provisions permitting  
Manchoukuo to make its payment  
two-thirds in goods.

Prior to the formal signing, Em-  
peror Hirohito himself must sanc-  
tion the agreement with the advice  
of his Privy Council, while Chuichi  
Okada, the Japanese who is Man-  
choukuo's Vice Minister of Foreign  
Affairs, will carry the documents  
to Hsinking, the capital of Man-  
choukuo, to carry out the formality  
of obtaining their sanction by Em-  
peror Kang-teh.

Although Japanese publicists ar-  
gue that the Chinese Eastern Rail-  
way agreement constitutes Russian  
recognition of Manchoukuo, the  
Japanese Government is noncom-  
mittal on the subject.

"Whether such contract is tanta-  
mount to recognition," said a For-  
eign Office spokesman, "we leave to  
the academic discussions of inter-  
national lawyers. I can say that  
there was no explicit mention of  
recognition in any documents  
initialed tonight."

## UNPUBLISHED MONROE NOTES FOUND IN RUSSIAN ARCHIVES

Written When He Was Ambassador  
to London and Addressed to En-  
emy of Catherine the Second.

By the Associated Press.  
MOSCOW, March 11.—Hitherto  
unpublished notes written by Pres-  
ident James Monroe when he was  
United States Ambassador to En-  
gland (1803-07) have been discov-  
ered in old Russian archives, it was  
announced yesterday.

They were addressed to Count  
Vorontsoff, Ambassador for Cath-  
erine the Second of Russia at Lon-  
don, and had been retained since in the  
Vorontsoff family library.

The notes will be published by  
the Academy of Sciences of the U.  
S. S. R. next year, together with  
new documents from the archives  
of the Russian-American company  
which colonized Alaska and the  
Aleutian Islands and exploited them  
until their purchase by the United  
States in 1867.

The Russian-American archives  
were lost after the company's liqui-  
dation, but part have been recov-  
ered as a result of the discovery of  
private correspondence of the com-  
pany's founders. These are in ad-  
dition to documents relating to the  
company's activities already in the  
Government's possession.

## LONG LIKE HITLER, BUT MUCH FUNNIER TO NORMAN THOMAS

Socialist Leader Also Criticizes  
Program of Father Coughlin.

By the Associated Press.  
ERIE, Pa., March 11.—The Blue  
Eagle of the NRA is getting bluer  
and bluer, asserted Norman Thom-  
as, the Socialist, at a meeting of the  
League for Industrial Democracy  
Saturday night. Thomas predicted  
that President Roosevelt would re-  
gret he ever "sicked Gen. Hugh  
Johnson on Senator Huey Long."

The proposition of the "share-the-  
wealth" program.

"As a dictator, Huey and Hitler  
would be much alike," said Thomas.  
"With the exception that the high  
mogul of the Southern State would  
be much funnier."

Thomas said he opposed the So-  
cial Justice League plan of Father  
Coughlin, Detroit priest, because  
"pitting the little fellow against the  
big fellow will never prove success-  
ful."

"We have two things to face—  
either go along with Hitler and his  
program, or face things as work-  
ers," he added.

## SOVIET PLANT BOSS IMPROVES HIS PRODUCT TO ESCAPE PRISON

If Court Finds He Has Bettered  
Style and Fitting, It Will  
Reconsider Sentence.

By the Associated Press.  
MOSCOW, March 11.—By turning  
out better clothing for Russians, F.  
Chizh, director of the Volodarski  
wearing apparel factory, may have  
saved himself a year in prison.

The Supreme Court ordered an  
investigation of Chizh's assertion  
that since sentence was passed a  
year ago he has satisfactorily im-  
proved the quality of his product.  
If his statement is substantiated,  
the Court will reconsider the case.

Serving of the sentence had been  
postponed to give Chizh a chance  
to make good. He says the plant  
now produces a variety of styles  
instead of standardized suits and  
no longer turns out undersized gar-  
ments to economize on materials.

## Anti-Lynching Bill Approved.

WASHINGTON, March 11.—The  
Senate Judiciary Committee ap-  
proved the Costigan-Wagner anti-  
lynching bill today and authorized  
Senator Van Nuys (Dem.), Indiana,  
to draw up the report. The meas-  
ure, which faces a doubtful road in  
Congress, lays down severe pen-  
alties for lynchers, officers who do  
not exercise due diligence in pro-  
tecting persons from them, and  
counties where mobs take the law  
into their own hands.

# SOVIET PAPER SAYS SENATOR LONG IS FASCIST PROPHET

Refers to "Organized Charlatan  
Society" for Sharing the  
Wealth.

By the Associated Press.  
MOSCOW, March 11.—Huey Long,  
the United States Senator, was held  
up to Soviet readers as a "Fascist  
prophet" in an editorial in "For In-  
dustrialization," the organ of heavy  
industry.

"Without exaggerating the suc-  
cesses of Long, Coughlin and com-  
pany, it is necessary to point out  
that the Fascist danger is assum-  
ing concrete form in the United  
States," the paper says.

"The organized charlatan soci-  
ety for sharing the wealth has  
spread its business to other states  
(than Louisiana). There are al-  
ready capitalists who do not fear  
this promised sharing and are fi-  
nancing different organizations of  
American Fascists."

Long's political importance it-  
self is a symptom of Fascist ten-  
dencies, says the paper, and his re-  
cent polemic against Gen. Hugh S.  
Johnson casts a light upon events.

Johnson also has capitalist sup-  
port, the paper declares, saying he  
was backed by Bernard Baruch,  
who represents a group trying to  
solve the economic crisis by "mod-  
ernizing" capitalism.

After referring to Father Cough-  
lin as "Long's twin," the paper  
charges that Long made use of his  
humble origin to deceive the people  
of the lower classes.

"His buffoonish thunderings  
against the Morgans show the ex-  
tent of the charlatan demagogism  
of this Fascist prophet who has  
promised his followers a share of  
the Morgan millions," continues the  
paper. "This charlatanism is cre-  
ating its effect."

## SOLDIER ON RAMPAGE KILLS 9

Senegalese Finally Arrested at  
Beirut, Syria.

BEIRUT, Syria, March 11.—A  
Senegalese soldier killed nine per-  
sons and wounded two others to-  
day before he was arrested.

He killed five comrades in his  
barracks, then fled, shooting his  
other victims as he escaped into  
the countryside, where he was cap-  
tured.

## Pope Calls Consistory.

VATICAN CITY, March 11.—A  
secret consistory has been sum-  
moned to meet April 1, it was of-  
ficially announced at the Vatican to-  
day.

The initiation of tax sales, after a  
lapse of years, and the adoption of  
strict tax lien laws were said to be  
largely responsible for the increased  
payments.

The survey reports that 16 cities  
made unusually good taxpaying  
records. Providence, R. I., led with  
a low delinquency record of 3.2 per  
cent. Other cities with good delin-  
quency returns were San Jose, San  
Francisco, and Berkeley, all in Cali-  
fornia; Denver, Colo.; Troy, N. Y.;  
Peoria, Ill.; Louisville, Ky.; Schene-  
ctady, Binghamton and Albany, N.  
Y.; Augusta, Ga., and Kansas City,  
Mo.

## LUNCHEON FOR NEW SENATORS

Roosevelt Talks Things Over With  
Them at White House.

WASHINGTON, March 11.—Pres-  
ident Roosevelt had luncheon today  
at the White House with the  
"freshman" Democratic Senators.

The 13 new members of the Sen-  
ate elected last fall were invited  
with Senator Robinson of Arkansas,  
the party leader, for a session which  
offered opportunity to talk things  
over. The luncheon was described  
as purely a social affair. The guests  
included Murray, Montana; Bilbo,  
Mississippi; Burke, Nebraska; Don-  
ahue, Ohio; Gerry, Rhode Island;  
Guffey, Pennsylvania; Holt, West  
Virginia; Malone, Connecticut;  
Minton, Indiana; Moore, New Jer-  
sey; Radcliffe, Maryland; Schwel-  
lenbach, Washington, and Truman,  
Missouri.

## WANTS POWER PROJECT DATA

Federal Board Notifies Gasconade  
River Co.

WASHINGTON, March 11.—The  
Federal Power Commission has  
called on the Gasconade River  
Power Co. to furnish further infor-  
mation in connection with the com-  
pany's application for a preliminary  
permit for a major power project on  
the Gasconade River in Missouri.

In a letter addressed to R. W.  
Street, president of the company,  
which has offices in Kansas City,  
the power commission requests that  
data be supplied under three heads  
prior to April 1. The commission  
is inquiring concerning the finan-  
cial ability of the company, the  
economic feasibility of the project  
and the availability of the market  
for the power which would be pro-  
duced.

## 16 Rescued From Ice By Plane.

GURIEFF, U. S. S. R., March 11.—  
Sixteen of 60 fishermen marooned  
on an ice field 50 miles off shore  
in the Caspian Sea were taken to  
land today by airplane. No trace  
could be found of 31 others who  
became separated from the main  
body of ice.

# HIGHER SALES TAX GETS BACKING IN LEGISLATURE

Measure Allots 35 Per Cent  
to Relief and 10 Per Cent  
to Old Age Pensions in  
Missouri.

By BOYD F. CARROLL,  
Jefferson City Correspondent of the  
Post-Dispatch.

JEFFERSON CITY, March 11.—  
The troublesome questions of in-  
creasing the State sales tax and re-  
vising the State liquor control law  
to provide better enforcement,  
again will be taken up this week in  
the House and Senate of Missouri's  
Legislature.

Recurring demands for speedy ac-  
tion on remaining legislation—al-  
ways made at this stage of a ses-  
sion, but rarely met—will increase  
in volume after this week, particu-  
larly in the House, as the compen-  
sation of the legislators will drop  
from \$5 a day to \$1 on Wednesday.

The Constitution fixes the pay of  
members of the two Houses at \$5 a  
day for the first 70 days of a regu-  
lar session, and \$1 a day thereafter.

The sales tax bill will be called  
up in the House on Tuesday for  
further amendment and perfec-  
tion. Administration forces in the  
House last Wednesday gained adop-  
tion of an amendment fixing the  
rate at two per cent, by a bare ma-  
jority of one vote. The House Ways  
and Means Committee had recom-  
mended retention of the present  
one-half per cent rate, on a broad-  
er base.

After the one vote victory on the  
rate, action on other amendments  
to the House Ways and Means Com-  
mittee substitute sales tax bill,  
which replaced one offered by Gov.  
Park, was deferred by administra-  
tion leaders until Tuesday.

Obviously this was to permit  
House members to study other  
pending amendments allocating the  
sales tax funds to unemployment re-  
lief, old age pensions, eleemosynary  
institutions and the public school,  
but it also gave the administration  
forces time in which better to or-  
ganize their opposition.

# Liberal's Comment on the State Of Nation; Finds Mob-Mindedness

This, Says Everett Dean Martin in Address at  
Y. M. H. A., Substitutes Popular Feeling  
For Right-Thinking.

Forum Speaker

By the Associated Press.  
BERLIN, March 11.—Arrests and  
interference with church services  
were the Nazi answer yesterday to  
the Confessional Synod's indict-  
ment of the Nazi religious program.

Secret police in Pomerania is-  
sued a proclamation forbidding the  
reading of the document from  
pulpits. A few minutes before  
scheduled services groups of plain  
clothes men visited churches and  
confiscated copies of the declara-  
tion. They arrested the pastor of  
the large Stettin Church of the  
Cross. He was released after two  
hours in custody. Following police  
visits the congregations went home.

Similar police action was taken  
in other Pomerania communities,  
from which came reports of great  
antagonism to the interference.

The document was read from the  
pulpits of Prussia to large congrega-  
tions. It was the most outspoken  
organized attack since Adolf  
Hitler's rise to power. It de-  
nounced National Socialism's philo-  
sophy as anti-Christian, idolatrous  
and subversive. Police throughout  
Prussia had issued decrees against  
the reading of the manifesto.

Throughout Silesia Nazi officials  
started proceedings against Confes-  
sional Synods. It was reliably re-  
ported that authorities intended to  
bar the opposition synod in all  
parts of Silesia.

The Rev. Martin Niemöller, lead-  
er of the fight against the unifika-  
tion program of Reichsbishop Lud-  
wig Mueller, said "all must know  
there is a bitter propaganda cam-  
paign against the church under  
way. We must fight against this  
and for active, not passive Chris-  
tianity. Jews are not the only ones  
who crucified Christ."

"I told them," he said, "that the  
matter was the audience. The  
movies are accurately suited to the  
audiences for which they are de-  
signed. In all other forms of art,  
the work is first submitted to com-  
petent judges. The movie is the  
only work of art which is submis-  
sion to the man in the street.  
So it caters to the mob, which to-  
day, if we had a thousand Ciceros  
and Jeffersons, would not listen to  
them."

"Mass action today," Martin said,  
"is directly against all the things  
that the masses struggled for from  
1642 to Oct. 25, 1917." The former  
date, he explained, was that of the  
overthrow of King Charles I by the  
British Parliament; the latter date  
was that on which "the Bolsheviks,  
outvoted 6 to 1, struck down the  
provisional government of Russia  
by the Marx-Lenin strategy."

"Communism and Fascism," the  
speaker said, "then truly liberalism  
is dead. But I believe it is a forced  
dilemma—the Communist and the  
Fascist each wishes us to think  
that the other is our greatest dan-  
ger."

"Communism, Fascism, Nazi-ism  
have all abolished rights, done away  
with parliamentary government,  
and have closed a cycle of struggle  
for liberty on the part of the com-  
mon man, on the continent of Eu-  
rope. Will these things happen in  
America? Up to now, there is no  
dictatorship, no revolution, in any  
English-speaking nation.

"All the ideals of liberalism and  
democracy, representative govern-  
ment, are being destroyed. It is  
Communism vs. Fascism," the  
speaker said.

## ST. LOUIS POST-DISPATCH

Founded by JOSEPH PULITZER

December 12, 1878

Published by

The Pulitzer Publishing Company  
Twelfth Boulevard and Olive Street

## THE POST-DISPATCH PLATFORM

I know that my retirement will make no difference in its cardinal principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare; never be satisfied with merely printing news; always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER.

April 10, 1907.

## LETTERS FROM THE PEOPLE

## Schools and Politics.

To the Editor of the Post-Dispatch:

MAY I commend a recent editorial in the Post-Dispatch entitled "The School Board Election," in which you point out the danger to school affairs under the new law which makes the election of members bipartisan instead of nonpartisan. You remind the citizenship of St. Louis that on April 2 four members, one-third of the membership of the board, are to be chosen, and stress the importance of having a strongly organized representative citizen body to watch over the schools and to bring out and elect the highest type of citizen to the board.

In this connection, may I say that the Citizens' School Board Committee, which has functioned effectively in past school elections, has now been reorganized as a "widely representative citizen body" to function in the manner and for the purposes set out in your editorial. The reorganization of the committee was begun in January and a quiet effort has been in progress since, enlisting the support of representative leaders in every part of St. Louis, in clubs, societies, school groups, church bodies, civic and educational groups and other organizations. At the proper time, it will offer its endorsement of the four candidates, two Democrats and two Republicans, whom it deems best fitted for membership on the Board of Education, and will vigorously prosecute a campaign for their election.

The committee knows full well, as you point out in your editorial, that there is "danger that school affairs may be thrown into the welter of party politics," unless citizens who believe in a nonpartisan operation of the schools are warned of the danger and act accordingly. They cannot go wrong in this regard if they give their support to the candidates selected by the Citizens' School Board Committee. The candidates it indorses will be the highest type of citizens, qualified in character, intelligence and purpose for School Board membership, free from outside influences or selfish motives. I am sure that the press of St. Louis, including the Post-Dispatch, will be glad to support the efforts of the committee and back the candidates it offers. Only in this way can we be assured that school affairs will not fall into the welter of party politics.

ELMER B. KLEIN, Chairman,  
Citizens' School Board Committee.

## Life On St. A Day.

To the Editor of the Post-Dispatch:

I HAVE a problem and would be thankful if some reader would help me solve it. Illness and the depression have taken all my savings and my home. I walked the streets in search of work. When the Democrats took over the city, I called on my Democratic friends and begged for a job of any kind, but it was all in vain.

I now have a job that pays the large sum of \$1 per day. Here is the deal: Out of this wage I must pay carfare, rent, gas, electric and doctor bills and insurance, and buy coal. I must keep my insurance, as it is all in the world I have left. Now, how is a man going to retain his self-respect, and who is going to keep him from going mad and doing something rash? I have never asked for relief and I don't want to, but when so many cases tried in police courts are those of drunks who are on relief, it makes me think I should forget my pride and go in for some of this easy money.

EX-DEMOCRAT.

## Suggestion to Mr. McKittick.

To the Editor of the Post-Dispatch:

A FLAGRANT violation of the anti-trust laws of Missouri was revealed at the natural gas hearing before the Board of Aldermen's committee last week, but so far the only thing heard from our Attorney-General, Mr. McKittick, has been a deep and pervasive silence.

A most brazen conspiracy to deprive St. Louis of the benefits of natural gas was revealed by Frank Parish, president of the Missouri Pipe Line Co., and Mr. Parish backed up his charge.

If I remember correctly, we once had an aggressive Attorney-General in the person of the late Herbert S. Hadley, who had both the courage and the diligence to bring the powerful Standard Oil Co. to the mat; and it was his aggressive prosecution in that matter that later had much to do with his election as Governor.

I wonder if Herbert S. Hadley or Jesse W. Barrett, who as Attorney-General successfully prosecuted local lumbermen for violation of the anti-trust laws, would ignore so palpable a conspiracy. Mr. McKittick's name has been mentioned as a potential candidate for Governor in the next election. If he has such an aspiration, he might profit by reviewing what Mr. Hadley did and by reckoning with the present mood of Mr. Average Citizen toward the utilities and other monopolies.

MR. AVERAGE CITIZEN.

## Dangerous Intersection.

To the Editor of the Post-Dispatch:

Y OUR attention is called at this time to a greater need for safety to traffic at, at such an important intersection as Grand and Market, there are no boulevard stop signs.

This intersection has been the scene of numerous accidents and one death after the traffic signals had gone out after midnight.

A SUBSCRIBER.

## WEAPONS AGAINST BOSSISM.

Bossism in Missouri has reached a point where resistance has become a vital necessity. In Kansas City, Boss Pendergast has attained a supremacy almost unprecedented in American annals. Indeed, it is doubtful if the Crokers, Quays, Penroses, Hannans and Coxes of another era, powerful as they were, attained so complete a domination as the Poo-Bah of Kansas City.

In 1932, by virtue of the Democratic landslide, Pendergast was able to extend his influence into the domain of State government, and in 1934 he put over his own candidate for the United States Senate in the person of Harry Truman.

How far the Pendergast influence has permeated St. Louis is a matter of debate, but there is no doubt the process of infiltration has begun. St. Louis has its own miniature Pendergast, however, in Jimmie (Little Caesar) Miller, who has the Fourth Ward tucked in his back pocket and who can deliver 5000 votes, enough to swing a close election, without any trouble at all. The voting for Jimmie's slate of candidates in the Fourth has so nearly approached unanimity as to constitute a scandal.

The power of Pendergast and his satellites throughout the State depends largely upon control of elections. When elections are free and all votes are honestly counted, bossism can be overthrown at the polls. How can elections be safeguarded against corruption? There is, of course, no golden specific, but that is not to say that salutary measures cannot be taken. We have two in mind: permanent registration for the purification of the voting lists and the use of voting machines.

An article in the Post-Dispatch yesterday described the use of such machines in Philadelphia. They are also used in New York City, Albany, Rochester, Baltimore, Buffalo, Indianapolis and Des Moines. In Philadelphia, a city once dominated by Boss Vare as ruthlessly as Boss Pendergast controls Kansas City, these machines are apparently a success. To quote from our article: "Election returns that show uniform and almost unanimous votes for favored candidates of a political combination that controls a ward or precinct as does Jimmie Miller's outfit in the Fourth Ward of St. Louis, are said to be unheard of, where mechanical voting machines are used."

It is true a good many cities once installed such machines, only to discard them later, but an analysis shows (1) that in many such cases the machines were of a type distinctly less efficient than those now being manufactured; and (2) that in nearly every case the opposition of powerful political organizations was a major factor in their removal. It is undeniable that the modern voting machines place tremendous obstacles in the path of corrupt party organizations.

Permanent registration, apparently, will soon be instituted in St. Louis and Kansas City, following years of agitation by civic groups, but it will not be the kind of permanent registration that they have requested. The Pendergast following in the Legislature has prepared a bill lacking many of the safeguards it should contain, and in St. Louis the politicians have got behind a similarly faulty measure for this city. In doing so, the latter have washed their hands of the Walsh bill, prepared by disinterested persons after the best laws of this kind in the United States. One of the most important features of the Walsh bill is the signature requirement, by which voters can be identified. That has been omitted from both the Kansas City and St. Louis bills prepared by the politicians.

As in the case of criminal procedural reform, it begins to look as if the only thing left for the citizens to do is to attack the problem of clean elections through the initiative. We can get voting machines through that method and we can also get the kind of permanent registration law that would be proof against gross fraud. Our weapons against bossism are not unlimited, and we certainly should take full advantage of those at our disposal.

The situation in Missouri has become a test of good citizenship. It has become a test of democracy. Either we will permit a small group of powerful politicians to rule the State's destiny, or we will take arms against a sea of troubles and by opposing end them.

## JUSTICE HOLMES' WILL.

In the debate last week on the Sumners Supreme Court retirement bill, Congressman Blanton of Texas raised the crude objection that if it had been in force in the years since the late Justice Holmes reached the age of 70, the latter might have retired and enjoyed full pay of \$20,000 for many years.

The will of the grand old jurist was filed Saturday in Washington, D. C. It disclosed that he had left the residue of his estate, after certain bequests, to the United States. The estimate is that the share of the United States will run to \$250,000. A server of the Federal Government for nearly 30 years, he gave back to it most generously from what had been given to him. Justice Holmes' will is the complete answer to the Texas.

If Thursday night's performance is a fair sample, Huey Long can convince any hard-headed bimbo that believes in fairies.

## THE YOUNG MAN OF BUCHANAN.

Congratulations may again be offered to Francis Smith of Buchanan County. He is the young man, who, with Representative E. A. Bennett of Dent County, led the revolt in the House that brought the code reform bills out of the vault in which the lawyer bloc of the Judiciary Committee had buried them. Now the lawyer bloc has retaliated by defeating a bill introduced by Mr. Smith, and indorsed by the Buchanan County Bar Association, for providing a library fund.

The measure is strictly local in character, designed to meet a Buchanan County need, applicable nowhere else in the State. It is the kind of bill which, according to custom, is passed without debate. But the lawyer bloc, smarting under the lash of Mr. Smith's logic, which moved the House to repudiate the Judiciary Committee's indefensible action, has bared its teeth at the young man from Buchanan.

It is a cheap, spiteful exhibition of bad temper and poor sportsmanship. Mr. Smith can afford to smile. An old warrior, speaking of Grover Cleveland, said in a few words: "We love him for the enemies he has made." That is a pretty dependable yardstick by which to measure a public servant—the enemies he makes. The people of Buchanan County may well be proud of their Representative for incurring the wrath of the crowd that is fighting criminal code reform and serving the darkly villainous interests of our professional Public Enemies.

How big a vote would a fellow poll who promised that his first official act would be to abolish the radio?

laneous interests of our professional Public Enemies. The people of every other county in Missouri may be proud of him.

Prophecy is hazardous, but by all the signs and omens, the young man of Buchanan has laid the cornerstone of a future.

## POLITICS AND CONSERVATION.

It is disheartening, at a time when conservation enjoys such a vogue in the United States, to see the Missouri Legislature veering away on the political tack, as it is doing with the bill now under consideration.

This measure would create a Department of Conservation, with a Conservation Commissioner appointed by the Governor. The commissioner would exercise all the powers now vested in the Fish and Game Commissioner, and he would also have control over forestry. The license moneys paid the State by hunters and fishermen would be completely at the commissioner's disposal. He would be given power to fix the open and closed seasons for fish and game. He would have control over the State parks and the State forests. He could appoint his own employees and fix their wages.

Heretofore, the fish and game license fund, which has totaled as much as \$400,000 annually, has been allocated by law. Fifty per cent of it had to be set aside for game protection, and not less than 25 per cent of it had to be devoted to fish propagation. The bill now before the Legislature would place all these fees in a single fund, to be allocated and spent at the discretion of the Conservation Commissioner. The safeguards formerly thrown around the sports of hunting and fishing, which provide the money, would be removed.

We sincerely hope the Legislature is not going to make any such political football of conservation. There has been great hope in the State that Missouri might look forward to a better conservation policy if this expectation is disappointed, that alone will defeat any hope of bringing Missouri abreast of the more progressive states. To turn conservation absolutely over to political spoilsmen would be to put Missouri in the category of those states which have never prized conservation and have suffered from their neglect. There is no worthwhile hunting and fishing in the states which do not conserve them, whereas these sports flourish in the states which do conserve them. Our own State, with great natural advantages, with great riches in forests and rivers, has been one of the worst sufferers from a political as opposed to a conservation policy with respect to wild life. It has never had any forestry program.

Missouri needs a conservation commission made up of men devoted to the public interest. It has had a long succession of game and fish commissioners devoted to the political interests of the party in power. The bill now before the Legislature would do nothing for fish, game or forests. It would only do something for Democrats.

## ORATORICAL BATTLE ROYAL.

The war of words being staged by Gen. Johnson, Father Coughlin and Huey Long is no longer a private fight. It becomes a free-for-all with Gen. Smedley Butler, who fears no man's microphone, joining in with a few well-chosen epithets. This development must be a terrific strain on the self-imposed "year of silence" of the razor-tongued Senator Bilbo, and we may expect his vow to crack at any minute.

## EVOLUTION IN POLITICAL SCIENCE.

The slow processes of evolution are at work in bringing about the next development in American state government, the unicameral legislature. One State, Nebraska, has already taken the step, by a decisive popular vote. A commonwealth soon to rise from American territory, the Philippines, has written the one-chamber law-making body into its new Constitution. In several states, including Missouri, the proposal has reached the Legislature, but without action. And now, in Wisconsin, such a plan has been engrossed by the lower house of the Legislature. Like biological evolution, a long process is necessary for fulfillment there, including approval by the State Senate, by the Legislature of 1937 and by a popular referendum. The plan may be blocked somewhere on this course, but the seed has been planted.

No longer is the unicameral legislature a theory for academic discussion. It is arousing the interest of practical citizens, who see its benefits in economy and legislative efficiency. Actual working out of the plan in Nebraska, beginning in 1937, will afford the laboratory tests needed to demonstrate its advantages or weaknesses. Widespread dissatisfaction with state legislatures as now constituted will speed the evolutionary process in political science on its way.

Disturbing news is trickling down to the underworld from Jefferson City.

## "RAGS TO RICHES."

The country's poyoped fan from Ambrose Light to Alcatraz has learned about the St. Louis Cardinals from J. Roy Stockton's article, "Rags to Riches," in the Saturday Evening Post. If said fan had been attributing the remarkable success of the Cardinals since 1928, a period in which they have won five pennants, to magic, sleight of hand, Lady Luck or voodooism, it has been disillusioned. The germ of the Cardinals' success was conceived in the mind of Branch Rickey as long ago as 1919, when the club was so poor it could hardly have interested the neighborhood junk dealer. An idea did it all.

That idea was the celebrated farm plan, or chain store system, under which the Cardinals develop major league talent in minor league clubs which they own. It is as sound and logical and simple an idea as could be imagined; most good ideas are. It remained for Rickey to think of it and, more important, for Breardon to develop it. The rich clubs used to wait until stars developed in the minors and pay King's ransoms for them. The Cardinals of 1919 could not even buy new uniforms, much less pay King's ransoms, hence the frenzied activity in Rickey's brain—hence from "Rags to Riches."

Usually these days, the Cardinals are thought of in terms of Dixie and Daffy, and it will make other major league club owners not a whit happier to learn from Mr. Stockton's article that all these two resplendent young men cost the Cardinals a few headaches.

How big a vote would a fellow poll who promised that his first official act would be to abolish the radio?

HOW TO VOTE?

## TODAY AND TOMORROW

By Walter Lippmann

## The Current Jitters

ONCE more we have come into a period of discouragement after a few months of buoyant hope. Polyanna is silenced and Cassandra is doing all the talking. Huey Long and Frank Kent, the Old Guard Republicans and the New Republic are equally certain that recovery is halted, that reform has collapsed and that the administration is tottering. Within the administration itself, there is a notable loss of self-confidence which is reflected in leadership that is hesitant and confused.

Those who like to have their politics dished up to them in personal, partisan and parochial form will no doubt continue to believe that the explanation can be found in Mr. Roosevelt's temperament, in too much Farley or too much Tugwell, or in this or that experiment, blunder or folly. But an impartial view of the history of recovery, such as it is, and of the state of the depression throughout the capitalist world, does not support, I believe, such a simple view.

For it is a fact that the course of recovery since the low point of June, 1932, has been marked by a series of hopeful advances and discouraging relapses. It is a fact that the present retreat is not confined to the United States and is virtually world-wide.

Since June, 1932, we have had the advance of July and August of that year, the autumn and winter relapse, the boom in the spring of 1933 and the relapse of the following autumn, the recovery of the winter of 1934 and the relapse of the summer, the year-end recovery and the present relapse. That these movements have been accentuated for good by good measures, and for bad by bad measures, is reasonably clear. But the history of earlier depressions shows that even when the Government was neutral and let nature take its course, the recovery proceeded through a similar series of ups and downs.

This seems to suggest that it is very easy to over-estimate the influence of current policies upon the course of recovery. This doubt is strengthened when one notes what is going on in the rest of the world. Thus, in England, according to the London Economist, "The first phase of recovery in this country, characterized by a vigorous expansion of the home market, came to an end in the spring of 1934." There is political discontent, and it has become popular in England to attack the Conservative Government for not doing the things which it is popular in America to attack the New Deal for doing.

In France, which has followed loyally the financial policy that the Wall Street financiers like to call sound; in France, which has not tinkered with its currency and has tried to balance its budget, the year closed with a real deficit of more than five and a half billion francs, a sum which, measured by the French national income, is not much lighter than our own deficit. But German figures are hard to interpret, but it appears that the inflationary boom, due to expenditure for armaments and work relief, is halted and the budget is out of balance.

The Italian public debt has increased 15 billion lire since 1931, and, actually, counting future payments for public works, to which the Government is committed, another 20 billions. In fighting the depression, Mussolini has gone into debt relatively

about as much as Roosevelt and, in proportion to the Italian national income, far more heavily.

Now here you have five nations, two run by old-fashioned conservatives and liberals, two run by new-fangled Fascists and one, our own, run by New Dealers. And yet all five of them are having at best only moderate success in reducing unemployment and promoting recovery.

The British, off gold but with a balanced budget, have a hard core of unemployment which, in proportion to their population, is probably as large as our own. The French are on gold and have an unbalanced budget and are faced with mounting unemployment. The Germans and the Italians are inflating and spending, are creating employment and are in a state of financial siege. We are back on gold, have an unbalanced budget, are spending considerable sums to make work and have a hard core of unemployment which does not yield to the treatment. So it does not look as if the differing policies of Chamberlain, Flandin, Schacht, Mussolini and Roosevelt could provide the explanation for the fact that in all five countries there is some, but not nearly enough, recovery.

My guess is that all five countries are in difficulty for the same reason, which is that the world economy to which they belong, in which they have prospered, for which their land, labor and capital have been organized, is broken into fragments. Each of these nations is trying to make a domestic recovery, and in some measure it is succeeding. But the recovery of the separate parts cannot equal the recovery of the whole, for there remains in each country a mass of workers and resources of land and capital that belong to world trade.

With world trade in such very small quantity as it is today, each country has idle men and idle plants which it has to support out of a very much reduced national income. Theoretically, it might turn these idle men and idle plants to production for the domestic market; actually, no country has been able to do that successfully.

As a result, in one form or another, every country is subsidizing the labor, which is that that cannot find employment in the world markets to which they are adapted. We are doing that through processing taxes, doles, public works and cheap Government credit to banks, railroads and property owners. The British are doing it by tariff taxation which redistributes a large part of the national income and turns it from the savings of the well-to-do into the expenditure of the poor. The Italians and Germans are doing it by direct taxation and concealed taxation which is inflation. The French are doing it by reducing their standard of life.

If the world economy is not restored, domestic recovery cannot go very much farther than it has gone. It cannot absorb all the unemployed, and, therefore, each country is compelled not only to have a reduced national income, but by inflationary or direct taxation to redistribute part of it as a subsidy to labor, land and capital deprived of their world markets.

That is why a failure to deal with the break-up of world trade leaves every country with a choice as to whether it prefers the pains of taxes or the risks of inflation.

## Humanity in Politics

From the Weekly Bulletin of the St. Louis Medical Society.

AN organization has been formed which appears to have as its sole excuse for existence the avowed purpose of having this arrangement (sale of condemned dogs by the City Pound to medical schools for experimental purposes) annulled. There has been much talk about this organization's lack of concern in the question of animal experimentation, but invariably this is belied by references to horrible episodes said to be accurate descriptions of sadistic practices. One may pause to wonder at the hidden cruelties to innocent babes these frenzied sentimentalists will perpetrate in the name of humanity if their anti-vivisection campaign were to be successful here in St. Louis and in Chicago.

The Committee on Public Welfare heard the arguments of both sides of this question at the Municipal Auditorium on Feb. 26, but it has declined to decide on the matter until a time indefinitely in the future. It is urgent that the Committee on Public Welfare should be impressed with the seriousness of this problem of humanity, dog-mania, and that impression made quickly.

The anti-vivisectionists have been pointed in a deluge of personal and written supplications to save otherwise condemned and useless dogs, which were a public health menace, from a limited period of usefulness. It is now high time for the real humanitarians in St. Louis to start action for the sake of humanity. This anti-vivisectionist campaign must be halted with a decisive defeat. The real humanitarians should talk and write where it will do the most good, and at once.

## THE NEW DOMESTICITY

From the New York World-Telegram.

DEAN VIRGINIA GILDERSLEEVE has a new slogan for the rising young generation of womanhood—"It's fashionable to be domestic."

In harmony with the times, she said, Barnard students, "in touch with the world," have gone domestic, "as it is no longer fashionable to be an ardent feminist." Student "seeking refuge in the arts from the perplexities of the world of today." When I say in deadly earnest, I do not mean a few trade treaties with Brazil and Belgium, however well-intentioned these efforts may be. I mean the stabilization of the chief currencies of the world. For their instability, the basic cause of exorbitant tariffs, low prices, hoarding and the utter paralysis of international credit, and until these currencies are stabilized, there can be no adequate recovery.

Domesticity is only a natural part of the cultivation of the higher attitude of citizenship in a new era when the right to vote is only an adjunct and aid to the right to live. The most accurate slogan now is "It's fashionable to be socially and economically minded."

In one way or the other, or a combination of the two, the national income has to support idle men and idle plants. When the task of restoring world trade, when I say in deadly earnest, I do not mean a few trade treaties with Brazil and Belgium, however well-intentioned these efforts may be. I mean the stabilization of the chief currencies of the world. For their instability, the basic cause of exorbitant tariffs, low prices, hoarding and the utter paralysis of international credit, and until these currencies are stabilized, there can be no adequate recovery.

For that reason, we shall either drift along, now hopeful and now depressed with the depression stabilized but not conquered, or we shall take in hand in deadly earnest the task of restoring world trade.

That is why a failure to deal with the break-up of world trade leaves every country with a choice as to whether it prefers the pains of taxes or the risks of inflation.

(Copyright, 1935.)

# The DAILY WASHINGTON MERRY GO ROUND

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON, March 11. For two years, 10 people have gathered the White House regularly every Tuesday and Friday at a long mahogany table and Franklin Roosevelt to discuss with him the problems of the New Deal.

These 10 comprise the greatest concentration of political faith and economic walks of life ever to make up a Cabinet: two Republicans, one Hoover, one New Deal, one Far Westerner, one woman, one New York financier and one Tammany Democrat.

How have they come through the ordeal of the first two years? Have they developed, grown in stature, or become deflated? Here is an appraisal of them at mid-term.

**CARROLL HULL**—Secretary of State and No. 1 man in the Cabinet still is dominant because he thinks he does not get proper support from the White House, but still is fighting for one goal of his life—lowered tariffs.

And he is finally beginning to get support.

As for his reciprocity treatment, it is not absorbed in the general foreign policy of the United States, and his State Department pretty well runs itself—though sometimes very badly. He is slow, roundabout, extremely sensitive to criticism, but once he sets his mind on an objective he gets there. He is not a man to take a defeat lightly.

**HENRY MORGENTHAU**—Secretary of the Treasury, is one who if asked by Franklin Roosevelt to get a piece of the moon, would struggle desperately to reach it. He is a first-class executive. He is a man who is not a man to take a defeat lightly.

Morgenthau has got over his initial nervousness and has turned out to be a man who is not a man to take a defeat lightly. He is a man who is not a man to take a defeat lightly.

**GEORGE DERN**—Secretary of War, continues to be one of the most persistent, conscientious members of the Cabinet. But he is Secretary of War merely in name. Gen. MacArthur runs the War Department, has become so necessary to the President that he is regarded as a member of the staff.

From the Army's point of view, Dern is an ideal Secretary. He is a man who is not a man to take a defeat lightly.

**HOMER CUMMINGS**, Attorney General, is the most genial and charming member of the Cabinet. Next to Farley he is the most politically-minded. His considerations count more than those of merit, and he is a man who is not a man to take a defeat lightly.

**FRANCES PERKINS**, Secretary of Labor, is the most persistent, conscientious member of the Cabinet. But he is Secretary of Labor merely in name. The National Labor Relations Board is the real power in the Department, and he is a man who is not a man to take a defeat lightly.

**ST. LOUIS SYMPHONY TO PLAY FOR PHONOGRAPH RECORDING**  
Works of Beethoven, Haydn and Schubert Chosen; Chorus for Closing Concert.

With the close of this season next week, the St. Louis Symphony Orchestra will spend the following three days making records for the Columbia Phonograph Co. The orchestra will record the works of Beethoven, Haydn and Schubert.

The final presentation of the season is a Bach-Beethoven program, featuring the Ninth Symphony with the chorus and a chorus of 200, to be presented at the Municipal Auditorium, Friday afternoon, Saturday evening and Sunday afternoon.

**W DOMESTICITY?**  
The domestic recovery is in hand in plants. When this is the case, the domestic recovery will be complete.

**NEW CULTIVATION**  
The new cultivation is in hand in plants. When this is the case, the domestic recovery will be complete.

**OLD GOLD**  
The old gold is in hand in plants. When this is the case, the domestic recovery will be complete.

**Father John's**  
The father John's is in hand in plants. When this is the case, the domestic recovery will be complete.

**BUILDS STRENGTH TO FIGHT COLDS**  
The builds strength to fight colds is in hand in plants. When this is the case, the domestic recovery will be complete.

**ONE TRIAL AT TABLER'S CONVINCES YOU IT'S THE BEST**  
The one trial at Tabler's convinces you it's the best is in hand in plants. When this is the case, the domestic recovery will be complete.

**Plain DRESS or COAT 49c**  
The plain dress or coat 49c is in hand in plants. When this is the case, the domestic recovery will be complete.

**Man's SUIT or OVERCOAT 49c**  
The man's suit or overcoat 49c is in hand in plants. When this is the case, the domestic recovery will be complete.

**PHONE JE. 9400 For the Tabler Man**  
The phone JE. 9400 for the Tabler man is in hand in plants. When this is the case, the domestic recovery will be complete.

**TABLER CLEANERS**  
The Tabler cleaners is in hand in plants. When this is the case, the domestic recovery will be complete.

## St. Louisan and Son in Florida

MRS. HERBERT C. PHILLIPS, 25 Ridgeway, with her son, HERBERT JR., on the beach of the Roney Plaza in Miami, Fla. They returned home Saturday after three weeks in the South.

## SOCIAL ACTIVITIES

A MOTHERS and daughters luncheon will be given tomorrow by Mrs. Philip Bond Fouke.

The St. Louis Country Club grounds in honor of Mrs. Godfrey McDonald of Norwalk, Conn., who is visiting here. Mrs. McDonald accompanied her mother, Mrs. Henry A. Leckler on a winter trip to Mexico from which they recently returned, and Mrs. McDonald is with Mrs. Boeckler at her home, 91 Arundel place. Guests will include a few close friends of the hostess.

Mr. and Mrs. Fouke's son, Philip Bond Jr., returned home yesterday from Yale, where he is a senior to spend the spring holidays with his parents. Shortly after his return to college he will be best man at the wedding of Miss Olga Ann Robinson of Norwalk, Conn., and Mr. George, Newport, and at Yale. The ceremony will take place May 4 at Holy Trinity Church, Brooklyn Heights. The bride is the daughter of Mr. and Mrs. H. von Kaltenborn, 9 Garden place, Brooklyn.

Mr. Robinson, who lives in Smithtown, L. I., is the son of Attorney Robinson of Port Jefferson, L. I., and Mrs. Colgate Robinson of Smithtown. The ushers, Craig Colgate Jr., Stephen Colgate Howard, Henry Palmer Jr., Lawrence Dudley Rockwell and Hans L. Roff Kaltenborn, all of the East, are also former classmates of Mr. Fouke and the bridegroom.

The annual Red and Blue party of the St. Louis University Club will be held Saturday afternoon and evening, March 23. Finals of the squash tennis and squash racquets tournament will be played in the late afternoon. At the latter dinner and special entertainment at which time all trophies won during the current season will be presented.

Members are privileged to bring guests but no women will be permitted in the club after 6 p. m., March 23.

Mr. and Mrs. Thomas Francis, 6444 Ellenwood avenue, who have been motoring through Florida resorts for several weeks, returned last night. Their daughter, Miss Anne Francis, a recent debutante, is now on a ranch outside San Antonio, Tex., with Miss Florence Curry, niece of Mr. and Mrs. Frank I. Harney, 4628 Maryland avenue. Both young women plan to return to St. Louis this month. Miss Curry about March 20 and Miss Francis not until March 25.

Miss Anne Ross Woolsey, daughter of Dr. and Mrs. Ross A. Woolsey, 6250 Waterman avenue, will leave some time this week for the East. She will go to New York and then to Northampton, Mass., to visit former schoolmates at the Smith College. Later she will go South to spend several days with Mrs. Woolsey's relatives in Chestertown, Md.

Miss Lydia Ann Allen, daughter of Mr. and Mrs. Clayton E. Allen, 4626 Maryland avenue, who is a senior at Smith College, plans to take a sea trip with college friends during spring vacation. The party will sail from New York for a visit to Nassau, Cuba and Florida.

Miss Marjorie Boettler, daughter of Mrs. Marguerite Orvis Boettler, 5226 Washington boulevard, and Albert A. Boettler, is expected home today from the East, where she has been visiting friends for several weeks. For the past few days she has been in Washington, the guest of Miss Kathleen Wallace, daughter of Mr. and Mrs. Harry B. Wallace, a student at the Holton Arms School.

Prior to that Miss Marjorie was in New York with several friends. One day last week she spent at the Finch School, with Miss Martha O'Neill of Louisville, Ky., a friend of her family and a niece of Miss Katherine Malone who has visited here frequently. They had luncheon informally with the St. Louis students at Finch.

Mrs. Lockwood Hill, 4931 Lindell boulevard, and her father, Elias S. Gatch, will leave today for Uesappa Island, Fla., to spend several weeks.

Bishop and Mrs. Henry Wise Hobson of Cincinnati arrived Saturday to be guests of Mrs. Hobson's mother, Mrs. F. Taylor Bryan, 4346 McPherson avenue. Bishop Hobson will conduct the noonday service

## BOOK ABOUT WEALTH BY MELLON'S FATHER

With Quill, by Candle Light; He Told How Hard It Is to Hold Riches.

By the Associated Press.

PITTSBURGH, Pa., March 10.—By the light of candles that burned steadily lower even as his own life drew near its end, the father of Andrew W. Mellon wrote a book. The volume lies today among the papers and documents to which counsel for Andrew W. Mellon refers as they defend the former Secretary of the Treasury against tax charges before the Board of Tax Appeals.

This autobiography of Judge Thomas Mellon—dead these many years—was written "for the family and descendants exclusively." The banker he discovered the book during a recess of the tax hearing, said it had been something of a guide to life for him throughout his years.

**Pride in His Family.**

Said Andrew Mellon: "One of the greatest satisfactions my father obtained from life was his pride in his family. He loved his children and he tried to show the way for them to follow by giving us the benefit of his advice and counsel in this book which wrote toward the end of his life."

"I can remember how my father worked over the writing of this book by the light of three candles. He used an oil quill and its scratch could be heard all over the room."

The book relates how the elder Mellon spent his leisure time seeking information on the earlier Mellons, to whom in the Theban dialect it meant "future hope"—and how, after many years of study, the father penned the volume and had it bound in leather.

In one place the scratching quill related: "What is most noteworthy, I have not in all my researches found a single instance of anyone among them (ancestors) or among their relatives, who ever was charged with a criminal offense of any kind or who was addicted to dishonesty or bad habits."

**Difficult to Keep Wealth.**

In another place Judge Mellon wrote: "After I died, my fortune, which is more difficult to keep wealth when more have it than to accumulate it. Fluctuations in value, panics, unjust laws, maladministration of justice, frauds, accidents and the constant importunity of schemers, as well as grinding taxation and other influences, tend constantly to the disintegration of wealth."

More especially so at a period of life when the mastery spirit is weakened, and the stimulus of success no longer allures to renewed exertion, and we are more inclined to repose than to activity. In that time we are more likely to lose than to gain.

"I now no longer wonder at so many of my business contemporaries having acquired wealth in the prime of life and letting it slip through their fingers in old age. Without prudent children, or others competent to guard it, it is a natural consequence that a man's wealth will begin to waste away with his mental and physical energies."

**DR. MORTIMER J. ADLER ADDRESSES JUNIOR LEAGUE**  
Chicago U. Author and Psychologist Speaks on "The Criminal Is Always With Us."

Dr. Mortimer J. Adler, associate professor of philosophy at the University of Chicago, author and psychologist, lectured today at Junior League clubroom on the topic, "The Criminal Is Always With Us."

In collaboration with Mrs. Robert M. Hutchins, Dr. Adler wrote the prose of a book titled, "Diagrammatics," illustrated by Mrs. Hutchins. The book and art evoked wide comment because of the originality of expression in both.

Dr. Adler has lectured at Columbia, City College of New York, Cooper Union, Brooklyn Institute of Arts and Sciences, and is a contributor to several national periodicals.

College. Miss Jackson will be in St. Louis about 10 days.

John Cother Webb, son of Mrs. P. G. Hartnett, 6901 Princeton avenue, and president of the January graduating class at the University City High School, will sail Friday on the Majestic for England to study at the Royal Academy of Dramatic Art, London. He will also visit Maurice Webb, an uncle. John has taken part in many of the plays given at the high school during the past four years.

Miss Vigee Le Brun Jenkins has returned from the Southwest Missouri State Teachers' College at Cape Girardeau, Mo., to spend several months with her parents, Mr. and Mrs. J. Le Brun Jenkins, 351 South Maple avenue, Webster Groves. She will resume her studies with the summer course.

Mr. and Mrs. J. A. Veazey, 6330 South Rosebury avenue, and Mrs. Veazey's mother, Mrs. Clotilda Konze, have returned from an extensive motor trip in the South and a visit at Miami Beach, Fla.

Mrs. Nathan Blitz and daughter, Miss Golyde Blitz, 6451 Vernon avenue, will leave tomorrow to sail Saturday on the Conte di Savoia for a Mediterranean cruise. They will go as far East as Palestine before returning to St. Louis in about three months.

Miss Margaret L. Jackson, daughter of Mr. and Mrs. Lewis B. Jackson, 16 Carrswold, is expected home Friday from Baltimore, where she is a student in Goucher

## LONG NOT ENTIRELY A FOOL, SAYS DR. C. OSCAR JOHNSON

Pastor Says Senator Shows Fearlessness in Making Accusations of Dishonesty.

"What Huey Long says is not all foolishness and he is not altogether the fool some folks take him to be," Dr. C. Oscar Johnson said last night at Third Baptist Church in a discussion of current events before his formal sermon.

"He is talking alone a line which it behooves the rest of us to study and heed," Dr. Johnson asserted. "Huey Long, fearlessly calling out names, accusing of fraud, dishonesty and crime, is no more ridiculous than a Senate sitting silently and taking no steps to investigate his charges. The people of the United States are weary of the announcement that the Government has been investigated and then never hearing any account of the finish of it."

"Huey Long's tactics are rather welcome to the common people of America. I am told members are being enrolled in his 'Share Our Wealth Society' at the rate of 100,000 a week. His program sounds very much like a fairy dream, but it has an appeal to millions who have not had a fair deal in this land of opportunity and wealth."

**SAYS PERSIANS 'ARE SOUL' ON AMERICAN DEMOCRACY**  
Dr. S. M. Jordan, Head of College at Tehran, Asserts Bolshevism Is Disregarded.

American democratic ideas prevail in Persia, Dr. S. M. Jordan, president of the American College in Tehran, said yesterday in a sermon at Second Presbyterian Church, Westminster place and Broadway.

Bolshevism has failed to progress in Persia because the Persians are sold on the American brand of democracy," he said.

Discussing systems of education in Persia, Dr. Jordan said there are more than 4000 modern schools there. He explained plans for instituting compulsory free education throughout the empire and said that women are free to discard the veil and disregard the old policy of "rigid seclusion."

He praised the progressive leadership of the ruler of Persia, discussing civic improvements, roads, factories and railroads. "The budget is always balanced," he said, "and the country has practically no debt."

Dr. Jordan, who is on a year's furlough, will address the St. Louis Presbytery at a meeting this afternoon in the Normandy Presbyterian Church. He will leave tomorrow for Kansas City, Mo., where he will speak at various churches.

**BEN WEIDLE SEEKS THIRD TERM ON SCHOOL BOARD**  
His Petition Signed by Nearly Double Required Number; Last Night Deadline.

Ben Weidle, member of the Board of Education since 1923, filed petitions with the Election Board today for his nomination for a third six-year term as a school director. The petitions were signed by 10,034 voters, the minimum required being 5484.

Weidle, a Republican, who is grand secretary of the Odd Fellows' grand lodge of Missouri, was the first candidate to file for the board. Next Monday is the last day for filing. Two Republicans and two Democrats will be elected to the board April 2 under a new bipartisan law.

**Movements of Ships.**  
By the Associated Press.

Arrived.  
Batavia, March 10, Empress of Britain, New York.  
Cristobal, March 10, Georgic, New York.  
New York, March 10, President Cleveland, San Francisco.  
Istanbul, March 10, Samaria, New York.

Sailed.  
Havre, March 10, Alaunia, New York.  
London, March 8, American Trader, New York.  
Nassau, March 10, Columbia, New York.  
Cherbourg, March 8, Hamburg, New York.  
Buenos Aires, March 9, Pan America, New York.  
New York, March 10, Reliance, St. Thomas.  
Hong Kong, March 8, for Vancouver, B. C.  
Kobe, March 7, President Jackson, Seattle.  
Marseilles, March 7, Eketer, New York.

## HAZLETT CAMPBELL WHEN 24, DESCRIBED

"Good-Looking, Light-Hearted, Charming," Deposition Says; Gen. Sherman's Visit.

A visit of Gen. William T. Sherman to the Campbell home at 1508 Locust street, which is still occupied by the invalid, Hazlett Campbell, was described in a deposition filed today in Circuit Judge Baron's court by the trustees for Hazlett Campbell. The trustees are, guardian for Hazlett Campbell, to set aside the trust under which Hazlett's father, Robert Campbell, fur trader, conveyed his property to his sons before his death in 1879.

Schuler is suing also to set aside the will of Hugh Campbell, who left his \$1,250,000 estate in trust for Hazlett, now 77 years old, and to go after Hazlett's death to Yale University. Either of Schuler's suits, if successful, would make Hazlett Campbell the owner of Hugh Campbell's estate, in addition to his own present fortune of \$1,750,000, and would make a group of cousins heirs to the total of \$3,000,000 after Hazlett's death.

In the suit to set aside the Robert Campbell trust, the mental condition of Hazlett Campbell, at the period soon after the trust was made, is an issue. If Hazlett was then of sound mind, the trustees contend, the statute of limitations would operate against the suit. The deposition filed today is to the effect that Hazlett Campbell was of normal mind as late as 1882. There has been previous testimony that he was mentally affected since his father's death.

Mrs. Annie Eliza Macfarlane, living near Sedalia, the widow of Hazlett Campbell, who was a cousin of Hazlett and Hugh Campbell, gave the deposition here recently. She testified that she married Campbell Macfarlane in 1881 and visited the Campbell home in 1882, when she met Hazlett Campbell there.

"Hazlett was normal and genial," the old lady testified, in giving her reminiscences of the early '80s. "He greeted me with both hands outstretched when I arrived at the house. We talked about music and pictures, and he asked me, 'Cousin Annie, did Campbell Macfarlane get down on his knees when he proposed to you? I may have to do it some time, and I want to know how.' He impressed me as a good-looking, light-hearted, chatty and charming young man."

"One night later, when my husband and I were at the Campbell house, I was upstairs looking at articles that Hugh had brought back from a trip to the Holy Land. When I was called downstairs to meet Gen. Sherman, The General said he had called because of his long friendship for Robert Campbell."

"Did Hazlett talk to Gen. Sherman?" Daniel M. Kirby, attorney for the trustees, asked the witness. "He talked as much as the rest of us did," Mrs. Macfarlane replied. "Gen. Sherman did most of the talking. When he left it was after 10 p. m., and Gen. Sherman said he had to go to Carondelet. Someone asked if he was going there alone, and I remember that I spoke up and said, 'I should think anyone that has gone through what Gen. Sherman has, can go from here to Carondelet.' Our conversation was just small talk, and Hazlett showed himself merry and full of fun."

**WOMAN EDITOR SAYS HER SEX HAS FAILED IN POLITICS**  
Mrs. Anna Steese Richardson, in St. Louis for Address, Makes Statement in Interview.

Mrs. Anna Steese Richardson, associate editor of the Woman's Home Companion, addressed the annual joint meeting of the Advertising Club and the Women's Advertising Club at Hotel Statler today.

Discussing women and politics, Mrs. Richardson, in an interview, said that American women are losing ground and that "feminism has failed." She felt that the position of women in this country is tragic. "For awhile," she said, "our women were interested in politics and social problems and wanted to vote. They believed there was a place for them in politics. Now they realize that, although they know government, only men know politics. Women, vitally interested in politics 10 years ago, have been either so shocked by corruption that they have dropped out, or they 'became corrupted themselves.'"

**DR. JOHN RUHRHAH, SPECIALIST IN CHILDREN'S DISEASES, DIES**  
Past President of American Academy of Pediatrics; 62 Years Old.

By the Associated Press.  
BALTIMORE, March 11.—Dr. John Ruhrhah, noted specialist in children's diseases and past president of the American Academy of Pediatrics, died early yesterday after a brief illness. He was 62 years old.

Following funeral services here today, the body will be sent to Dr. Ruhrhah's home at Chillicothe, O., for burial.

Dr. Ruhrhah, who made infantile paralysis—which he suffered four years ago—one of his major studies, was elected president of the American Pediatric Society in 1924 and of the Medical Library Association in 1927. He was born in Chillicothe Sept. 26, 1872. He received his medical degree from the old College of Physicians and Surgeons here and later studied at Pasteur Institute in Paris and the universities of Vienna, Berlin, Paris and London.

**J. O. PHELPS DIES IN SOUTH**  
Insurance Agent Victim of Pneumonia in New Orleans.

James O. Phelps, an insurance agent, 6907 Pershing avenue, died of pneumonia Saturday at New Orleans, where he was visiting with members of his family and friends. He was 59 years old.

Formerly office manager at Chicago for the United States Steel Co., later president of the Bristol Blue Manufacturing Co., an automobile accessory firm, in recent years he has been with the insurance sales firm of W. H. Markham Co. Funeral services will be held at the home tomorrow afternoon. Surviving are his wife, two daughters, two sons and a sister.

By John E. Wray

MIAMI BEACH, Fla., March 11.—Rogers Hornsby changed his line-up previously announced for the opening game of the series with the Browns here this afternoon.

"I'm sending in the O'Learys instead of my regulars, to start with," he said, in announcing his batting order.

The Giants opened with their regulars. Burnett was used at third in place of Cliff, who had a sore arm. The game.

**FIRST INNING — BROWNS —** Garms was safe at first on Critz's fumble. West forced Garms, Critz to Bartell. Burnett flied to Davis. Burns flied to Moore.

**GIANTS —** Critz grounded to Melillo, who made a wonderful one-handed stop and threw him out. Bartell grounded to Melillo. Moore grounded to Melillo.

**SECOND — BROWNS —** Bell flied to Ott. Hensley grounded to Terry. Melillo flied to Moore.

**GIANTS —** Burns made a one-handed catch of Ott's drive. Melillo ran over behind second for Terry's drive and threw him out. Jackson lined to Bell.

**THIRD — BROWNS —** Strange walked. Andrews sacrificed. Terry to Critz. Garms singled to center, scoring Strange. West grounded to Critz. Burnett flied to Moore.

**ONE RUN.**

**GIANTS —** Davis flied to Garms. Mancuso bunted safely down the third base line and when Andrews threw wild to first Mancuso took second. Hensley caught Mancuso off second. Hensley to Strange. Schumacher flied to Garms.

**FOURTH — BROWNS —** Parmelee went in to pitch for the Giants. Bell flied to Davis. Davis made a fine running catch of Burns' line drive. Hensley grounded to Critz. GIANTS — Critz popped to Bell. Bartell flied to Burns. Moore struck out through the box. Ott struck out.

**FIFTH — BROWNS —** Leiber went in left field for the Giants. Jackson threw out Melillo. Strange flied to Davis. Heath batted for Andrews and flied to Ott.

**GIANTS —** Weiland went to the mound for the Browns. Melillo threw out Terry. Jackson walked. Melillo threw out Davis. Jackson moving to second. Burnett threw out Mancuso.

**SIXTH — BROWNS —** Danning went in to catch. Malay to first and Weintraub to right for the Giants. Garms singled to right, but was out trying for second. Weintraub to Bartell. West struck out. Burnett grounded to Malay.

**GIANTS —** Parmelee flied to Burns. Critz was out. Melillo to Burns. Bartell flied to Hensley.

**SEVENTH — BROWNS —** Cucinello went to second. Koenig to short. Martin to third and Smith in to pitch for the Giants. Bell grounded to Koenig. Burns popped to Cucinello. Hensley flied to Weintraub.

**GIANTS —** Grube went in to catch. Bejma to second for the Browns. Leiber flied to Grube. Burns popped to Weintraub. Malay sacrificed. Weiland walked. Malay sacrificed. Weiland to Burns. Garms flied.

## Stepping Into Regular Jobs With the 1935 Browns

Here are some new members of Rog Hornsby's squad who appear to be winning places with the team. Left to right are Southpaw Bob Weiland, Right-hander Fay Thomas, Infielder John Burnett and Outfielder Beau Bell.

Dizzy and The Babe Meet and  
Each Wishes Other Good Luck

By the Associated Press

TAMPA, Fla., March 11.—Baseball's two outstanding player personalities, Babe Ruth and Dizzy Dean, shook hands yesterday, assured each other there were no "hard feelings" and agreed it was great to be fellow National Leaguers.

The occasion was the second game of the exhibition series between the Boston Braves and the Cincinnati Reds. It came unexpectedly, but the meeting overshadowed the fact that the Reds' rookie team pounded three of the Braves' first-string pitchers unmercifully and gained a lopsided victory, 12 to 1, to square accounts.

**A Busman's Holiday.**

Dean, sharing a busman's holiday with other Cardinal stars by traveling 50 miles to see a ball game, fulfilled his promise to seek out Ruth at the earliest opportunity and remove any suspicion from the Babe's mind about what Dizzy thought of the great slugger's shift to the National League.

The conversation ran something like this:

"Hiya, Babe?"

"Hiya, Kid."

"Say, I'm glad to see you in a National League uniform, big fellow."

"Yeah, it's ok."

"I hope you didn't think I said all those things they quoted me in the papers on."

"Naw, I didn't. There's no hard feelings."

"Well, they got me wrong in the papers."

"Ok, Kid."

"Say, you know I only beat the Braves once the last two years. With you in there, I probably won't beat this club at all this year."

"Well, I'll be in there swinging."

"Well, good luck, Babe."

O'LEARYS AGAIN  
BEAT HARTLEYS IN  
PRACTICE GAME

Manager Hornsby brought practically all of his squad here except some of the pitchers who worked yesterday.

Yesterday's game at West Palm Beach, while it delighted some 2200 non-cash customers, had its drawbacks. Six errors were made by the two sides, Harland Cliff having a bad day handling and throwing, and making three of the misplays. Haste in handling the ball was largely responsible.

Manager Hornsby, however, was compensated by the showing of some of the men on whom he is relying for aid or improvement this year. Beau Bell made only one hit in four times up but he made a whale of a one-handed catch of a terrific drive by Hornsby that drew the loudest applause of the afternoon.

## Haarlow Topped Scorers.

CHICAGO, March 11.—Averaging an even 13 points a game in spite of the fact he played with the last place team, Bill Haarlow of Chicago won the Big Ten individual basketball scoring championship for 1935.

The tall Maroon forward's total was 156 points, six more than the runner-up, Bob Kessler of Purdue. Kessler needed 11 points against Northwestern Saturday night to beat out Haarlow for the honor, but was held to four free throws by Al Kawai, Wildcat guard.

## Hockey Player Dies.

PORTLAND, Ore., March 11.—Exhausted from strenuous exertion in a hockey match here yesterday, Gus Boessner, 38, was taken from the game and helped to the clubhouse. In a few moments he was dead. The coroner took charge of the body.

Baer Is Offered  
\$75,000 to Engage  
In Mixed Match

By the Associated Press

BALTIMORE, March 11.—D. CONTOS, Baltimore wrestling promoter, revealed yesterday he was trying to promote a mixed fight here between Max Baer, heavyweight boxing champion, and Daniel O'Mahoney, Irish wrestling champion.

Cantos said he had wired Anell Hoffman, Baer's manager, an offer of \$75,000, with a privilege of 37 1/2 per cent of the gross gate receipts, for the bout.

The match would permit Baer to box and O'Mahoney to wrestle.

BOSTON DEFEATS  
DETROIT SIX ON  
GOAL BY SHORE

By the Associated Press

NEW YORK, March 11.—Only five playing days remain in the regular season of the National Hockey League before it winds up a week from tomorrow and the only thing left undecided is how the Boston Bruins, Chicago Blackhawks and New York Rangers will finish in the American division.

They are in a tight race, with the Bruins and the indications are they will stay there, as Boston, which has run through eight games without a defeat, holds a three-point edge over Chicago, and the Rangers, who are in a tight race with the Bruins, have a one-point lead over the Blackhawks.

In addition Boston is at home and Chicago on the road in three of the remaining four games for each.

NEW YORK AMERICANS  
DETROIT RED WINGS  
DETROIT RED WINGS  
DETROIT RED WINGS

The New York Americans and Detroit Red Wings were eliminated during the past week, while Boston forced to the front. The Americans' final chance went Thursday when the Montreal Canadiens earned the clinching point by tying the Montreal Maroons, 2-2. Detroit lost out Saturday when the Rangers broke a losing streak to whip St. Louis, 5-1, and to make it doubly certain, the Wings dropped two decisions over the week-end, 5-3 to the Canadiens Saturday and a 2-1 overtime battle with Boston last night.

The Bruins drew ahead by tying the Maroons, 2-2, taking a 7-4 scoring match from Toronto Saturday and beating Detroit Sunday on Eddie Shore's overtime goal. Chicago, after whipping the Americans, 5-1, struggled through to a 1-1 tie with the Rangers last night to hold second place.

Two remarkable goal-tending features marked last night's games. At Detroit, Norm Smith of the Wings had only one shot to stop during the third period, while Lorne Chabot of Chicago made only two off the Rangers in the second session.

The Americans, who lost their playoff chance by dropping games to Chicago and St. Louis, came back last night to finish fourth place by whipping the Maroons, 4-2. It was these will pair up at various times with Jim Solari as judges of the matches.

SIX LITTLE ROCK  
BOYS WORK OUT  
HERE FOR BOUTS

Dallas Long, who for three years was fullback of the Centre College football team, will represent Little Rock, Ark., in the Ozark District A. A. U. boxing tournament at the Coliseum tomorrow.

Long, with five other Little Rock boys, one of them Raymond Medlock, defending featherweight champion, arrived here this afternoon under the direction of Joe Biddle, finalist in the national tournament a few years ago, and worked out at the National Gymnasium.

Long, Raymond Medlock, Bobby Hand, bantamweight, Bill Beardsley, flyweight, Snider Parham, lightweight, are all Arkansas champions, while Raymond Medlock of the Kentucky blue grass turned out to do him honor.

**Winners Go to Nationals.**

The boys won the trip to the tournament in the Arkansas championship tournament held in Little Rock recently under the auspices of the Little Rock Boys' Club, a non-sectarian character building organization which has a membership of 264 youngsters.

Among 25 out-of-town boxers who will compete in the eight weight divisions for championships and a chance to represent the district in the national tournament to be held in the Arena, April 10-11-12.

It is likely that Long will meet Irwin Striebel in the heavyweight final. Dallas weighs 195 pounds and is a splendid physical specimen. If he can fight up to his weight, he should give Striebel a battle, despite a weight discrepancy in the South Side butcher boy's favor of about 30 pounds.

**Preliminaries in Afternoon.**

The contestants will weigh in at 11 o'clock in the morning, pairings will be made immediately thereafter and the preliminary contests likely will get under way by 2 o'clock in the afternoon, with the semifinals and finals to be fought in the evening, beginning at 8 o'clock.

Spectators who hold reserved seat tickets and care to see the early contests, of which they likely will be adored or more, will be permitted to do so without extra charge. Their tickets will not be taken up until the evening performance but those with general admission tickets, if they care to see the matinee and evening performances, will have to purchase tickets for each.

Visiting scrappers dominate the lists of the lighter weight divisions. In the bantamweight class, six of the nine boys will be out-of-town fighters, while six of the dozen to compete for the lightweight crown are from other cities. The welterweights are represented by four, the flyweights and featherweights by three each and the other three brackets by one each.

Five officials have been appointed to officiate at ringside. Harry Kessler, brother of Benny, will act as head referee and will be assisted in the ring by Referees Harry Cook, Bob Parkinson and Al Neist. All of these will pair up at various times with Jim Solari as judges of the matches.

All of the 26 local scrappers, including George Mruzik who entered

PRACTICE GAME  
AT WASHINGTON  
IS RAINED OUT

By James M. Gould.

Once again "Old Man Weather" failed to co-operate with the Washington University Bears in their spring football work and today's planned game between the "Irrepressibles" and the "Immovables," originally scheduled for Saturday and re-scheduled for today, has been postponed. The postponement means the curtailing of Coach Jimmy Conzelmann's plans for combat and the meeting of the giants will not take place until Saturday.

Because of the rain, the Bears today will take their workout indoors.

There is no question that the Washington squad has great possibilities. It has weight, speed, power and deception in attack and, if anything else is needed, that will be supplied before the season starts. A big, fast charging line with agile, brainy backs behind it makes for a real football combination and Conzelmann seems to have filled that prescription for his 1935 footballers.

The Bears will need all possible strength, too, for in the space of four October weeks, the team will face Illinois, Southern Methodist, Duquesne and Michigan State and that's an assignment not to be taken lightly by any football team of the Midwest.

The Bears will need all possible strength, too, for in the space of four October weeks, the team will face Illinois, Southern Methodist, Duquesne and Michigan State and that's an assignment not to be taken lightly by any football team of the Midwest.

**The Easy Part.**

In November, Washington will have it easier with three Valley teams—Creighton, Drake and the Oklahoma Aggies—and Missouri, but all summer there will be the specter of October before the Bears, which is a good thing for these present Washington players thrive on competition and they don't fear anybody. The experience most of them gained last season will stand them in good stead and they are building up a football tradition that, in years to come, will supply the only thing the present squad hasn't got.

TERRIBLE SWEDES WILL  
PLAY HARLEMITES HERE  
AT BASKETBALL, MARCH 13

Olsen's Terrible Swedes, the tallest basketball team in the game—their average six feet, five inches—will meet the strong Negro club, the New York Harlemites at the Coliseum, Wednesday night. The Harlemites have won 80 games this year.

The Swedes have already defeated several of the high ranking college teams in the South and West and recently won from the Sheboygan (Wis.) team which owns a decision over the Celtics. Five St. Louis plays with the Harlemites.

EQUIPOISE ARRIVES  
AT LEXINGTON FARM

By the Associated Press.

LEXINGTON, Ky., March 11.—A Champion came home today, turning his back to the track, on which he galloped to gold and glory, and hundreds of horse lovers of the Kentucky blue grass turned out to do him honor.

Equipose, Cornelius Vanderbilt Whitney's great thoroughbred, second leading money winner of all time, was back from the turf wars, in which he had won \$38,610 — back from Santa Anita, where he tasted defeat in his last race but lost none of the prestige that was his by right of repeated triumphs.

**One Open Date.**

Washington College, which had an undefeated football team last fall, still has one date to fill Nov. 16.

The welterweight ranks yesterday to become entrant No. 51, planned to take light workouts today or, as in some cases, none at all except a long walk and short run.

Additional entries may be made today and tickets obtained at the A. A. U. office in the Arcade Building, 809 Pine street, or by phoning Chestnut 3529.

## Miss Abbott Is Victor.

DELMONTE, Cal., March 11.—Elizabeth Abbott of Los Angeles overcame the defending champion, Dorothy Traug of San Francisco, one up to win the Pebble Beach women's golf tournament in a 36-hole final match here yesterday.

Carnera 2 to 1 Favorite to  
Defeat Impellittere, Friday

NEW YORK, March 11.—Depending on the point of view, it will be either a pugilistic dream or a nightmare that Madison Square Garden will offer on Friday night.

Label it what you will, the 10-round bout between Primo Carnera and Ray Impellittere looks like the best box office bet the Garden has had all winter.

In a meeting between two such behemoths, physical advantages have only an academic interest. Carnera scores over Ray in the matter of weight, 260 pounds to 258, but yields in height, 6 feet 7 inches to 6 feet 7 1/2.

Carnera, aiming in the general direction of a title bout with Max Baer which he may or may not get, already has been installed a 2-to-1 favorite over the Peckskill (N. Y.) big boy.

Impellittere was the bogy man of the heavyweight division for some time, but Tommy Loughran and others took him apart and discomfited he was not nearly so dangerous as they had thought. Loughran, for instance, gave away about 80 pounds yet outboxed the giant by a ridiculous margin.

Unless all the signs fail, the Garden will play host to its biggest crowd of the winter fistic season. If a fighter's punching power

Heils Gain Lead of  
532 Pins in Title  
Bowling Match

By the Associated Press.

PHILADELPHIA, March 11.—AMERICA'S match game bowling champions, the Heils of Milwaukee, tonight demonstrated to local ten-pin followers that they rate first place among five-man teams as they trounced the Rosatto-Barry bowlers of Philadelphia in the first half of their title match.

Completing their nine-game Philadelphia half of the match, the Wisconsin stars wound up with a 532-pin advantage over the champions of Philadelphia's major league.

Jumping out in front when the Wisconsin stars today for a big lead to carry into Milwaukee for the last half of the series over the next week-end. They toppled 9568 maples against 9036 for the Philadelphiaans.

GORDON DEFEATS  
CHICAGO ACE IN  
RACQUETS FINAL

By the Associated Press.

CINCINNATI, March 11.—Jack Gordon, St. Louis, retained his championship in the Jones invitational squash racquet tourney here yesterday by defeating Jim Anderson, Chicago, 15-6, 15-9, 14-15 and 15-9.

Gordon, who recently won the western amateur squash racquet title in Chicago, earned his way into the final by routing Joe Janowski, Chicago, 18-14, 2-15, 15-11 and 15-9.

Anderson defeated Roland Nord, Cincinnati, in the semifinals, 15-9, 15-10, 11-15 and 18-13.

22 DRIVERS ENTERED  
IN ARENA AUTO RACES

The entry of a twenty-second car and the possibility of at least three more drivers signing, today for a program of midweek auto racing to be held at the Arena Thursday night, were revealed in word received from Earl Reflow, promoter of the sport, who is in Chicago.

Reflow spent the afternoon yesterday mingling with drivers and attaches at the Chicago track and was gratified to hear the St. Louis track described as "one of the best in the game" and the prize list as most attractive in the Middle West.

Ted Tetterton of Chicago turned in his entry blank to the promoter, while three other drivers let it be known that if their cars were in good condition today after last night's races they would certainly sign. With four more days in which to line up entries, Reflow believes that he will have a record list on hand for the races here Thursday.

As yet he has made no arrangements for the special match race between Tony Willman and Marshall Lewis, one of the objects of his trip to Chicago. A local sportsman has offered a special prize to the winner of a match between the two drivers, providing they ride in their costly cars.

Lewis and Willman are purported to have the two costliest midgets in the business. The flashing red car, which Lewis drives, is valued at \$12,000 and the other, which Willman drives, is valued at \$10,000. Lewis' superiority at the Arena is said to have cost \$12,000, while Willman's new white and silver job set him back \$2200. Should the match be arranged, \$3000 worth of tiny mechanism would be on display in what could prove the most exciting event yet staged at the Oakland avenue track.

**Miss Abbott Is Victor.**

DELMONTE, Cal., March 11.—Elizabeth Abbott of Los Angeles overcame the defending champion, Dorothy Traug of San Francisco, one up to win the Pebble Beach women's golf tournament in a 36-hole final match here yesterday.

Carnera 2 to 1 Favorite to  
Defeat Impellittere, Friday

NEW YORK, March 11.—Depending on the point of view, it will be either a pugilistic dream or a nightmare that Madison Square Garden will offer on Friday night.

Label it what you will, the 10-round bout between Primo Carnera and Ray Impellittere looks like the best box office bet the Garden has had all winter.

In a meeting between two such behemoths, physical advantages have only an academic interest. Carnera scores over Ray in the matter of weight, 260 pounds to 258, but yields in height, 6 feet 7 inches to 6 feet 7 1/2.

Carnera, aiming in the general direction of a title bout with Max Baer which he may or may not get, already has been installed a 2-to-1 favorite over the Peckskill (N. Y.) big boy.

Impellittere was the bogy man of the heavyweight division for some time, but Tommy Loughran and others took him apart and discomfited he was not nearly so dangerous as they had thought. Loughran, for instance, gave away about 80 pounds yet outboxed the giant by a ridiculous margin.

Unless all the signs fail, the Garden will play host to its biggest crowd of the winter fistic season. If a fighter's punching power

MEDWICK SIGNS  
WITH THE CARDS;  
WINSETT IS OUT  
FOR TWO WEEKS

By J. Roy Stockton.

Of the Post-Dispatch Sport Staff.

BRADENTON, Fla., March 11.—With Joe Medwick signed and at work, Ernie Orsatti is the only absentee. The Cardinals will have their final workout today in preparation for the spring exhibition schedule which opens tomorrow with the Phillies of Jimmy Wilson furnishing the opposition. Medwick called on Sam Breadon yesterday for their second conference and in five minutes Breadon drove him to the ball park and Joe was in uniform half an hour later.

Details of the agreement as to terms were not disclosed. Breadon merely stated that everything had been settled satisfactorily. It was presumed that Medwick signed for approximately \$7500.

**Frisch Announced Lineup.**

After the morning workout, the only one yesterday, Frisch tentatively named his starting lineup for tomorrow's game.

Martin will lead off and play third base, with Rothrock, right fielder, batting second, Frisch playing second and hitting third and Gene Moore or Bob Worthington in left field and swinging in the cleanup position. Ripper Collins, first baseman, will follow with Lancey or Davis catching and hitting sixth. Terry Moore, the center fielder, will be shown in the center fielder job but seventh, followed by Shortstop Durocher and the pitcher, who at the start will be Dizzy Dean.

**Winsett Ill, Sent Home.**

John Winsett, outfielder who hit .356 for Rochester last year and who was being groomed as an understudy for Ripper Collins at first base, reported indisposed yesterday. It was found that he was suffering from malaria, and he was ordered out of uniform. He will be out two weeks.

Jacob Banks, the hard working and colorful rookie catcher, suffered a fractured finger in the Sunday game, and he was unable to pitch in hitting practice. Dazzy signaled he was throwing a curve, but Banks didn't see the sign and the ball hit the middle finger of his right hand, causing a compound fracture.

Frisch said he would experiment with his batting order during the early exhibition games, the presence of a new center fielder making that necessary.

**Frisch Moves to Center Field.**

"Terry Moore has convinced me that he is good enough as a fielder to make our team," Frisch explained. "I don't know about his hitting and I'm not worrying about that. He's a good defensive center man and that's what we're looking for. He's going to play center for us and I'm not going to worry about his hitting. If he does not better than .280 we can afford to carry him for his defensive value. If he does better, I'm not saying he won't hit, but merely that he's good defensively that he has a job. He's fast and it may take time to determine just where he belongs in our batting order."

Medwick, who missed most of work, showed his usual signing ability on his first trip to the park in practice, but he will not be in exhibition games until he has had a chance to work his muscles into condition. He is in good shape, but he expects to be in normal figure by the time the season starts.

After Dizzy Dean works three innings tomorrow, Frisch probably will give two of the young pitchers a chance to pitch. He expects to pick the pair from a group including Kleinke, Harrell, Papp, Heuser and Ward, and Frank will find them eager for the test.

## Heard at Training Camp.

Frick talking during a workout. You're running a steady pace. Pick it up before you throw a Walker. Somebody must have sneaked into the room last night and driven nails in my nostrils. Me too. I've got a terrible cold. What are you doing with that sweater, Banks? Just a sweater. Well, take it off. This is the spring. South. All right, Vance, now kick it over the park. How long has it been down? You'll have to hustle. If you loaf here you'll loaf in my game. I tell you that. I don't care when you tag first with him. Hit the ball. I've heard arguments. I've heard you to show me a home run and down 50 feet. Don't be afraid. It don't hurt if people see you. I'm doing it and you don't have to be bashful. What is baseball coming to? Get off that bench. Dazzy, this ain't a recreation house. You see what that was that just went in the clubhouse and tell him to get back on the field. Some mucker. A young fellow like you? What is this game coming to?

# SCHMELING DEFEATS HAMAS; FIGHT IS STOPPED IN 9TH ROUND

## EX-CHAMPION IS NOW A LEADING CANDIDATE FOR BOUT WITH BAER

By the Associated Press.

HAMBURG, March 11.—The answer to Max Baer's prayer for an adequate heavyweight challenger in Europe may be Max Schmeling, now a favorite of a comeback as stirring as any in the annals of the sport.

The terrific beating Schmeling handed young Steve Hamas before a howling crowd of 25,000 yesterday sent the Teuton's stock sky high and apparently gave him the inside track for a title match with Baer this summer.

Looking more and more like the savior of the days when he punched his way to the world's championship, the German cut down Hamas in nine rounds and gave the New Jersey star so unconvincing a beating that the crowd was waiting for a halt as early as the seventh round.

Carrying the fight to the bewilderment of the start, Schmeling hit Hamas constantly, jolting him with the short, deadly rights and lefts which he had learned from his chief stock in trade. Schmeling had the young American staggering from the second round on, floored him three times in the course of nine in the sixth and sent him to a brutal body count which finally forced the referee to stop the bout after a minute and 20 seconds of the ninth and awarded the victory to Schmeling on technical knockout.

Although Hamas declined to offer a fight, saying simply, "I don't want to," his manager, Arthur Harve, declared Steve was a fighter and still was suffering from the effects of the injury.

A German physician said he had treated the American for five days.

Consistent with Schmeling's victory, a defeat he suffered at the hands of Philadelphia's "Big Boy" was revealed that Baer had been offered \$300,000 for a Schmeling-Baer title match this summer. The match would be subject to the German Government's approval in the new Olympic Stadium at Berlin.

Schmeling's triumph, coming a few months after his eighth technical knockout victory over Max Baer, was no particular surprise to the German fight public. He was a 3-1 favorite at the outdoor nine spectacle he would have won.

Hamas was slow. He had a slow start, never hitting against the short, compact punching that marked Schmeling's mastery of performance.

The German ran into a body blow midway through the first round and thereafter he was spared. He was hit by a pair of six-punches in the second round and through the next three he took a terrific lacing.

His slugging in the sixth round was not enough to make him a contender. He was hit by a right cross when Schmeling's right crossed him and Hamas went down for a count of nine. Twice more the Jerseyman went down, each time taking a nine-count, and he was saved.

The American staggered out wearing for the seventh but was so obviously unable to cope with Schmeling's smashing attack that the referee stepped in to stop the fight. He was hit by a right cross when Schmeling's right crossed him and Hamas went down for a count of nine. Twice more the Jerseyman went down, each time taking a nine-count, and he was saved.

The American staggered out wearing for the seventh but was so obviously unable to cope with Schmeling's smashing attack that the referee stepped in to stop the fight. He was hit by a right cross when Schmeling's right crossed him and Hamas went down for a count of nine. Twice more the Jerseyman went down, each time taking a nine-count, and he was saved.

Schmeling weighed 189 pounds, Hamas 150.

**PABS PLAY GOLUBS FOR OZARK A. A. U. BASKET CHAMPIONSHIP TONIGHT**

The St. Louis Pabs and Golubs will meet for the fifth time this season at Sherman Park tonight at 8 o'clock with the championship of the Ozark A. A. U. basketball tournament and a trip to the National A. A. U. tournament at Denver.

The third game for the Ozark title, each team having one victory. The teams met twice before for the Municipal title, the Pabs winning both games.

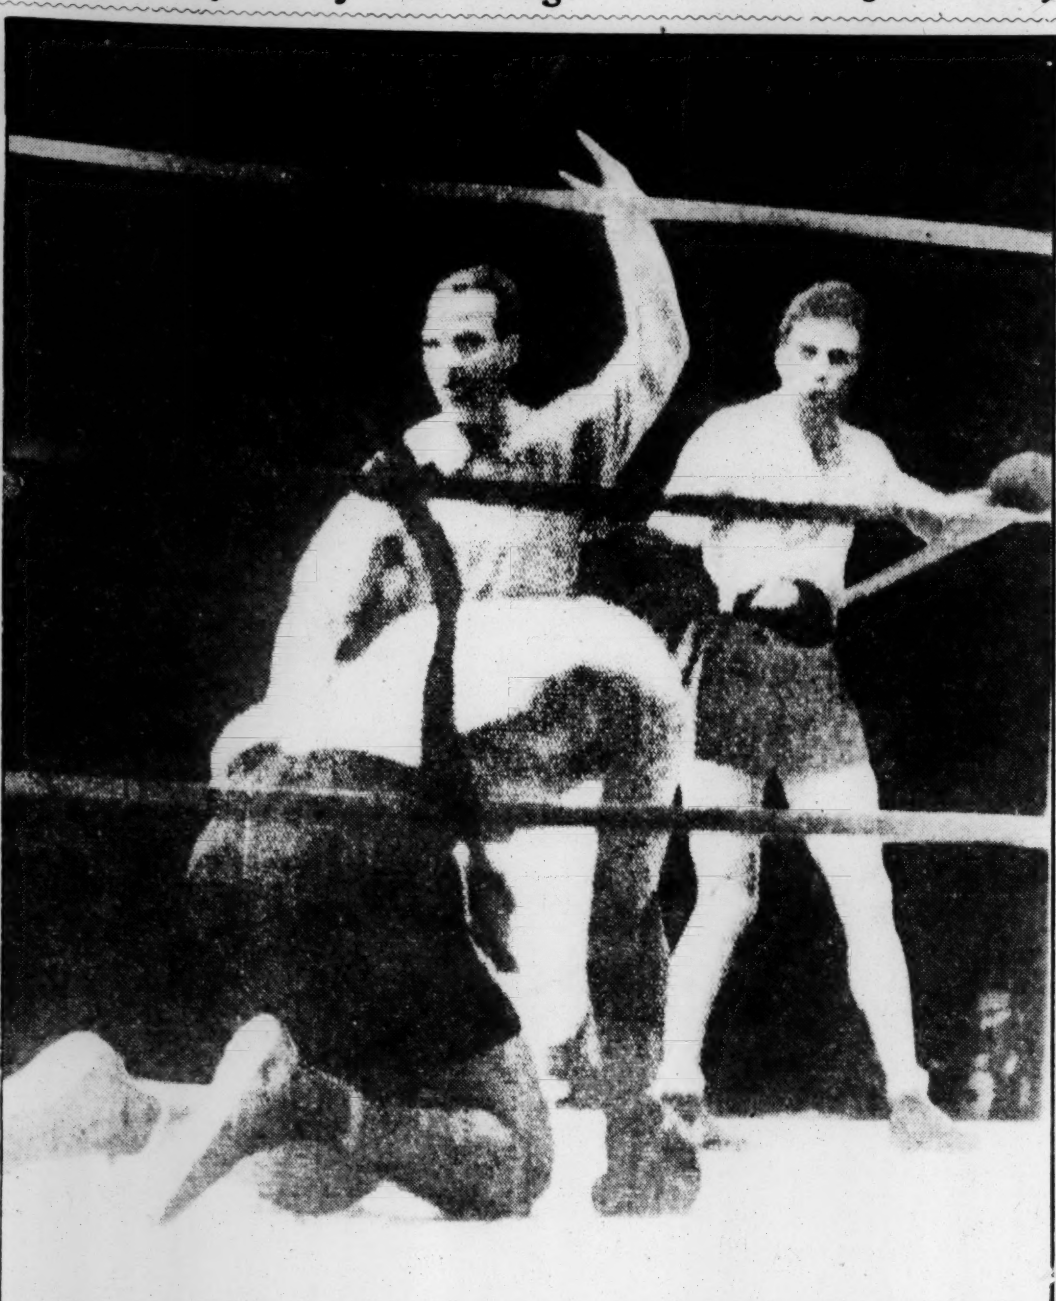

The first game for the Ozark title was played last Friday was won by the Pabs, 18-15, with the Golubs leading up to even terms Saturday with a 23-21 victory.

**LEFTY O'DOUL'S CLAIM DISALLOWED BY LANDIS**

SAN FRANCISCO, March 11.—Frank "Lefty" O'Doul, now manager of the San Francisco Seals of the Pacific Coast League, said yesterday he was notified K. M. Landis, Baseball Commissioner, had ruled against his claim for \$4000, which the Seals paid the New York Giants for his release.

Landis claimed the money was rightfully his as he was a 10-year player and entitled to release.

## Hamas Kayoed by Schmeling:—Picture Made Last Night in Germany

Here's the American heavyweight, Steve Hamas, on the canvas as the result of a knockdown by Max Schmeling in their bout last night at Hamburg, Germany. Schmeling knocked Hamas down three times in the sixth round and the referee stopped the bout in the ninth, to save the American from further punishment at the hands of the former world champion. The picture was transported from Germany to London by plane, radioed to the United States and wirephotoed to St. Louis. The object on the ropes is a towel.

## Training Camp Briefs.

**Three Runs Off Hubbell in One Inning—O'Dea, Rookie Catcher, Hits Homer and Single in Cubs' Practice Game—Hill Looks Good.**

**MIAMI BEACH, March 11.**—Yesterday's defeat by the A's, 5 to 3, left the New York Giants' parade of victories, smiling today. Although Carl Hubbell yielded three runs and four hits in his first inning in the box, he moved down five of the next six batters to re-establish himself as the "Old Maestro" of twirlers.

**Plenty of Batting Practice.**—PASADENA, Cal. — Four strenuous days of camp, the football coaches term "fundamentals" faced the White Sox today as they prepared for the most ambitious exhibition schedule in Sox history. Manager Jimmy Dykes, who has spared injuries and sore-armed pitchers and prepared to bear down today with "plenty of batting practice on the schedule."

**Home Run for O'Dea.**—AVALON, Catalina Island, Cal. — Ken O'Dea, rookie catcher, will add hitting strength to the Chicago Cubs, it appeared today. In a game against the "Yanigans" yesterday, O'Dea smacked a home run off Bill Lee, counted on to be one of the Cubs' four starting pitchers, and a screaming single off Tex Carlton. The "Regulars," with three rookies pitchers doing, yesterday blanked the "Yanigans," 7 to 0.

**Indians Beat Pelicans.**—NEW ORLEANS, La. — Plainly showing the lack of practice, the Cleveland Indians eked out a 7-to-5 win here yesterday over the New Orleans Pelicans. The game was the Indians' first real workout in three days, having been kept inside by rain since last Thursday.

**Hansen Joins Phillies.**—WINTER HAVEN, Fla. — The Phillies' pitching staff was complete today as Roy Hansen joined the team. Manager Jimmy Wilson said he is well pleased with the way the rookies performed yesterday against the regulars, although the latter won, 9 to 1.

**Hill Draws Attention.**—ST. PETERSBURG, Fla. — Jesse Hill, the former University of Southern California athlete, already has drawn considerable attention in the Yankees' camp although he doesn't begin work until today with the second squad. His slugging feats at Newark, where he hit 349 last year, combined with a .983 fielding mark and plenty of speed on the base paths, seem to make him an outstanding outfield candidate.

**Bordagary Proves Star.**—ORLANDO, Fla. — Stanley (Frenchy) Bordagary, who has to win a place in the Brooklyn outfield by beating out a 1934 regular, is making a promising bid for the job. He pulled two fancy plays in yesterday's intra-camp game, snaring Frey's high fly a few inches from the ground after he had stopped to avoid a collision with Brown, and making one bee-line throw to the plate from center.

**Pairings for the Illinois Sectional Basketball Tourney.**

**CHAMPAIGN, March 11.** — Survivors of a comparatively peaceful week of District tournament, play, 128 Illinois high school basketball teams will turn to sectional meets this week to determine the "sweet sixteen" capable of battling the State tournament here March 21, 22 and 23.

The pairings: At Bloomington: Bloomington vs. Morton, Peoria vs. Danvers, El Paso vs. Sidney, Champaign vs. Elgin, Canton vs. Knoxville, vs. Knoxville. At Carbondale: Carbondale vs. Mount Carmel vs. Palestine. At Chicago: Chicago vs. Marion, Muncie vs. York, Rockford vs. West Frankfort.

At Casey: Kansas vs. Troup, Van Buren vs. Illinois, Marshall vs. Villa Grove, Danville vs. Neoga. At Decatur: Decatur vs. Sullivan, Tuscola vs. Springfield, Taylorville vs. Urbana, Beemer vs. Galesburg, Bushnell vs. Fairview, Galesburg vs. East Peoria, Macomb vs. Canton, Knoxville vs. Knoxville.

At Gillespie: Alton vs. Lebanon, Hillsboro vs. Alton, Springfield vs. Springfield, Litchfield vs. Gillespie. At Joliet: Joliet vs. Blue Island, Aurora West vs. Blue Island. At Macomb: Macomb vs. Sheldon, Thornton of Harvey vs. Melvin, Pontiac vs. St. Louis, Chicago vs. Patton, Clinton vs. Pekin, Havana vs. Harrisburg.

## LOCAL BOWLERS IN FIFTH PLACE IN K.-C. EVENT

Special to the Post-Dispatch.

PEORIA, Ill., March 11.—Leading three of the four major events members of the Schneider's Auditorium of Detroit grabbed the lion's share of laurels in the thirteenth annual National K. of C. bowling tournament over the week-end.

Following their 2970 pin series in the five-man event, the Detroit leggers came back strong yesterday and grabbed top positions in the singles and all-events.

Phil Baumann, Charles Grygier and W. Ruedisale, Detroit, are first, second and third in the individual event, with 666, 663 and 640, respectively. Baumann also leads the all-events with 1829 for his nine games, with Joe Norris, Detroit, four-time all-event champion, third, with 1815. J. Davis of Beloit is second with 1816.

W. Kasperki and J. Jilek, Cicero, top the doubles with 1246. C. Hartman and T. Murphy, Springfield, second with 1175, and P. Baumann and C. Grygier, Detroit, third, with 1134.

St. Louis bowlers grabbed fifth place in the doubles and fifth in the singles. L. Quinn and W. Hughes connected for 1119 in the two-man and Hughes got 625 in the singles.

St. Louis scores:

TWO-MAN EVENT	
B. Moran	141 198 174-551

## STEIN TWICE IN MINNEAPOLIS MATCHES

Special to the Post-Dispatch.

MINNEAPOLIS, Minn., March 11.—Otto Stein won two of the three matches he bowled here last night, defeating J. Wolfstetter, 1175-1122, and O. Nelson, 1259-1244, in six-game matches.

Al Hahn defeated Stein in the third match, 1238-1237. Hahn bowled 245 for his last game as Stein bowled classic yesterday when he shot 206 for the six games.

Stein's best game was 246 in his match with O. Nelson. O. Nelson had the best game of the series, totaling 259.

## RICE LEADS SARATOGA PIN CLASSIC WITH 1676

Bud Rice took the lead in the Saratoga Recreation eight-game bowling classic yesterday when he shot 1676 at the Saratoga Recreation. Roy Nelson took second place with 1655 and Joe Pallardy third with 1622.

The tourney will continue tonight with one more bowling at 6:45 p. m. Four openings remain on this squad.

**P. RAY TAKES SIXTH PLACE IN PIN MEET**

P. Ray uncorked the high total in the singles event of the Greater St. Louis Bowling Association's annual classic yesterday at Heide's Recreation, 718, including 60 pins handicap, which gave him sixth place in the standing. G. Reuchers followed with 711, 48 being handicap, ranking him eighth, and M. Benick's 710, of which 65 were handicap, placed him ninth. William Walters followed with 698, Hank Farber 692, Rudy Furer 689 and Dr. Brezney 689.

The doubles leaders were undisturbed, George Kuehner 575, Buz Tonkovic 663, handicap 78, total 1316, leading the field for the day, and J. Siebens 669, B. Dierkes 548, handicap 93, total 1230, being next.

The tournament will again get under way next Saturday and come to a conclusion Sunday night.

**JONES SUFFERS TWO TECHNICAL KAYOS IN SOUTH AMERICAN RING**

LIMA, Peru, March 11.—Billy Jones, Negro heavyweight from Philadelphia, found he had tackled too big a job last night when he attempted to fight a pair of local champions against two opponents, Mauro Galuzzo of Uruguay and Peter Johnson, Peruvian Negro. Jones lost both bouts by technical knockouts.

Galuzzo hammered Jones to the floor five times in the second round of the opening fray and although the bell saved the American, the referee stopped the bout in the third and gave Galuzzo the victory. After physicians pronounced him fit for the second attempt, Jones tried to face Johnson but his seconds threw in the sponge when it was apparent he was unable to fight.

Jones weighed 192 pounds; Galuzzo 193½, and Johnson 185.

## Sanction for Owens' 60-Yard Record Sought

Special to the Post-Dispatch.

CHICAGO, March 11.—OFFICIAL sanction will be sought for Jesse Owens' world's record time of six and one-tenth seconds for the 60-yard dash, officials announced today.

The sophomore Negro flash from Ohio State obliterated the former record of .062, at the annual Big 10 indoor track and field meet here Saturday night.

The meet was won by Michigan with 49½ points, the highest total since Illinois won the meet with 45 points in 1921. Ohio State was second with 22½, Wisconsin third with 18½.

Others scored 17 points, Illinois 12½; Minnesota 10; Indiana 9; Purdue 5; Chicago 3½; Northwestern 3.

## 300 GAME IN A. B. C.; FOURTH IN 35 YEARS

By the Associated Press.

SYRACUSE, N. Y., March 11.—Carl Mensenberg of Scranton, Pa., wrote his name into the annals of the American Bowling Congress today by rolling a 300 game while taking first place in the singles with 672.

Mensenberg packed 12 strikes into the first game of the solo competition to become the fourth bowler in the 35 years' history of the A. B. C. to reach the hall of fame. There have been approximately a million and a quarter games rolled in the blue ribbon bowling classic.

Besides his 300, Mensenberg rolled 203 and 167 to amass his leading single total. He also moved into second place in the all-events with 1850 for nine games.

The first perfect game was rolled by Billy Knox, Philadelphia, at Toledo in 1913; the second by Charley Reindle, Racine, Wis., at Toledo in 1926, and the other by Jack Karstensen, a buck private from Fort Sheridan, Ill., two years ago at Columbus.

While Mensenberg stole the show with his 300, a doubles team of Harry Corban and Charley Giffin, Titusville, Pa., soared into second berth in the doubles with a 1194 total.

Three new leaders were posted. The Dick Builders of Cleveland climbed to the top in the team division with games of 984, 927, 978 for a 2889 total.

They displaced the Schmidt Garage, Cincinnati, which shot into the lead Saturday. Bart Cook and Ray Schlie took the doubles lead with 1285 and Cook rolled into first place in the all-events standing with 1889.

About the same may be said of most early derbies, although the Louisiana produced a few good three-year-olds. Black Gold, Boot to Boot and Bagenbagg among them. California, Caliente, New Orleans and Florida all have failed to show much class when early season winners there are sent to Kentucky.

## Amateur Soccer Club Beats Pros In Cup Contest

Special to the Post-Dispatch.

NEW YORK, March 11.—Two second round matches in the United States Football Association cup competition were fought to a conclusion in the East yesterday.

The Fall River Liberals winning from Portuague Sport Club of Providence, 4-2, and the Scots Americans of Kearny, N. J., eliminating Canton S. C. of Baltimore, 4-3.

The Fall River club is an amateur organization and its victory was something of an upset since the defeated team has in its lineup such well known stars as Caldwell, Priestly, Ted White, Jackson, Sousa and others who have played in national cup finals. This team, a member of the American Soccer League, had been idle for two months due to adverse weather conditions.

More than 3000 witnessed the Scots-Americans battle with Baltimore's representatives, which went two extra periods.

**Locals Rained Out.**—Soccer matches, professional and amateur, were set back a week because of yesterday's steady rain. So far as the professionals are concerned there was no particular harm done since the Centrals are held up in their national championship journey awaiting the outcome of the Chicago Wieboldt-Pittsburgh Curry match, scheduled next Sunday.

The downtown set back the play-off series at Fairgrounds and at Herman Park, University City.

**PENN AND COLUMBIA FIVES IN PLAYOFF FOR EASTERN BASKET TITLE**

NEW YORK, March 11.—For the sixth time in history, the Eastern Intercollegiate Basketball League championship has ended in a tie and for the fifth time a playoff will settle the issue.

Penn. champion a year ago, and the Columbia, the "dark horse" outfit of the loop this season, will meet Wednesday night in a one-game playoff for the title in Rutgers Gymnasium at New Brunswick, N. J.

Each finished the regular campaign with 10 victories and two defeats.

## WRAY'S COLUMN

Why Was She Neglected?

MIAMI, Fla., March 11.

**L**ACK HELEN is not entered in the Kentucky Derby and nobody seems to know why the stable has neglected this startling young lady turf sensation.

As a two-year-old, she was engaged in no fixtures and was permitted to come up any old way, like Topsy. When this scrawny little daughter of a great sire, Black Toney, won five consecutive starts as a juvenile they began to take notice of her—too late. She had no major engagements.

But the queerest part of it all is that after she carried on to win two more races, making it seven straight, and a demonstration she was a pretty good miss despite two defeats at the close of her 1934 campaign, she was not nominated for the Kentucky Derby, but only for the lesser Florida event.

Probably the Bradley interests figured that since colts beat her the close of last season, she would probably have no chance against colts in the Kentucky Derby, but might get away with any early season race. Beating colts in March and beating them in May are two different things, especially when the filly is not a big one.

**Good, But How Good?**—As the Derby was run, there isn't any way to tell how good Black Helen is. She won at will by four lengths with something in reserve in 1-31.

Measured in the cold figures of time, that isn't so much. Charley O. won the Florida Derby a couple of years ago in 1:49 1-5, nearly two seconds faster. Purely on a mathematical basis, the two times compared mean that Charley O. would have finished about 96 feet in front of Black Helen! Yet the best Charley O. could do, well, I have my day, and the veteran smiled as he tore up a mutual ticket on Morpuck.

The speaker was Mack Garner, last year the well-known "synonym of all eyes" at half the race tracks of the United States as he booted home to victory the great Cavalcade and other horses of the Brookmeade Stable, winning for his owners many scores of thousands of dollars.

Garner last year won the same race Meade won last Saturday—the Florida Derby. Time Clock was Garner's mount. Mack rode all night long, and he was for that reason. Now he is without a regular connection. Word came late last season that Brookmeade had released him and it was hinted that his handling of High Quest in the Metropolitan when the conqueror of Cavalcade was injured and had to be retired, had something to do with it.

Here, the only explanation of Garner's situation is that he has enough money to enable him to accept only mounts which he desires. That's his own version of it.

**Back Bounces Schmeling.**—MAX SCHMELING's decisive defeat of Steve Hamas puts him right back in the running again. Still, a match with Baer in June is hardly the thing, because Baer decisively beat Schmeling two years ago.

A victory over Baer would set him up for a fight with Baer, and would also preserve to the back-sliding heavyweight promoters one other first-class drawing card.

If Schmeling could beat Garner fans might be convinced that he really has come back to where he was in 1929-30.

Schmeling seems to have fought his way up into fighting toughness again. When Baer defeated him he was far below his par of other days. A rusty gladiator, he fought in a way made to order for Baer. No foe is likely to beat him. He is back in the fight in which both Schmeling and Garner did.

**The Ideal Race Track.**—HIALEAH skims the cream of Florida racing—and it deserves to. It has the most beautiful race track on the continent beyond question, and it has conducted its maintenance in almost beyond criticism.

The reward for fine management and square treatment by the promoters is shown in the figures for this year's meeting, indicating a business of \$13,793,904 handled by the mutuels. That is \$2,200,000 more than last year and a \$50,000 daily increase in betting.

It also meant a corresponding increase in attendance which, this year, has been very largely

**No Wonder SHE'S WORRIED!**

Life is no picnic for Sally. She's madly in love with her husband—but he can't seem to hold a job. "Business is bad," Tom tells her. It's high time Sally told him that his half-shaved appearance is at fault.

No man looks his best when his face bristles with stubble. And this handicap is so needless. Today's Gillette "Blue Blade" makes clean, close shaving easy and entirely comfortable. Even two shaves a day, when necessary, will not irritate tender skin. Try the Gillette "Blue Blade" tomorrow morning.

PRINTS BY ALBRECHT DUERER  
ON EXHIBIT AT ART MUSEUM

Display Includes 31 Etchings and  
42 Woodcuts by Sixteenth Cen-  
tury German Engraver.  
A special exhibition of the prints  
of Albrecht Durer, early sixteenth  
century German engraver, is on  
view at City Art Museum in Forest  
Park. The collection, which will  
remain until April 8, includes 31  
etchings and 42 woodcuts.

Dr. Hans Tietze, professor of art  
history at the University of Vienna,  
will speak at the museum tomorrow  
afternoon at 4 o'clock on Durer's art.  
The museum's own collections  
contributed 22 prints to the exhibi-  
tion, while others were lent by deal-  
ers and collectors, so that the ex-  
hibition presents a fairly compre-  
hensive summary of the artist's work.

Durer's prints, according to  
Meyrick Rogers, director of the  
museum, combine naturalistic de-  
tails with the mystical concept that  
art may become expressive of the  
creative forces of which nature and  
intelligence are reflection, an atti-  
tude of particular interest today  
when artists are trying to make  
their work express more than the  
superficial appearance of things.

Three complete floor  
shows every night.

## Durer Woodcut at Art Museum

"SAMSON SLAYING THE LION."  
WOODCUT BY ALBRECHT DUERER, WHOSE ART PRINTS WILL BE THE  
SUBJECT OF FOUR LECTURES AT THE ART MUSEUM THIS WEEK.

ASSERTS MOB MIND  
IS CHIEF DANGER TO  
LIBERALISM IN U. S.  
Continued From Page One.

ment, balanced government and lib-  
erty, which have been overthrown  
in Russia, Italy and Germany, are  
ideas of British origin, carried to  
the continent by Voltaire, after he  
had been influenced by Bacon,  
Locke and Newton. The reason it  
has been easier to establish dicta-  
torships in Continental Europe is  
that liberalism was not indigenous  
there. We may say that liberal, par-  
liamentary government has been  
the contribution of the English  
speaking people to modern civiliza-  
tion.

"New Start" in New World.  
Analyzing American history, Mar-  
tin said this continent was the scene  
of a "new start," and as such, ap-  
pealed to a world which had long  
dreamed of a chance to begin over  
the continent by Voltaire, after he  
had been influenced by Bacon,  
Locke and Newton. The reason it  
has been easier to establish dicta-  
torships in Continental Europe is  
that liberalism was not indigenous  
there. We may say that liberal, par-  
liamentary government has been  
the contribution of the English  
speaking people to modern civiliza-  
tion.

"Our popular education tries to  
teach the people God-knows-what,"  
Martin said, "to read the tabloids,  
perchance."

Communism in Colleges.  
In the question period following  
his speech, Martin said commu-  
nism, in the guise of "Leagues  
Against Fascism" and the like, was  
slipping into student bodies. "You  
can't tell me they aren't Communist  
organizations," he said. "I can re-  
cognize the big bad wolf even when  
he is dressed up as a brush sales-  
man. It is remarkable that the  
Communist have made their chief  
appeal to college undergraduates  
and Negroes. They have been  
helped by some professors who have  
gone to Moscow, left their minds  
there and come back without them."

"If we go in for dictatorship,  
liberalism will be liquidated, with  
the rest of civilization. Mobs and  
despots cannot solve our economic  
problems—problems solved by vi-  
olence and liquidation are not solved  
at all. We in America can still com-  
plain when liberalism doesn't show  
so much tangible result as we might  
like. But if we had a dictatorship  
and complained about it, we would  
be liquidated."

Here, everybody from Ogden  
Mills to Huey Long can knock  
Roosevelt. But liberalism has kept  
control of the crisis in the hands of  
the moderates, and while the mod-  
erates control civilization will get  
through its crises."

Martin, a graduate of Illinois Col-  
lege at Jacksonville and a former  
congregational minister, is a vigor-  
ous but urbane speaker, who seeks  
to evoke light rather than heat from  
the processes of discussion. His  
book, "Farewell to Revolution," was  
reviewed on the editorial page of  
yesterday's Post-Dispatch. His ad-  
dress at the Y. M. H. A. was the  
final one of the Liberal Forum's  
season. Dr. M. G. Seelig, presiding,  
made an appeal for increased sup-  
port of the Forum.

Former Suspect in \$2,500,000  
Robbery Held in Killing

Dewey Berlovich Says Relief Work-  
er Was Trying to Hold Up  
His "Club" at Des Moines.

DES MOINES, Ia., March 11.—  
Dewey Berlovich, freed in connec-  
tion with the \$2,500,000 robbery of  
the Lincoln (Neb.) National Bank  
robbery in 1930, was arrested last  
night a few hours after the killing  
of Donald Merrigan, 32, relief worker.

Police said Berlovich, proprietor  
of the Sportman's Garden Club,  
surrendered, saying he shot in self  
defense to prevent a robbery. Mer-  
rigan's body was found on the side-  
walk outside Berlovich's establish-  
ment. Mrs. Merrigan denied Ber-  
lovich's version of the shooting.

HIGHER SALES TAX  
GETS BACKING  
IN LEGISLATURE

Continued From Page One.

ganize the supporters of the high-  
er sales tax bill was in-  
troduced in the Senate last week,  
and this measure, with some amend-  
ments, likely will be the one finally  
passed by the Legislature. It would  
alleviate 40 per cent of the sales tax  
revenues, estimated by sponsors of  
the bill at about \$20,000,000 a year  
from a 2 per cent rate, to public  
schools, 35 per cent to unemploy-  
ment relief, 10 per cent to old age  
pensions and 15 per cent to reliev-  
ing the counties of the cost of ear-  
ning for patients in the State ele-  
mentary institutions.

The Senate last week perfected a  
bill to revise the State liquor con-  
trol law, and it likely will be called  
up this week for passage. A liquor  
control bill introduced in the House  
last Feb. 7 still is slumbering in a  
House committee.

Action on old age pension meas-  
ures and appropriations to provide  
the State's share of unemployment  
relief costs of the sales tax rate has  
been deferred to determine what  
revenue will be available. An ap-  
propriation bill setting aside \$6,000,  
000 as the State's share of unemploy-  
ment relief costs during the bi-  
ennium of 1935 and 1936 was intro-  
duced into the House two weeks  
ago, but has not been called up for  
perfection.

Problem of Relief.  
The Federal Emergency Relief  
Administration has taken the post-  
ponement of the State and local com-  
munities must provide \$12,000,000 toward  
relief costs in Missouri during 1935,  
as a condition of Federal relief  
payments to the State being  
continued.

Gov. Park has suggested that if  
the sales tax rate is fixed at 2 per  
cent the State assumes the full  
\$12,000,000 for 1935, due to inability  
of many counties and communities  
to raise their share of the costs.

Virtually all of the appropriation  
bills, which usually originate in  
the House, have been passed by the  
Senate, until other bills affecting  
the revenues are passed. The ex-  
ecutive budget recommended by  
Gov. Park for the biennial period  
of 1935 and 1936 totaled nearly  
\$114,000,000. This total included  
only \$6,000,000 for relief costs in  
1935 and no provision for old age  
pensions or assumption by the  
State of part of the cost now paid  
by the counties for caring for pa-  
tients in the State hospital institu-  
tions.

The criminal code reform pro-  
gram, which was killed by the  
House Judiciary Committee 10 days  
ago, when the committee slaugh-  
tered 15 such bills in one session,  
was brought back to life, tempo-  
rarily at least, when the House last  
week voted to override the commit-  
tee and placed seven of the bills on  
the calendar for consideration, not-  
withstanding the committee's ad-  
verse report.

The successful fight to revive the  
seven criminal code reform bills, all  
sponsored by the State Bar Asso-  
ciation, was led by Representative  
E. W. Bennett of Dent County and  
Colonel Smith of Buchanan County,  
the latter serving his first term in  
the House. There is considerable  
doubt, however, that the revived  
bills, if passed by the House, will  
be finally passed, as they will en-  
counter strong opposition in the  
Senate.

Efforts to have the Missouri Leg-  
islature reverse its position on two  
previous rejections of the child la-  
bor amendment to the Federal Con-  
stitution failed last week, when the  
House Committee on Federal Reso-  
lutions killed a resolution for ratifi-  
cation of the amendment by the  
Legislature. The Missouri Legisla-  
ture rejected the amendment in  
1925 and a second ratification resolu-  
tion failed of passage in the 1933-  
1934 special session.

Cleaners Close Shops in Protest.  
OAKLAND, Cal., March 11.—Or-  
ganized cleaning and dyeing plant  
owners, backed by their workers,  
kept their shops closed here today  
in another demonstration of the  
San Francisco Bay region revolt  
against price cutting in the indus-  
try. A. E. Schwartz, representing  
the owners, said 25 large plants and  
500 shops, employing 4000 workers,  
were united in the shutdown.

Auto Hits Bridge; Man Killed.  
By the Associated Press.  
VANDALIA, Ill., March 11.—  
George Dempsey, 75 years old, of  
Hagerstown, a retired farmer, was  
killed at 10 a. m. today and Mrs.  
Ben Miner and her daughter,  
Louise, were injured when the car  
in which they were riding crashed  
into a bridge abutment near here.

HOW TYPOGRAPHICAL UNION  
AIDED ITS UNEMPLOYED IN CITY.

Working Members Distributed \$400,-  
000 in Time and \$100,000 in  
Cash Since 1930.

Union printers have distributed  
about \$400,000 in work and \$100,000  
in cash among unemployed mem-  
bers since October, 1930, William  
J. Coombs, secretary of Typograph-  
ical Union No. 8, said today.

Relief activities of union printers  
were discussed yesterday at a  
meeting of the Central Trades and  
Labor Union by William Gibbons,  
president of Typographical Union  
No. 8. Amplifying Gibbons' state-  
ment, Coombs explained that \$20,000  
of the \$100,000 in cash relief was  
donated by the union, the bulk be-  
ing raised by special assessment of  
working members.

Late in 1933 the working print-  
ers voted to reduce their hours to  
40 a week in commercial plants and  
37 to 38 hours in newspaper com-  
posing rooms, in order that each  
man with a regular job could con-  
tribute one day's work to unem-  
ployed relief. The 300 unemployed  
men have thus received a fraction  
under three days' work each week.  
With \$8 as a basic day's wage,  
work relief amounts to \$6400 a  
week, or \$332,800 a year.

NAMING OF RECEIVER CANTLEY  
FOR LAND BANK SUSTAINED

Bondholder Loses Appeal Against  
Appointment by Farm Loan  
Board.

The decision of Federal Judge  
Faris in refusing to set aside the  
Federal Farm Loan Board's appoint-  
ment of a receiver for the St. Louis  
Joint Stock Land Bank was sus-  
tained by the United States Circuit  
Court of Appeals in an opinion filed  
here today.

3C BREAK  
HEAT PRICE  
COTTON DIP

LOUIS MERCHANTS' EX-  
change, March 11.—Wheat  
closed at 35c and corn  
at 35c on selling that for  
cotton, but the close was  
at a fraction to over cent  
and levels of day.  
The exchange market were  
selling earlier in day.  
The wheat market opened un-  
to be off. The close was  
lower.

CORN DOWN  
CENTS AT ONE TIME

On March 11.—Smashing of  
the market formed the rule in  
this city today.  
A reason was a drastic break  
in wheat. The market  
closed at 35c and corn  
at 35c on selling that for  
cotton, but the close was  
at a fraction to over cent  
and levels of day.  
The exchange market were  
selling earlier in day.  
The wheat market opened un-  
to be off. The close was  
lower.

ST. LOUIS POST-DISPATCH  
SELLING PRESSURE  
ON BOND MARKET

By the Associated Press.  
NEW YORK, March 11.—The  
market felt the weight of selling all along  
the line today. The Government  
several of the prime corporate ratings  
rather weak.  
Selling in the semi-acute issues was  
attributed to the weakness of stocks. At  
the same time, the Government  
were shown by the market as at  
the end of the line. The market  
hem Steel 5s at 107 1/2, Pennsylvania  
at 105 1/2 and Western Union  
at 105 1/2.

Several of the Treasury loans were  
down to 10 1/2 point at the end  
of the day. The 4 1/2s closed at 103 1/2 and  
the 4 1/2s at 102 1/2. The market  
Farm issues also closed lower. The  
downward trend, with German the main  
exceptions.

Chicago  
Stock Market

By the Associated Press.  
CHICAGO, March 11.—Following is a  
complete list of transactions on the Chi-  
cago Stock Exchange today, giving sales,  
high and low closing prices and net  
changes. Stocks limited.

# MOTORIST KILLED WHEN AUTO HITS SIGNAL STANDARD

Illinoisan Returning From Tavern Crashes Into Concrete Base at Easton Av. and Grand Blvd.

## WOMAN WITH HIM SERIOUSLY INJURED

Victims of Two Other Accidents Die of Injuries—Taxi Driver Goes on After Knocking Man Down.

A man was killed and his woman companion was injured seriously when their automobile hit the concrete standard of a blinker light in Easton avenue at Grand boulevard at 2 a. m. today.

The man was identified by his companion as Tudy Lawson, 28 years old, of Hardin, Ill. The woman said she was Mrs. Clara Larbach, 30-year-old widow, also of Hardin. He was dead of a broken neck when dragged from the wreck. Mrs. Larbach suffered fractures of the nose and jaw, a compound fracture of the left leg and a skull injury. Lawson's body is at the morgue.

According to Mrs. Larbach, Lawson borrowed the automobile from a relative and they drove to St. Charles, spending several hours in a tavern. The machine was speeding east in Easton avenue, two witnesses told police, when it hit the heavy base of the light standard, which marks a safety zone.

**Salesman Dies of Injuries Suffered in Collision.**

Charles H. Mohan, 30-year-old salesman, 3819 Flad avenue, died at St. Luke's Hospital yesterday of fractures of the spine and skull suffered early last Wednesday in an automobile collision at Union boulevard and Enright avenue.

He was making a left turn when his machine collided with another driven by Leo Reis, 615 Waterman avenue. Surviving are his wife, Jane; a daughter, Mary Jane; three sisters and a brother.

**Skull Fracture Fatal to Peddler Hit When Pushing Cart.**

Marino Gastro, 49 years old, a fruit peddler, 932 North Eighth street, died at City Hospital yesterday of a skull fracture suffered Saturday night. He was pushing a cart in the street in the 1200 block of South Broadway at 10:50 o'clock when he was hit by an automobile driven by Philip Rubin, 739 Leland avenue, University City. Rubin said there were no lights on the car and he failed to see Gastro.

**Driver of Taxi With Broken Lights Denies Hitting Man.**

Alex Folk, 41 years old, 20 Benton place, was knocked down by a taxicab at Broadway and Market street last night, suffering bruises of the head and body. The driver continued on, leaving a headlight rim, glass and a piece of parking light in the street. Police later, at Eighth street and Franklin avenue, arrested the driver of a taxi on which the headlight and a parking light were broken. The driver, who owns the cab, denied having been in an accident.

Others hurt in automobile accidents during the week-end were: Mr. and Mrs. Max Becker, 3683 Cook avenue, who suffered spinal injuries when their automobile was forced off Highway 30 near Benton by another machine; Fred Struse, 24, 4223 Oakwood avenue, Pine Lawn, fractured skull; his mother, Mrs. Nellie Struse, cuts and bruises; Mrs. Jean Ellis, 4226 Oakwood avenue, skull injury; Miss Frieda Powers, 28, 4342 Maryland avenue, internal and head injuries; John Esphorst, 67, 5965 Page boulevard, fractured leg.

**CITY EQUALIZERS OPEN HEARINGS NEXT MONDAY**

G. B. O'Reilly, Maj. J. L. Barngrove and I. H. Gamble Put on Board With Assessors.

The city Board of Equalization, which will begin a month's hearings on assessment appeals next Monday, was named today by Mayor Dickmann. The members, besides Assessor Ralph Coale, are William L. Protzmann, 10,927 Riverview drive, former director of the Real Estate Exchange and former member of the City Council; Gerald B. O'Reilly, 5621 Waterman avenue, former president of the Real Estate Exchange; Maj. James L. Barngrove, 6110 Waterman, also a former president of the exchange; and Irvin H. Gamble, 4 Shaw place, lawyer.

Real estate and personal property assessments will be displayed in the Assessor's office, beginning next Monday morning, and those dissatisfied with their assessments may fill out blanks and have a time set for a hearing before the Board of Equalization.

Last year, because of the Assessor's policy of consulting large property owners as to valuations, there were comparatively few complaints. No estimate of this year's total assessment has been made public, but the real estate figure is expected to be a few million dollars above last year's amount, \$902,000,000. The Board has jurisdiction over personal property assessments as well as those on real estate, but most of the appeals are on realty valuations.

# TAX OBJECTOR IN JAIL

**B. R. DAVIS, HOPKINSVILLE (Ky.) grocer, who went to jail for 10 days rather than pay a \$20 fine for failure to collect and pay to State Treasurer the 3 per cent sales tax, since it was imposed seven months ago. Davis said he would go out of business after he was released "rather than be one of the tax collectors now over-running Kentucky." He said his customers were too poor to pay the sales tax.**

## ESCAPES FROM REFORMATORY

**W. W. Freeman Was Serving Term for Two Holdups.**

William W. Freeman, 20 years old, escaped early today from the Alcoa Reformatory, where he was serving a 10-year term for two holdups in St. Louis.

Freeman escaped, police were notified, along with Howard Smith and Kirk Nelson of Kansas City.

## HIT THAT COLD A KNOCK-OUT BLOW!

Don't fool around with a cold. It's dangerous. Take Grove's Laxative Bromo Quinine. It usually puts a quick end to Mr. Cold because it does four things. It opens the bowels, combats the infection and fever in the system, relieves the headache and grippiness feeling and tones the system. At all drug stores.

# TRAINMEN PROTEST OVER BOARD DECISION

Brotherhood Calls Mediators' Order in Union Election "Unjustifiable."

**By the Associated Press.**

CHICAGO, March 11.—Officials of the Brotherhood of Railroad Trainmen sent a message to the National Railway Mediation Board yesterday protesting against the conduct of the board.

The message, signed by A. F. Whitney of Cleveland, president of the brotherhood, was drawn up at a meeting of 70 officers of the organization. It condemned what it termed "inconsistent and unjustifiable decisions."

The complaint was that the board ordered yard foremen and yard helpers to vote as separate groups on the question of who should represent employees in negotiations with employers. The union maintains the two groups have been considered as a unit in previous dealings with company heads over a period of 20 years.

The question arose after the Order of Railway Conductors had asked the mediation board to conduct an election at the Indiana Harbor Belt Line yards to determine which union, the trainmen or the conductors, should represent the yardmen in future negotiations.

Whitney's message said in part: "The Chicago yardmen will positively refuse to participate in any vote on the representation question which comprehends splitting yard forces, and this brotherhood proposes to place responsibility where it belongs."

"Your board is advised that any decision on its part to separate yard foremen, helpers, car retainer operators and switch tenders on any vote taken in the Indiana Harbor Belt Railroad, or any other line, will be construed as an official signal for the men involved to leave the service."

**Auto Submerged; 3 Swam Out.**

POPLAR BLUFF, Mo., March 11.—Three persons swam to safety last night when their automobile crashed through a railing and was submerged in a drainage ditch east of here on Highway 60. Miss Dorothy Stewart, 23 years old, was thrown through a door window and suffered severe injuries but swam to safety. N. B. Short, 19, and Clarence Steinhoff, 23, escaped through the broken door and swam to shore. All three reside at Jackson, Mo.

# JUST AS YOU DEMAND

*Fresh* PASTRY

**demand FRESH aspirin**

● Naturally, the pastry you serve at your table is always deliciously fresh. No one would consider serving it any other way. Yet millions of people neglect to consider something even more important... *freshness* in aspirin.

For aspirin must be fresh to be fully effective.

That's why St. Joseph Aspirin is wrapped and sealed in moisture-proof cellophane to keep it always fresh, always fully effective. That's also why St. Joseph fresh Aspirin brings quicker, more effective relief from pain and colds. Sold everywhere.

# A. & P. EMPLOYEES HOLD SALES CONTEST BANQUET

St. Louis Unit Celebrates Winning of Two Divisional Competitions Since October.

A banquet celebrating the winning of two divisional sales contests since the appointment of H. W. Carver, general superintendent of the St. Louis unit of the Great Atlantic & Pacific Tea Co., was held yesterday at Hotel Jefferson.

Six hundred employees of the St. Louis unit and a large number of office, warehouse and store employees from the Illinois and Missouri area attended.

A. G. Handley, president of the middle western division, was the principal speaker. He congratulated Carver on the St. Louis record, one of the most outstanding in the entire company. He expressed an optimistic view of the business future and the opinion that St. Louis would carry on its splendid record. J. A. O'Donnell, general superintendent of Kansas City stores, also spoke.

Carver was appointed general superintendent in last October. He came to St. Louis from Minneapolis.

"Sure...we fight about everything except OLD GOLDS" says VICTOR McLAGLEN to EDMUND LOWE

"Oh, yeah? What d'ya mean EXCEPT Old Golds? I guess you've forgotten all the fights it took to get you to buy your own Old Golds!"

"So, misfit—you're gonna stand there and tell me YOU smoked Old Golds before I did?"

"And HOW! I bought 'em, and you smoked 'em! It was a good thing I did, at that. At least I could talk in the same room with you without being drowned out by your foghorn cough."

"Is THAT SO? Why, you misshapen . . . !"

However THIS argument turns out—the fact remains that both VICTOR McLAGLEN and EDMUND LOWE smoke Old Golds today. Just as do so many other stars of the screen, the stage and radio, whose jobs demand throat-ease.

**AMERICA'S Smoothest CIGARETTE**

THE THROAT-EASE CIGARETTE

Old Gold CIGARETTES

N.B. The Old Gold argument is simply this: No better tobacco grows than is used in Old Gold. And it's pure. Easy on both THROAT and NERVES.

## Today

A Brave Business Man.  
The Last of "Baby Doe"  
Tabor.  
Rocky Mountain Sky.  
Nature's Balance.

By ARTHUR BRISBANE.

(Copyright, 1935.)

LAS VEGAS, N. M., March 11.

THE weather, beautiful climate,  
going through high Colorado to  
the Pacific Coast, up to  
the mouth of the tunnel at Raton,  
N. M., more than 7000 feet above  
sea-level, and on into this high  
country men are cheerful, in spite  
of depression. For instance, at  
Trinidad, Colo., this conversation  
took place between two "business  
men," one, the writer, the other a  
small boy, offering lead pencils for  
sale.

"How old are you?"

"Eight."

"What is your name?"

"Bob."

"What is your last name?"

"Hold."

"How many pencils do you sell  
to a day?"

"None."

He sold one then, and his expres-  
sion changed to a smile.

Denver, perched one mile high  
off to the north, seen the end of  
a romantic story of old days when  
men got rich in a hurry, and poor  
as quickly.

Far back in the early days when  
silver and gold were plentiful and  
money "easy," everybody knew H.  
A. W. Tabor, the silver king. United  
States Senator, friend of grand  
opera, poor at the end of his life,  
and everybody knew of his wife,  
"Baby Doe" Tabor.

She saw her husband grow rich,  
shared with him when they were  
rich, saw him grow poor, wept on  
his last day, never forgot his last words,  
"Don't let go of the Matchless  
mine."

For 36 years, since the "silver  
king" died in 1899, "Baby Doe"  
Tabor watched near the mouth of  
the Matchless mine, growing poorer  
all the while, helped by heirs of  
other miners made rich by her hus-  
band and fortunate enough to keep  
their money.

Now she has been found dead,  
her body frozen stiff, all alone on  
the floor of her little shack at the  
mine mouth. Old, worn, perhaps  
hungry, she was a different "Baby  
Doe" from the one covered with  
fire and lace, who shone brilliant-  
ly in the reflected glory of her "Sil-  
ver King," sitting in the gorgeous  
"Wheeler" reserved for her in the  
Tabor Opera House. The Denver  
Post says truly "the determination  
and courage of her later tragic  
years were a match for the beauty  
and sparkle of her carefree early  
womanhood."

Thanks to the Rev. Father Moran,  
Catholic priest of Leadville,  
Mrs. Tabor's body will be moved  
to Denver and she will be buried be-  
side the body of her husband.

His dust will be moved "from the  
old weed-grown Calvary Cemetery,  
and put in a grave next that of his  
wife."

The church that she attended at  
Leadville has the highest steeple in  
the world, its point two miles above  
sea-level.

Perhaps she and her husband are  
side by side now in the spirit, far  
from the Matchless mine. Also, in  
the days of ardent prospecting, old  
miners may ask themselves, "Why  
did Tabor tell his wife never to  
give up the Matchless mine from  
which he took carloads of almost  
pure silver?" Others may uncover  
and enjoy the wealth over which  
"Baby Doe" watched for so many  
years, gradually growing old. If he  
wife alive Bret Harte could write  
a good poem about all that.

Slowly, two big engines pulling  
this train, puff and groan up the  
steep grade to the tunnel, 1000 feet  
above Trinidad, passing Wootton.  
The feet high, where Dick Woot-  
ton ran his roadhouse in pioneer  
days, and collected toll from all  
comers, until the railroad came.

Once again, note that unless you  
have seen the sky in these high  
Rocky Mountains, you have never  
seen the real sky, or the most beau-  
tiful sky.

It is brilliantly blue, vast, high,  
with white clouds drifting far apart.  
The air is mild, although a brook be-  
side the railroad track is frozen.  
Track and train turn and twist, "to  
bake the grade."

Through a central window you  
see the locomotives at one end, and  
the observation car at the other  
end, the train winding round like  
a snake up the mountainside.

Beside the track runs a smooth  
highway with grades much too steep  
for any locomotive and up those  
steep grades small automobiles  
fly with ease, 50 and 60 miles  
an hour, passing the powerful dou-  
ble engines as though they were  
not moving.

Everything is ready for the man  
who wants to travel and become  
acquainted with his country, wheth-  
er he comes through the air above  
or the ground below.

## AS THE CROW FLIES

By E. L. Meyer

A DISPATCH from Iowa City announces that the interfraternity council of the University of Iowa has abolished "Hell Week," following charges of barbarity and torture visited upon fraternity initiates.

"Hell Week" is that rite by which white fraternities change initiates into men by making them feel like insects.

In the old days a king would tap an esquire on the shoulder with a sword and say "Arise, Sir Twitterfidget." But in our modern universities the upper-class fratmen belabor the neophyte's posterior with a paddle, thus making him totally unfit to sit on a horse and ride away to the wars in search of a grateful of arnica.

Occasionally, these rituals take on refinements that are more quaint. The initiate is forced to get on his knees and make an impassioned love declaration to a fireplug. Or he is sent on grisly errands to cemeteries at night, and maybe contracts gonorrhea or pneumonia, which are good adult diseases and make him eligible to be buried, with full fraternity honors, as a manly member of the Tri Wells.

Believing that a university should be a preparation for life, I would not abolish "Hell Week" but merely modify it. The rites as practiced today relate themselves to nothing in the student's future activities, for rarely, if ever, do you see citizens making love to fireplugs, unless they are in a condition which I blush to mention and which no earnest student should wish to emulate.

However, "Hell Week" might be made a valuable week of training in citizenship, and I suggest the following substitute, which would be just as splendidly inhumane, yet carry a needful and salutary lesson:

Monday.

The freshman initiate is kidnapped, gagged and manacled and carried in an auto by his frat brothers to Washington, where he is thrust in a seat in the gallery of the House of Representatives and compelled to listen to a whole day's oratory. This sometimes proves fatal and care should be taken that the initiate's circulatory and respiratory systems are strong enough to survive the ordeal.

Tuesday.

The initiate is compelled to work for one whole day in an auto factory, or a steel mill, or a slaughterhouse, or a ditch gang, or a ready-made pants sweatshop, or a fertilizer refinery.

Wednesday.

On this day the initiate is forced to wait at the end of a soup line three blocks long, with the temperature at zero. This will be brutal, but it will provide him with a foretaste of what may await him when he gets his college diploma.

Thursday.

Continuing its fiendish rituals, the fraternity this day chains the initiate to a chair and compels him to read and be able to write a comprehensive report on one serious book on economics or international politics.

Friday.

The novice this day becomes acquainted with the punch-clock torture. A couple of dozen alarm clocks are placed in his room, set at hourly intervals. As each one rings the initiate is compelled to leap out of bed and dress, wash and hunt in his lunchbox in seven minutes flat. He then undresses, retires and goes through the same process when the next alarm clock rings. This torture is exquisite for college men accustomed to roll over on their left ear when the alarm sounds and yawn: "Aw, the hell with math. I'll cut my 8 o'clock."

Saturday.

For the Saturday of "Hell Week" the fraternity provides the initiate with a family consisting of five sniveling children and a wife with a waspish tongue and a face like a sun-dried boot. They are all hungry, and while the initiate is tied to a chair for three hours, the children yammer and the wife screams complaints into his ear, and charges him with being a tramp and a loafer, and tells him of nine men she might have married, and reminds him there's no food in the house, and why does he hang around with that bum, Ike, etc., etc. And just when he's on the point of collapse she kisses him and then he passes out with a last gurgle.

Sunday.

After six days of agony a frightful torture ends "Hell Week." The initiate, if there is anything left of him, is carried bodily to church, strapped in a pew, and is forced to listen to a sermon by the Rev. Lusty Longwind on "Is There a Hell?"

Stewed Tomatoes

Four cups canned tomatoes.  
Two tablespoons butter.  
One cup bread crumbs.  
One tablespoon chopped onion.  
Salt and pepper.

Place in a saucepan and cook slowly for three-fourths hour, stirring occasionally to prevent sticking. Just a little bit different.

## Criticism Is Important In Self-Analysis

A Man's Caliber Can Be Gauged by the Way He Takes It.

By Elsie Robinson

YOU don't like criticism. You may have trained yourself to laugh it off or take it gamely. You may pretend you want "constructive criticism" but, inwardly, any kind of criticism hurts and angers you. You think it's unnecessary, unfair. You're sure you'd be a better and braver person without it.

But you're wrong. You need criticism. Even when it's undeserved—actually malicious criticism is a privilege and an opportunity. FOR YOU'D NEVER KNOW YOURSELF OR FREE YOURSELF OR IMPROVE YOURSELF WITHOUT CRITICISM.

You don't believe that. You think you know yourself already—you don't need the other fellow's mean remark to wise you up. But that's not so. You don't know yourself. You don't even want to know yourself. None of us do.

We humans are never quite honest in our view of ourselves. We always look at our own conduct through a rosy veil of extenuating circumstances. No matter how contemptible our conduct may be, we always can and always do find some excuse for ourselves. And that's where and why the other fellow's criticism is of invaluable service.

The other fellow doesn't see the noble motive under the meanie act. He sees your conduct as the world sees it—in its simple, unadorned, cussedness. And comments accordingly. Which, of course, raises Cain with your conceit.

BUT THAT'S ACTUALLY THE FRIENDLIEST FAVOR HE COULD SHOW YOU. For the greatest measure in your life is your own conceit. More lives are wrecked by their own conceit than by all the diseases and disasters combined.

Great stress is laid on the necessity of self-respect. But most of us respect ourselves far too much. We respect ourselves so much that we never attempt to change. We spend our whole lives in defending our own inadequacy. What we need most are a few rough remarks that will show us what washouts we really are.

Criticism gives you a chance to see yourself as others see you. Don't kid yourself—their audit is always at least 33-1/3 per cent right! And you'll improve your own prospects amazingly if you'll accept that report and act upon it.

You can measure a man's caliber and forecast his future pretty accurately by the way he takes criticism. A really big person admits his fault readily. It's only the little fellow who can never be wrong. "But suppose the criticism is really untrue? Aren't there people who like to hurt—who say unkind things without any foundation?"

There are. But if you're wise you'll profit by even their remarks. Those remarks may throw no new light on your character, but they expose the person who makes them; they reveal the secret fear or hate which lies, like a poisonous abscess at the base of his bitter words.

## ST. LOUIS FASHION PARADE

Jacket Costumes Seen During Daytime—Blouses Have Color and Variety

By Sylvia Stiles

THE weather man may not always be in league with those smart St. Louisans who have an alertness about spring fashions but this doesn't bother them in the least. Certain types of costumes that are appropriate for wear regardless of the thermometer are their choice for important occasions. The jacket costume, for example, is the preference of many, while suits that are not marred by the addition of a fur coat or deep toned frocks which may be worn with brown accessories offer a happy compromise.

The jacket costume has appeared in such attractive styles during the past week that it presents itself as a highlight of the season. Both the dress and jacket combination and the skirt and jacket combination have been noted, but the former has been seen in greater numbers. Models have been so varied in styling that individuality is not lost in the choosing of this type of costume.

Outstanding among the dressy daytime versions of the jacket frock was that of Miss Jane Munson. She was seen at the Park Plaza yesterday in a black and white all-ance which was most becoming as well as cleverly styled. The skirt and jacket were of black crepe and the blouse was of white mouseline. A very large Peter Pan collar, three large white buttons at the front, and long bell-shaped sleeves were distinctive features of the blouse. The skirt had pleats at front and back. The fitted jacket reversed the usual order by fastening at the back rather than the front. It had no collar and the wide blouse collar was worn outside. Buttonholes were provided so that the large buttons on the front of the blouse could be buttoned to the jacket. This little coat, which was quite fitted and had a short pleatum, fastened high at the neckline at the back and also at the waistline but was left open between the two points to give a slashed effect. An off-the-face hat of black straw fabric and black accessories were chosen.

An equally interesting jacket costume was worn by Miss June Wiegand at luncheon at this same hotel. The blouse was of yellow French flannel and was designed in tailored styling. The long sleeves were quite fitted and finished with narrow cuffs. Two slit pockets adorned either side of the front of the blouse. This blouse was attached to a brown flannel skirt which had double pleats at the front. Over this frock Miss Wiegand wore a diagonally striped tweed jacket combining brown and citreous yellow tones. It was fitted, hip length and had tailored collar and lapels. Brown flannel flowers adorned the left lapel of this packet and there was an elegant buckle of brown and citreous composition on the belt. Miss Wiegand's hat was

regardless of the bruises to your ego.

"The truth DOES 'set you free.' And criticism DOES 'reveal the truth'—either about you or the other fellow.

Don't dodge criticism: Don't resent it. It's always a Big Break. Welcome it. Daas to look into the door it opens before you.

Orange Cake

One-third cup butter, one cup sugar, three eggs, one cup water, the juice and grated rind of one orange, a pinch of salt, 2 1/2 cup flour, two teaspoons baking powder. Cream butter and sugar, add water, orange juice and rind, salt, beaten eggs, flour and baking powder. Beat for three minutes and then fold in stiffly whipped egg whites.

Bake in a Turk's head lined with waxed paper in a moderate oven. A delicious cake that need not be iced.

Cap Style The money pouch cap is the newest inspiration of an alien designer. It's the logical successor to the basque beret, and made of the same soft knit wool. It has the same adaptability to climate and crushing, and can be changed with the same recklessness to fit varying moods.

## Religion an Outstanding Fact in Life

By The Rev. J. F. Newton

"I F I may suggest it," writes a plain-spoken reader, "do not tug in religion so often. All religion is just wishful-thinking born of fear. Let us get down to brass tacks and face facts." By all means let us face facts, one of which is that religion is one of the mightiest facts and forces in the life of man; meaning by religion a sense of a higher life and the desire and effort to relate our lives harmoniously to it, and live more nobly.

If belief in spiritual reality is wishful-thinking, so is disbelief in it. In other words, if we think only what we want to think, there is no such thing as truth—thought is done for.

No doubt religion has been perverted and abused, like everything else. But at its best, and highest, it has helped men to face the blackest of facts, with intrepid courage, and win the victory.

It has furnished a high code of godly, righteous and sober life, producing generations of good men and women, charitable, devout, devoted, good homemakers, good neighbors, good citizens.

It has comforted the sorrowing and lifted up the downcast, healing the old hurt and heart-ache of man. It has brought radiance into shadowed faces by showing them an undarkened light.

It has enabled the hard-bested to reconcile their bitter lot with a trust in the final decency of things, and thus, having delivered them from despair, has helped them to go bravely on.

It has held steady before man the vision of a juster, kinder, more joyous social order, an ideal always unrealized, but always inescapable. It has helped the doing-for-see, beyond the gathering shadows, a light upon the hills. It has made earthly farewells tender with hope.

No, surely my reader has been dreaming bad dreams about his fellow souls, else he would not speak ill of the potes of life.

Our life is a strange adventure, brief, broken, often bitter; if religion can soften its hardness and sweeten its sadness—let it do so! (Copyright, 1935.)

YELLOW and brown also were combined artistically in the jacket costume which Miss Eugenia Dempsey wore at the Coronado Hotel. The frock was of yellow low crepe and emphasized shirt-waist details. Inverted pleats were arranged at either side of the front band which displayed a row of brown buttons. The neckline was high and round. Long sleeves were finished with manish cuffs. The skirt had front pleats both front and back and a wide brown suede belt. To complete this costume Miss Dempsey had on a three-quarter length coat of brown and yellow plaid crepe. This had no collar but buttoned at the high neckline with two large wooden buttons. A brown kerchief was worn around the neck. Brown felt brimmed hat with gold ornament and other brown accessories were well chosen.

Among other attractive costumes observed on well-dressed young women was a two-piece frock of sage green crepe worn by Miss Edwina Preterious at luncheon at the Park Plaza. A monk's collar was flapping and unusual. Long, bell-shaped sleeves were set into raglan shoulders. A row of tiny self-covered fabric buttons trimmed the left side of the blouse front and the wide braided belt of the material fastened with two large buttons. The overblouse was hip length. The perfectly plain skirt of the same crepe material was slit at the side seams. Miss Preterious' hat was of brown felt and close-fitting, and added a veil. Her footwear and other accessories also were brown.

One of the most attractive two-piece suits noted during the week was that which Miss Margaret Keaney had on at a luncheon given at St. Louis Medical Society Building. The fabric was light weight wool and the color beige. The jacket was a three-quarter length model that fitted quite snugly at the waistline and flared at the hemline. Small collar and quite large lapels were of beige American broadtail. Sleeves were bell-shaped. A very wide belt of the material, fastened with a large buckle. Pleats supplied fullness at the left side of the skirt. An apricot colored satin overblouse was stunning with this suit. This had a V neckline which was draped to one side and trimmed with three large satin buttons. Sleeves were long and tight. A brown felt hat with crown shirred decidedly at one side had an upturned back brim adorned with a tiny quill. Brown accessories carried out a becoming color scheme.

Sticky Cinnamon Buns

An easy way to make good "buns." Next time you make bread or raised biscuits, take four cups of the dough when ready to shape into loaves. Roll out to one-half inch thickness. Sprinkle well with brown sugar, currants, cinnamon and dot well with butter. Shape into a roll and cut into about 18 pieces. Sprinkle brown sugar in buttered baking pan and place the rolls, cut side down, in the sugar. Let rise until twice their bulk. Sprinkle with more sugar, cinnamon and butter and bake in a quick oven for 25 minutes.

Bake in a Turk's head lined with waxed paper in a moderate oven. A delicious cake that need not be iced.

## LIVE REMARKS

OGDEN L. MILLS:

"I prefer the stimulating influences of the competitive process to the dead uniformity of Government planning and control."

GENE FOWLER:

"To do a good job, you should hate your boss and kick your job in the teeth every day."

CLARENCE DARROW:

"You could get along without gold, but you couldn't get along without metals such as iron and copper in this civilization."

ED WYNN:

"Sophistication is the disease that is troubling most of the unhappy people in the world today."

ANDRE MAUROIS:

"Every human being is an eternal mystery to every other human being."

## Today

Continued From Page One.

these white clouds, by passenger train offering the maximum of comfort and safety, by private automobile, or by automobile bus. Back ships will take you through the Panama Canal, your automobile, if you have one, with you and you will really see something.

You may see from the express train a huge motor omnibus that started from the edge of the Atlantic a little ahead of this train, climbing the grade at 50 miles an hour.

It is hard competition for railroads, but they will meet it when they realize that they must, with lighter equipment, smaller transportation units.

You will live to read a railroad advertisement "New York to California in 22 hours," and this writer will take such a trip across the continent and tell you about it.

Railroad men do not know the value of their rights of way, a value greater than the united values of all the railroads have ever been in the best of times.

Farmers back East will want to know that a trap has been invented that catches 200 or 300 crows a day easily. It is a wire enclosure, left in an open field with bait that appeals to crows.

The crows walk in, but cannot walk out. Such a trap extensively used, might exterminate the entire race of crows, and farmers might discover too late that they were worth more to him than the corn they ate.

Crows eat field mice, grasshoppers and other farm nuisances. A

Western state once put a high bounty on coyotes because they killed lambs. After they had killed all the coyotes, field mice on which the coyotes lived principally, ate all the alfalfa. There was nothing for the lambs to eat.

Experimenting with "nature's balance" is dangerous.

Officials announce that in Colorado's national parks last year, "an extermination campaign" destroyed 13,100 porcupines, killed because they injured trees. In Eastern forests, after porcupines had been killed extensively, many deer were found on the snow dead of starvation.

The porcupine climbs a tree, bites off the ends of small limbs with the succulent buds attached, and deer beneath the tree eat the limbs and buds before the porcupine can climb down and eat them himself. Thirteen thousand porcupines killed in Colorado's forests may mean many hungry deer.

Chief Acoose, dead near Grenfell, Sask., deserves your admiration. The old chief, nearly 100 years of age, is the Indian who once chased an elk, on foot, for 70 miles, killing the elk when it could run no longer. Man "fearfully and wonderfully made" can outrun any animal, in time.

When Arbuckle, the coffee man, served a wild horse to Rosa Bonheur he hired men to follow the horse on foot, never letting it stop to rest, finally capturing it.

No horse living could run as far in six days as a man can run. A famous Irish runner, afterwards elected Mayor, ran more than 600 miles in six days, in old Madison Square Garden.

Don't fail to cross this continent and see your own country. The trip is easy, short, comfortable.

## IT'S A QUEER WORLD

STATISTICALLY speaking, every man, woman and child in the United States chews 100 sticks of chewing gum every year. . . . Lindbergh carried less than \$6 in his pocket on his history-making hop. . . . We squeeze enough miles of toothpaste onto toothbrushes every year to reach several times around the earth. . . . A scientist says that "love and hunger are based on definite chemical reactions," and insists that "by chemical means affection can be stimulated or transformed into indifference." And I'd like to know just how he'd do it! . . . A Sioux Indian bit off the end of his wife's nose to make her less attractive to the other redskins, and got two years and eight months in the State Penitentiary of South Dakota for doing it. . . . Herbert Hoover was the son of a Quaker blacksmith and 20 of the 96 members of the Senate during his administration were millionaires. . . . Beethoven executed his most sub-

limb works after he was totally deaf. And I like that story they tell

about the Central Park Zoo in New York about the wolf who had a nervous breakdown because so many people stood in front of his cage, pointed their fingers, made faces, and sang "Who's Afraid of the Big Bad Wolf?" There is enough concrete in Boulder Dam to build a foot highway from Seattle to New York. . . . A New York firm will forecast the weather three years in advance, so you can tell now whether your Arbor Day picnic will be spoiled by rain. . . . And this from Vina Delmar: When a woman talks about her past, she's confessing; when a man does, he's bragging. . . . In Benares, India, beds made of thorns are specially constructed for beggars who pose as holy men. They find the thorns a big help in prying passers-by loose from their small change. . . . Among titles that intrigue me was one of a magazine article—"Way to Next Wednesday." I've always wondered why they picked Wednesday, why not one of the other six days. . . . If anybody cares, a good parachute costs from \$300 to \$350. . . . Many hotels avoid floors or rooms num-

bered "13," because of the old superstition about this number they skip it and go on to 14. . . . And I think this is simply swell: The bonds of matrimony aren't worth much unless the interest is kept up. . . . An old superstition from New England: "A thunderstorm ain't good for eggs that are under a hen hatching. The chickens are apt to be crazy. . . . Everybody knows that Abraham Lincoln was no beauty, but his wife was so insanely jealous of him that she threw a fit if he but looked at another woman. . . . King Zog of Albania had to cut down his cigarettes from 150 to 50 a day because of his cough. . . . When Andrew Jackson was elected President he threw all the bathtubs out of the White House; said they were "obnoxious to the common people." . . . Turgenet, the novelist, once said that he would give all his books, his art, his fame "if there were one woman in the world who cared whether he came home late to dinner. I know a lot of men who would give all that if they State Building is often struck by

lightning and sometimes twice during a single storm. . . . In New Zealand a woman with red hair is believed to have a clear road to heaven. . . . Color blindness occurs more frequently among men than among women. . . . Even a stopped clock is twice a day right. . . . When "Alfalfa Bill" Murray was running for Governor of Oklahoma, a lady columnist delighted her readers with stories about his wearing two pairs of pants in cold weather and eating hot cakes with his hands. . . . And speaking of eating: Mariene Dietrich is inordinately fond of old pickles and eats one with almost every meal. . . . Montana Republicans sent Jeanette Rankin to Congress three years before we had national woman's suffrage. . . . The smallest national park: A rock in the Mississippi River near the village of Wittenberg, Mo., was declared a national preserve by President Grant. . . . And of all the reasons I've ever heard for drinking, I like best the one given by the stew who insisted he only drank to make other people more interesting.

# IF YOU ASK MY OPINION

By Martha Carr

Dear Mrs. Carr:  
I HAVE just moved to St. Louis. Where I came from we had weekly dances at the school I attended, and "dates" were discour- aged. I, a boy 16 now, find that here it is quite the thing and lately I have wanted to date; but I am not really sure what is expected of me. How many dances, for instance, should I dance with the girl I take it to a dance?

I know a number of boys who seem to have the same worry about these things. I believe my letter and your answer might be of interest to others.  
JUNIOR.

You should not feel shy about asking your family what is good form in these things; remember, they had to ask some one at some time. You dance the first and the last dance with the young woman you take to the dance; this is, ac- cording to polite custom, accepted as a matter of fact. And, after this, certainly if you cared enough for the girl to invite her, you would want more dances. One or two or three, if she will give them to you; but it is better taste and better policy not to try to monopolize her evening and to think she is so in- debted for the invitation that she is compelled to give you all the dances you want. You wouldn't care to dance with a girl who danced so poorly that no one else cared to dance with her, and there will be other girls whom you have reason, probably, to show some at- tention.

Of course, when a young man takes a girl to a night club, where none of their friends happen to be present, it is a foregone conclusion that he must dance all dances with her. He may not know anyone here to introduce to her and he cannot, of course, leave her sitting alone. But, at these places, one sees young people arriving usually in groups.

I answer to Mrs. Cody and Mrs. B. My heart aches for them. I, too, have been looking for my daughter for the last 18 years; but, so far, it is all in vain. She was born in this city on March 10, 1914. She was 2½ years old when I saw her last. I would be willing to die just to get one more look at her.

Mrs. Carr, please do not print my name, but keep it in case someone else is trying to find her mother. The baby's name was Dorothy Mae MRS. B. G.

Dear Mrs. Carr:  
WILL you please tell me how much I should weigh? At what age should a girl begin to use creams on her face? Who should I write to, to find the most interesting things to see in Maine? F. B.

Write, sending self-addressed, stamped envelope and I will send you a weight scale.  
Young skins differ in their need for creams. Unless a girl's skin is very dry or she expects her face to be exposed unduly to the sun, on some hike or journey, she will need very little cream, and then only the best tested creams for her complexion. The age is not so much to be considered as the need of the skin. Very young girls should not use make-up, certainly not until they are allowed to go out some at night.

The travel bureaus and the rail- road offices, the library and the "Chambers of Commerce of the cities of Maine, all will offer infor- mation about the attractive and in- formative points to see in that State. The coast of Maine is one of the most rugged and picturesque on the Atlantic.

Dear Mrs. Carr:  
MY bridge club meets once a month at the home of dif- ferent members. It will meet at my home in May and as Decora- tion day falls in May, I want the color scheme to be red, white and blue.

We have planned to serve only a dessert and drinks, but I must say I'm stumped about the color scheme of this. I cannot find a single edi- ble in blue.

Please, too, suggest a novel prize for such a time.  
A FAITHFUL READER.

I can do much better for you if you will send me self-addressed, stamped envelope for my "What to Serve at Parties," and in which I may give you a little special help about your color scheme and re- freshments.

## Club-Foot Can Be Corrected Even in Adult

Modern Surgery Makes Possible Complete Cure of Deformity.

By Logan Clendening, M. D.

IT would be cruel to attempt to describe the nature of club-foot for a lay audience, were it not for the fact that we can append to the description a promise that by modern methods of orthopedic treatment the condition can be corrected, and the deformity completely obliterated.

This is true no matter what age treatment is undertaken, there are, of course, many advantages in treating it as early as possible. In a child at the age of about a year or 18 months, simple manipula- tion and fixation in casts will cor- rect the condition, if the treatment is persisted in. In older people surgical procedures may be necessary, but even so, the results in compe- tent hands are extremely good.

In the ordinary form of club-foot, the feet are bent so that the big toes are practically facing each other, end to end, and the soles of the feet face backwards. The con- dition is obvious at birth, but may not be noticed until the child be- gins to walk, when it is found that it walks upon the outside of the ankle.

Treatment should be begun be- fore it begins to walk or imme- diately afterwards, because most of the deformity depends upon the formation of callosities and bur- ses on the places where the foot is in contact with the ground or floor in walking.

In this form of club-foot all the bones and soft structures of the foot are present, but are distorted in their relations to each other. The exact cause of the paralytic not thoroughly understood. It is possibly due to contractions of the soft tissues from the child's position before birth. There is almost always considerable atrophy of the muscles of the foreleg, which sug- gests that some slight paralytic may have occurred before birth, pos- sibly of an infectious nature, like infantile paralysis.

The only treatment that is need- ed in these cases is to force the feet into a correct position, and hold them in place until the parts have settled into their new position. The outlook is excellent if treat- ment instituted early.

The deformity may recur after treatment, but correction can be maintained. Recurrence is common from inefficient reduction and in- efficient retention after reduction and the general impression prevails that the correction of this deform- ity is impossible or difficult. Noth- ing could be further from the truth. The deformity can be cor- rected regardless of age, and in in- fancy the foot can be corrected without destruction of tissue, and normal function secured in every case.

Some atrophy of the calf and thigh muscles may persist throughout life, but this in no way interferes with the activity of the individual. Growth is not arrested and height is not appreciably affected. In mid- dle or late childhood, or at any age after fixed changes in the bones have occurred, the foot can be made perfectly straight so that walking on the sole is permitted, but there is greater arrest of development, and appreciable deficiency in height is noted.

The most important lesson which parents, who bring children with this deformity into the world, have to learn is that it is no disgrace and no fault of their own, and that per- sistent treatment will always result in a completely satisfactory foot. Early discouragements must be re- garded as a failure, and the child's future happiness, repeated manipulation insisted upon.

EDITOR'S NOTE: Six pamphlets by Dr. Clendening can now be ob- tained by sending 10 cents in coin, for each, and a self-addressed en- velope stamped with a three-cent stamp, to Dr. Logan Clendening, care of "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treat- ment of Diabetes," "Feminine Hy- giene" and "The Care of the Hair and Skin."

care in serving fish which has not had scrupulous examination and which has not been kept freezing cold.

Cream sauces are often used with fish, and, this, of course, could not be done if the combina- tion were poisonous.

Letters intended for this col- umn must be addressed to Dr. Logan Clendening, M. D., St. Louis Post-Dispatch. Mrs. Carr will answer all questions of general interest but, of course, cannot give advice on matters of a purely legal or medical nature. Those who do not care to have their letters published may en- close an addressed and stamped envelope for personal reply.

## CHILD WONDER OF THE MOVIES

SHIRLEY TEMPLE... she'll have a million dollars in the bank.

### Little Shirley Temple Who Leaped From the Cradle to Fame Is Making a Fortune Before the Cameras.

By H. H. Niemeyer

HOLLYWOOD, March 8. ISSING by not very many votes the honor of being ac- claimed the leading film actress of the year by the Academy of Motion Picture Arts and Sciences and being presented, anyway, with a miniature gold statue by that august organization for the greatest in- dividual contribution to the screen in 1934, Shirley Temple, not yet 6 years old, is the wonder child of the cinema. Not an infant prodigy by any means but an actress of con- summate ease and grace this baby star has, in a single year, won her way into the hearts of millions of movie patrons the world over and commands, in addition to her studio salary of \$1500 a week, double that sum in royalties from Shirley Temple dolls, Shirley Temple books, Shirley Temple frocks and hats and innumerable other gew-gaws which are being turned out, and sold, by the hundreds of thousands.

What manner of child is this tot and what does the future, as an actress hold for her?

Suppose we look into the last part of that question first largely be- cause it has, at this time, no an- swer. What happened to the child stars of other years—the Jackie Coogans, the Baby Peggies, the Wesley Barries and the bunch of pic- tures which brought him his fortune. The others are almost all out of the run- ning. Ninety-nine times out of a hundred child actors do not grow up to continue in the spotlight. Will Shirley prove to be that elusive hundredth?

Venturing a guess we should say probably not. That is, mind you, just a guess based on past per- formances. Give us two more years of her present success at a mount- ing salary she will be a rich girl—her banker-father is watching the financial end carefully. Then she will be ready for some serious schooling and pictures or no pic- tures, she will get it. Her sensible mother will see to that. Shirley, you know, is not a product of the stage or the cinema. She was not cradled in a vaudeville trunk and Mrs. Temple is not a typical "stage moth- er" bent upon pushing her daughter onward and upward under the camera lamps. More later about the preliminary schooling the child is to learn in the next two years. Will she devote her time entirely to study and, after that, will come col- lege. Then, well then we shall see.

GETTING back to the question: "What manner of child is this?" You have, no doubt, read, many times, that Shirley Tem- ple is a natural, playful and un- spoiled little girl. Perfectly natural and playful she is but unspoiled—well not entirely. Her mother, who is with her every minute at the stu- dio, does her very best to counter- act the praise and worship which is showered upon the youngster almost continuously, but she cannot over- come it all. Shirley is still a baby and it would be entirely against all the laws of human nature if she did

not absorb some of the flattery and adulation which is thrown her way. The change, as we happen to have noticed in the last six months, is not serious. The child is still a lovely and sweet little girl, but she is perter and a trifle more, shall we say sophisticated than she was. Not objectionably so by any means, but she is beginning to realize her im- portance and her standing in the studio.

Usually she is kept away from the flattery and praise on the Fox lot. She lunches alone with her mother and nurse in her dressing room. Occasionally, however, for some reason or another, it is neces- sary for the child to be taken into the studio's regular cafe. When she arrives there all other business—the business of eating—stops and Shirley is the center of attraction of all eyes. Stars and extra girls alike vie with one another to get a nod of recognition and older people than this tot have been spoiled by far less acclaim.

But if Shirley is absorbing some of this well-earned praise her mother is her only guiding star. When anyone speaks to her in the Fox cafe or on the lot or in a store she looks at her mother before she turns to see who is addressing her. If her mother seems to indicate that everything is alright Shirley makes an answer of some sort. Always she is polite and always she shows that wonderful smile—if she is satisfied that her mother would approve.

We saw her the other day work- ing in her latest picture. The di- rector made some changes in the scene and told Shirley how to go about playing it. All the time she was talking to her the child was listening—but she was looking, not at the man who was talking, but at her mother. She wanted to know, from the only boss she recognizes,

if the change was the thing to do. Presumably Mrs. Temple nodded, for Shirley, who had seemed inat- tentive, went on and did it the di- rector's way.

Now the child did not pout ex- actly when the director was telling her of the change, but she did not smile either and we seemed to see a trace of resentment in her little face. Perhaps it was only fancy on our part, but we have seen a lot of stage temperament: being born and grown in our time. The indication of it was there.

PUBLIC FAVORITE NO. 1 is one of the titles fastened upon this diminutive star by the pub- licity department of her studio. She has a lot of others. She is a full-fledged colonel upon the staffs of the Governors of six states and the honorary commander of a com- pany of local American Legion posts and in a nation-wide poll conducted by a leading movie magazine re- cently she was named as one of the 10 best box office attractions of the entire world. With Will Ro- gers and Janet Gaynor she shares the honors of being the leading money getters in the opinion of the theater owners of America.

Her debut into pictures was pure- ly accidental. Something less than two years ago a Santa Monica dancing school was asked to fur- nish a number of tiny children to supply "atmosphere" in a one-reel comedy. She was the littlest girl in the dancing class, but she went into the picture with the other chil- dren. Then the youngsters appeared in a series of short pictures called "Baby Burlesques" which were, we seem to recall, pretty terrible com- edies. Also, on account of her size and her smile, she was given a bit in a Paramount film, "To the Last Man."

Shirley went through these

things without attracting any atten- tion. Her mother let her play in them simply because the dancing class was doing it. Neither Mr. or Mrs. Temple had any idea of letting the child really go into the movies. And then came the big break.

With a lot of other youngsters from the dancing school Shirley went out to Fox to take part in "Stand Up and Cheer." She had nothing to do, but when Winnie Sheehan, former newspaper man and now head of the Fox outfit, saw the "rushes" of the children's scenes he spotted Shirley at once and sent for her. She came to his office with her mother and played with the things on Sheehan's desk while he and Mrs. Temple talked.

The talk was satisfactory. Shirley was to get \$100 a week, her mother was to be paid a salary and a part was written into "Stand Up and Cheer" for the little girl.

As the picture progressed in the making, Shirley's small part was padded out many times and when

the film was released to the public the child actress made an imme- diate hit.

SHEEHAN realized that he had a great find in the youngster, but he had no other picture ready with a part for her. Wishing to keep her before the public while she was "hot," she was loaned to Paramount for "Little Miss Mar- ker."

About that time George F. Tem- ple, Shirley's father, got into action. A hard-headed business man, with no stage or screen background, he is the manager of a branch of one of Los Angeles' largest banks. Not a rich man by any means, he knew the value of money and he decided that his daughter was entitled to a bigger share of the receipts from her pictures.

He and Sheehan went to bat. As a result, Mr. Temple came out with a \$1500 a week contract for his daughter.

(Continued Tomorrow.)

## Variation of Psychological Bridge Play

An Example of the Time-Honored Art of Fooling an Opponent.

By P. Hal Sims

"FLIM-FLAMMING," I am told, is the gentle art of fool- ing, an opponent; refined bamboozlement, so to speak. The greatest flim-flammers are neces- sarily the greatest players. You are in a contract. After studying the cards thoughtfully you discover that there is absolutely no play to make it. Therefore, you give up. Not so the flim-flammer. He will find a play where no play exists. It may not be a very good one, but what the deuce! He's down any- way. And it's surprising the num- ber of players that fall for the feeblest subterfuges.

One of the commonest flim-flam- ming plays is to lead the suit you're afraid of before the opponents get around to attacking it. The fol- lowing hands is an interesting vari- ation of that time-honored psycho- logical play:

♠10762  
♥742  
♦K65  
♣1098

♠AKJ  
♥1098  
♦J32  
♣AQJ4

NORTH  
WEST  
EAST  
SOUTH

♠884  
♥AQJ3  
♦8987  
♣76

West found himself playing the hand at three no trumps. He got the favorable opening of the queen of hearts. After winning the trick with the king he counted a grand total of eight tricks: four clubs, three spades and a heart. The queen of diamonds would be the ninth trick, but by the time he got around to setting it up the opponents would win at least three hearts and two diamonds. What would you do?

West had only one play and that was based on South's holding no more than four hearts. Without an instant's hesitation he returned a heart. South won with the jack and naturally discontinued the suit. It looked as if West were trying to set up a long seven spot in his hand. After some thought he shifted to a low diamond.

North won that trick with the king. North had no return, a heart, but North was under the im- pression that his partner had either opened a short suit or made the strange lead of the queen from queen, jack, four. North then plugged away at the diamond suit. The minute he made his queen of diamonds, West "tanked" he got home now," perfectly content to make three no trumps without any over- tricks.

## Blondes why be blind?

Don't shut your eyes to the fact that blonde hair requires special care. Its texture is so delicate that ordinary shampoo methods may cause it to fade, streak or darken. Yet now it's easy to keep blonde hair always lovely. For there is a wonderful shampoo, called Blondex, especially made for blonde hair only, that will bring out all its rich, golden beauty. Helps keep light hair from darkening—brings back the true golden sparkle to dull, dark, faded and streaked blonde hair. Not a dye. Safe. Leaves hair soft, fluffy, silky. Used by millions of blondes. Buy Blondex at any drug or dep't store—either economical \$1.00 bottle or inexpensive 2oz. size. NEW: Have you tried Blondex Wave-Set? Doesn't darken hair—only 35c.

Take care, COLDS-SUSCEPTIBLE!  
AN eminent physician states that of the 60,000 preventable deaths yearly in the U.S., many are due to neglect in treating the common cold. It is vitally important, therefore, that colds be kept under control.  
If you catch cold easily—and your colds hang on—don't take needless chances. Follow Vicks Plan for Better Control of Colds. Thousands of clinical tests, supervised by practicing physicians, have proved its helpfulness—for fewer, shorter and milder colds. (You'll find full details of this unique Plan in each Vicks package.)  
Leftover Ham  
A nice way of using up the left- over boiled ham that proves inter- esting. Fry slices of ham in butter until slightly crisp. Place ham on a heated platter and keep warm while you add to the butter in the pan one teaspoon prepared mus- tard, one teaspoon sugar, three-fourths cup vinegar, one-eighth teaspoon pepper. Boil up and pour over the slices of ham.  
When Colds THREATEN ...VICKS VA-TRO-NOL  
At the first sneeze or nasal irri- tation, quick!—a few drops of Vicks Va-tro-nol. Its timely use helps to prevent many colds, and to throw off other colds in their early stages.  
If a Cold STRIKES ...VICKS VAPORUB  
At bedtime, apply Vicks VapoRub, the modern way of treating colds—externally. Through the night, its poultice-vapor action brings sooth- ing relief. Avoids risks of "dosing."
